NOTICE TO MARINERS.

THE Light-House erected on the Island of Anholt, being One Hundred and Twelve Feet above the Surface of the Water, so that the Fire on it, on Account of its extraordinary Height, often misleads Mariners in Point of Distance; Measures have been taken for placing a Lanthorn, at about Half the Height above-mentioned, on the East Side of the Light-House, facing the Flat and Point of Knobens, which may also be seen from a Southern and Northern Direction; but to Ships coming from a Western Direction it will not be visible, being covered by the Light-House. This Lanthorn-Fire will be lighted for the first Time on the 1st of January 1800, from which Time it will be continued every Night, in Addition to the usual Fire.
