I am, Sir, &c. &c.

CHAS. THOMPSON.

NOTICE to MARINERS.

Copenhagen, August 30, 1798.

IN order to render those Mariners who frequent the Port of Bergen more confident of their Situation when on that Coast, particularly when sailing to and from the said Port by Skuddenees, a new Lantern-Light has been erected on the Point of that Naze, which will begin to burn on the 1st of January, 1799, and continue on the same Regulations as the Rest of the Lights, viz. during the Summer, from Easter till Michaelmas, when it will be lit One Hour after the Setting of the Sun; and during the Winter, from Michaelmas till Easter, it then being lit Half an Hour after the Setting of the Sun, and continuing to burn till Day-light. It is further made known, that this Lantern will be hoisted on a Mast or Pole, close to which a Shed is built and painted White; therefore the same must be seen very plainly in those Directions in which it presents itself to View. The Lantern will be about Three Hundred Feet above the Surface of the Water. It is already known that there has long been a Coal-Light on the Isles of Hvidding, and a Lantern-Light close to Hoyvarden, the latter serving when one has entered Carlsound, to assist in choosing a good Berth to anchor in. Whenever one may wish to bear away for the Bay and enter Carlsound, one ought, with due Attention, be able to distinguish the Light of Skuddenees and Hvidding Isles. This last, which is suspended between Two Poles, gives a Blaze-Light, but that on the Skuddenees, as has been observed, is a Lantern, and gives a clear and steady Light; and besides, this Light cannot be seen when one comes from the Westward, unless one is so much to the Southward
