Numb. 1768

The London Gazette.

Published by Authority.

From Thursday October 26. to Monday October 30 1682.

Dantzick, Octob. 12.

OUR Polish Letters inform us, That several Hungarian Gentlemen, and particularly the Count *de Humanay*, were arrived at *Cracow*, having been forced to leave their Countrey in the desperate condition things there are at present in: they report that the Turks and the Rebels are in a manner possessed of all the Upper *Hungary*, and that the Turks were making very great Preparations against Spring, when it was said the Grand-Signior would come in Person into the Field. The Letters add, That the King of *Poland* had issued his Circulary Letters for the Summoning a Dyet to meet at *Warsaw* in *January* next.

Stockholm, Octob. 17. This day the Assembly of the States of this Kingdom was opened, with the usual ceremonies, in the presence of the King, Count *Bengt Oxenstern* making a Speech to them, on the occasion of their meeting, in his Majesties name, which was answered by the Baron *de Wrede*, on behalf of the Nobility, by the Archbishop, on behalf of the Clergy, by the Burghermaster *Thegner* for the Burghers, and by one chosen by the Peasants, for them; and this being done, the Assembly ended for that time.

Genoua, Octob. 21. Yesterday departed from this Port the *Advice*, Captain *Spooner*, to Lade Corn for *Majorca*. Three days since Sailed the *Blossom* for *Leghorne*. Monsieur *du Quesne* is returned to *Thoulon* from the Coast of *Barbary*, where he left five Men of War.

Milan, Octob. 14. Our Governor, the Count *de Melgar*, has changed all the Garisons in this State, and continues his care and application for the putting this Country into a Posture of Defence. We have advice that a Defensive Alliance is concluded between the Crown of *France* and the Duke of *Savoy*, and that in pursuance of it, three thousand French Horse are to have their Winter-Quarters in *Piedmont*.

Turin, Octob. 17. The Duke of *Savoy* is perfectly well again, and has appeared several times abroad on Horseback since his Recovery. The Court continues at *Moncalier*, his Highness being much pleased with the place. The *Portugal* Fleet Sailed from *Villa-Franca* the sixth Instant, on its return home. From *Pignerol* they write, That several French Troops arrived there daily; and that three thousand Horse will have Winter-Quarters granted them by our Duke within his Territories. It is said that the City of *Geneua* has made a new Alliance with the Swissers, who have promised to put a good Garison into the said City, whenever there shall be need of it.

Venice, Octob. 17. We have Letters from *Constantinople* of the 12th past, which give an account of the great Preparations the Turks are making; That the Horses Tail, the usual Signal of War, had been hung out; That the Grand Signior intended to pass the Winter at *Adrianople*, and that in the Spring he would himself appear at the head of his Army; and that the Grand-Vizier would go as far as *Belgrade* to give the necessary Orders for the next Campagne; That Count *Caprara*, the Imperial Minister, continued his endeavours to dispose that Court to a Peace, and had made several Proposals for that purpose: and that the Ambassador of this Republick at the Port had had his first Audience of the Grand-Signior. From *Rome* they write, That Cardinal *Taya*, who was one of the Promotion the Pope made about a year since, dyed the fourth Instant, in the 82 year of his age, and that there were now 15 Vacancies in the Colledge of Cardinals: That the Cardinal *d'Estree* had, the ninth Instant, a very long Conferente with Cardinal *Cibo*, concerning the matters in difference between that Court and *France*, and that two days after he had a private Audience of the Pope, who it's said continues very much dissatisfied with the proceedings of the French Court: and that the Marquis *de Liche* was preparing for his departure from *Rome*, where he has resided several years as Ambassador from the Crown of *Spain*, to take possession of his Government of *Naples*. We have advice, by the way of *Dalmatia*, of the Grand-Vizier's departure from *Constantinople* for *Belgrade*.

Vienna, Octob. 20. The Advices we receive from *Hungary* give us every day more and more cause to apprehend a great and heavy War with the Turks. From *Buda* they write, That they had advice that the Grand-Vizier designed to part the seventh or eighth Instant from *Constantinople*, and that he intended to come as far as *Belgrade* to hasten the Preparations that are to be made against the Spring, and that the Grand-Signior would follow about the middle of *November*, but that it was believed he would go no farther than *Adrianople*, and pass the Winter there. Upon these Advices the Emperor, as we are informed, has resolved to send the Baron *de Sapbnard* to *Belgrade*, to make new Proposals of Peace to the Grand-Vizier. Our last Letters from the Imperial Camp gave an account, That a Party of the Rebels had made an Invasion into *Silesia*, (the Polish Governor of *Billowa* having permitted them to pass through his Government) and had made great spoil there; another Party of 2000 Horse intended to have fallen into *Moravia*, and 500 of them had already passed the *Waag* for that purpose, who were attacked by a Party of Imperialists, commanded by Colonel *Diependal*, (he having had notice of their Design) and all cut in pieces, except about twenty, before those on the other side of the River could come to their assistance. Count *Teckeley* has quitted the Berg-Towns, but has taken with him all
