*Downing-Street, July 31, 1810.*

**D**ISPATCHES, of which the following are Extracts, were Yesterday received at Lord Liverpool's Office, addressed to his Lordship by Lieutenant-General Lord Viscount Wellington.

*Extract of a Dispatch from Lieutenant-General Lord Viscount Wellington to the Earl of Liverpool; dated Alverca, 11th of July 1810.*

THE Enemy passed the Agara in Force on the Morning of the 4th Instant, and obliged Brigadier-General Craufurd to fall back with his advanced Guard to the Neighbourhood of the Fort of La Concepcion, which had been occupied by a Part of the Third Division of Infantry.

In making this Movement Captain Krauckenburg and Corner Cordeman, at the Head of a small Body of the 1st Hussars, had an Opportunity of distinguishing themselves by making a gallant Charge upon a superior Body of the Enemy.

Upon mentioning the 1st Hussars it is but Justice to inform your Lordship, that they have been with the advanced Guard throughout the Winter, and have performed their Duty in the most satisfactory Manner.

The 3d Battalion of Portuguese Chasseurs, under Lieutenant-Colonel Elder, had also an Opportunity of shewing their Steadiness during this Movement of the advanced Guard, and the skirmishing of the Enemy which attended it.

The 1st Hussars had Five Men and Three Horses wounded, and the 16th Light Dragoons Three Horses killed.

*Alverca, 11th July.*

SINCE I wrote to your Lordship this Day I have received a Report that Ciudad Rodrigo surrendered to the Enemy Yesterday Evening. There was a large practicable Breach in the Place, and the Enemy had made Preparations for a Storm; when Marshal Ney having offered Terms of Capitulation, the Garrison surrendered.

The Enemy took up their Ground before this Place on the 26th April; they invested it completely on the 11th of June, and opened their Fire upon it on the 24th of June; and, adverting to the Nature and Position of the Place, to the Deficiency and Defects of its Works, to the Advantages which the Enemy had in their Attack upon it, and to the

Numbers and formidable Equipment by which it was attacked, I consider the Defence of Ciudad Rodrigo to have been most honorable to the Governor Don Andres Hervault, and its Garrison; and to have been equally creditable to the Arms of Spain with the celebrated Defence of other Places by which this Nation has been illustrated during the existing Contest for its Independence.

There was an Affair between our Picquets and those of the Enemy this Morning, in which the Enemy lost Two Officers and Thirty one Men, and Twenty-nine Horses Prisoners. We have had the Misfortune to lose Lieutenant-Colonel Talbot, and Eight Men of the 14th Light Dragoons killed, and Twenty-three Men wounded.

*P*ursuant to an Act passed in the Forty-second Year of His present Majesty's Reign, Notice is hereby given, That the Price of the Three per Centum Consolidated Bank Annuities, sold at the Bank of England on this Day, was £68 and under £69 per Centum.

*By Order of the Commissioners for the Affairs of Taxes, Matthew Winter, Secretary.*

*Navy-Office, June 25, 1810.*

*T*HE Principal Officers and Commissioners of His Majesty's Navy hereby give Notice, that a Plan of Education has been established, at the Royal Naval College at His Majesty's Dock-Yard at Portsmouth, for a Superior Class of Apprentices to Shipwrights.

That the Number of Students in the Superior Class of Shipwrights' Apprentices shall, in the first Instance, be limited to Twelve, but will gradually be increased to Twenty-five. The period of Apprenticeship shall be Seven Years, but for a Student who may have previously served in the Inferior Class of Apprentices in His Majesty's Yards for the Space of Two Years, it shall be only Six Years, and only Five Years for a Student who may have previously served in the said Class for the Space of Three Years.

An Instructor in the Theory of Naval Architecture will be added to the present Establishment of the Royal Naval College, to assist particularly in the Instruction of this Class of Apprentices.

