#### NOTICE TO MARINERS.

(No. 90.)—MEDITERRANEAN—EGYPT.

*Lights at Port Said.*

THE French Government has given notice, that the Suez Canal Company have placed four floating lights to mark the narrow channel within the breakwaters, leading to the Basins, at Port Said. After passing the red light on the extreme of the western breakwater, two red lights are to be kept on the starboard hand and two white ones on the port hand.

*Buoy on the East Bank, Port Said.*

Also, that a red buoy has been placed on the East bank of the Admiralty Chart (Banc des Porteurs), Port Said entrance.

NOTE.—Vessels are recommended not to pass at a less distance than half a mile to the northward of the buoy.

By command of their Lordships,  
*Geo. Henry Richards, Hydrographer.*

Hydrographic Office, Admiralty, London,  
8th September, 1870.

This Notice affects the following Admiralty Charts:—Port Said, No. 234, and Damietta to El Arish, No. 2573.

#### NOTICE TO MARINERS.

(No. 91.)—MEDITERRANEAN—EGYPT.

*Dangers off Damietta, Mouth of the Nile.*

WITH reference to Notice to Mariners No. 26, dated 24th February, 1870, wherein Mariners are cautioned against approaching Damietta light too closely on account of off-lying sands and an occasional indraught; information has been received of frequent casualties occurring to vessels in consequence of the light at the Damietta mouth of the Nile being mistaken for that at Port Said, though the two places are 29 miles apart.

Attention is called to the fact that the light within Damietta Mouth, exhibited from a white lantern, supported by three iron columns, painted

black and white in horizontal bands, is a revolving white light, attaining its greatest brilliancy every minute, whilst that at Port Said (an electric light), exhibited from a light grey tower, shows a flash every three seconds; both lights being visible in clear weather from a distance of 20 miles.

Mariners are again cautioned not to approach the Damietta coast too closely; more especially as the off-lying dangers are said to be further from the shore than show on Admiralty Charts, and the precaution of sounding should never be omitted in passing this low coast. A fresh examination of the locality will be made, and if necessary a further notice issued.

By command of their Lordships,

*Geo. Henry Richards, Hydrographer.*  
Hydrographic Office, Admiralty, London,  
10th September, 1870.