The Candidates for Admission must produce Certificates from two respectable Physicians or Surgeons that they are of sound Health and Constitution, and likewise Proof from the Register of the Parish in

which they were born, of their being at least Fifteen, and not more than Seventeen Years of Age, excepting Candidates from among the Shipwrights' Apprentices of the Yard, who may be admitted if they shall not have served more than Three Years of their Time. Candidates shall be examined on the first Wednesday in November in each Year, by the Professor of the Royal Naval College, assisted by the Instructor in the Theory of Naval Architecture, in the Presence of the Commissioner of the Yard, the Lieutenant Governor of the College, and Master Shipwright, who shall jointly report the Result of the Examination to the Lords Commissioners of the Admiralty, carefully inserting the Names of the Candidates in Succession according to their respective Merits.

The following shall be the Subjects of Examination, with which every successful Candidate must be perfectly acquainted.

- 1st. Reading English, and writing it with Facility from Dictation.
- 2d. The first Four Rules of Arithmetic, and the Rule of Three in whole Numbers, and also in Vulgar and Decimal Fractions.
- 3d. The first Three Books of Euclid's Elements by R. Simson, with the Exception of Propositions 42, 44, 45, Book I. and of Propositions 8, 9, 10, 11, 14, Book II. In this Part of the Examinations, besides giving the most precise Demonstrations, the Candidates will be expected to make the Constructions in a practical Manner with Compasses and a Ruler.
- 4th. The French Language, a Knowledge of which, although not absolutely required in the Candidates who may present themselves at the first Examination which is to be held, will nevertheless give a Preference to those, who are in all other Respects equally qualified; at all subsequent Examinations, however, the Candidates will be required to read and translate French with Facility.

After Admission into the Superior Class, the Apprentices shall attend at the Royal Naval College Three or Four Hours on the Mornings of every Day in the Week, except Sunday and the established Holidays, where they shall be instructed in such Parts of the following Subjects as shall appear to the Professor of the College to be best adapted to the Object of the Establishment, viz. the Formation of able and useful Ship Builders:

Geometry	Fluxions
Algebra	Theory of Naval
Plane Trigonometry	Architecture.
Mechanics	Drawing
Hydrostatics.	The French Language.

On Mondays, Tuesdays, and Wednesdays, the Apprentices shall be employed at the College during the Hours above-mentioned, in the Study of Mathematics, under the Professor or the Instructor; on Thursday and Friday Mornings in Drawing, under the Drawing Master, the Art of Perspective being most particularly applied in drawing the different Parts of a Ship; and the Morning of Saturday shall be appropriated to the Study of such Books and Exercises in the French Language, under the French Master, as may perfect them therein, and at the same Time advance their professional Knowledge. This Division of Time allotted for their Studies, is, however, to be subject to such Alterations as shall

appear to the Professor best calculated for promoting the Object of the Institution.

In the remaining Part of the Day, when not attending at the College, they shall be employed under the Master Shipwright or Instructor of Naval Architecture, in the Mould Loft, in the various Kinds of manual Labour connected with Ship-building; in the Acquirement of a complete Knowledge of the different Parts of a Ship, and of the Method of constructing and fastening the same, as well as in discriminating her different Properties deducible from theoretical Calculations; also in the Management and Conversion of Timber, and generally, in such other Manner as the Master Shipwright may consider as best adapted to make them fully acquainted with all the Detail of the Duties of a practical Shipwright.

To ensure the Punishment of Offences committed by them during their Attendance at the College, a Book shall be kept by the Instructor, in which such Offences shall be entered; and at the End of each Week, or oftener if there be Occasion, this Book shall be sent to the Office of the Commissioner, who will order such Punishment to be inflicted, as may be conformable to the usual Treatment of Apprentices in the Dock-Yard.

And at the End of each Year, a Public Examination shall take place, in the Presence of the Officers mentioned in the 3d Article, and a general Statement of the Improvement of the respective Apprentices in the theoretical Part of their Profession, shall be transmitted by the Professor of the College, and of their Progress in the practical Part by the Master Shipwright, through the Commissioner of the Dock-Yard, to the Admiralty Office; to the End that, if it shall appear that an Apprentice has particularly distinguished himself in any of the Departments of his Profession, the Lords Commissioners of the Admiralty may confer on him such Mark of their Approbation, as their Lordships may deem expedient.

The last Year of their Apprenticeship, or such Part thereof as the Lords Commissioners of the Admiralty may think proper, shall be served at Sea, in such of His Majesty's Ships as their Lordships shall direct, with a view of obtaining some practical Knowledge in the steering, sailing, trimming, and ballasting of a Ship, in making Remarks on the Motion and working of a Ship, in all her Parts, in bad Weather, and on a high Sea, the standing and straining of the Masts and Yards under such Circumstances, the placing of the fixed Blocks, with a view to the proper leading of Ropes, &c. and, generally, in obtaining such Information, as the Captain, Carpenter, and other Officers of the Ship may, by their Experience, communicate, and such as their own Observations may suggest.

During the Time that such an Apprentice shall be on board a Ship, he will be required to keep a Journal of his Remarks and Observations, arranged under distinct Heads, noting such Improvements in any Part of the Ship, or any Thing connected therewith; as may suggest themselves to him, from a minute Attention to the Circumstances by which a Ship is affected at Sea; a Copy of which Journal is to be transmitted to the Admiralty.

A Cabin or Berth will be allotted to him in the Gun-Room, or in some other suitable Part of the Ship; he shall mess with some of the Officers, and be treated in all respects as a Gentleman.

**Salaries to be allowed Apprentices of the Superior Class.**

If the Appren- tice shall not have served Two Years in the In- ferior Class.	If the Appren- tice shall have served Two Years in that Class.	If the Appren- tice shall have served Three Years in that Class.	Sum.
1st Year			60
2d Year	1st Year		70
3d Year	2d Year	1st Year	80
4th Year	3d Year	2d Year	90
5th Year	4th Year	3d Year	100
6th Year	5th Year	4th Year	110
7th Year	6th Year	5th Year	130

Upon their Return from Sea, until they can be appointed Officers in consequence of Vacancies having occurred, they shall be employed as Overseers of Ships building, in assisting the Master Shipwright, in the different Yards, and their Assistants or Foremen; in the Mould Loft, under the Timber Master, or in any other Situation in which the Master Shipwright may have Occasion to employ them, with the Approbation of the Commissioner; during that Interval they shall have 150l. per Annum, and if such Vacancies should not happen for Three Years after their Return, they shall then have 180l. per Annum until they be provided for.

In order that the Services of young Men, whose Education has been obtained at a considerable Expence to Government, may not be lost on the Expiration of their Apprenticeship, they shall each of them, previously to their Entry in the Yard, be required to find two Sureties, to enter into Bond to the Amount of 500l. and in the Event of an Apprentice being discharged for Misconduct, the Amount of the Bond, or so much of it as may indemnify Government for the Expence incurred in his Education, shall be forfeited.

The Object of this Institution is to improve the Qualifications of the Shipwrights in the Dock-Yards, and thereby to ensure a Succession of Artificers, from among whom Officers of the Description of Master Measurers, Foremen, &c. will be selected, and from those the Appointments of the superior Officers in His Majesty's Dock-Yards, and Surveyors of the Navy, will ultimately be made.

The Day of Examination is fixed for the First Wednesday in November next (7th November 1810). A certain Number of Apprentices now in the Dock-Yards are to be excused from manual Labour, to prepare themselves for the Examination; and this public Notice of the Qualifications expected from those who intend to become Candidates, and of the Day on which such Candidates will be examined, is given, in order that the Number to be entered in the Superior Class of Apprentices (which in the First Year is to be limited to Twelve) may be selected from those best qualified, whether belonging to the Dock Yard or not.

Such Persons of the Description before mentioned, who may be desirous of becoming Candidates for Admission to the Superior Class of Apprentices to belong to His Majesty's Dock-Yard at Portsmouth, are therefore hereby informed, that they will be required to send Notice of their Intention to the Navy Board, or the Commissioner of His Majesty's Dock Yard at Portsmouth, on the 24th of October 1810, and they must be prepared with every Document and Qualification mentioned in this Advertisement, and be at Portsmouth

Dock-Yard at Eight o'Clock on the Morning of the Day of Examination, viz. 7th November 1810, and wait for further Directions from the Commissioner for their Proceedings. R. A. Nelson, Secretary.
