TO be sold by public tender, pursuant to an Order of the High Court of Justice, Chancery Division, made in the matter of the Companies Acts, 1862 and 1867, and in the matter of the Brynmawr Coal and Iron Company Limited, with the approbation of his Lordship the Vice-Chancellor Sir Charles Hall, on the 17th April, 1877, the valuable mining and mineral properties, estate, and effects belonging to the Brynmawr Coal and Iron Company Limited:—

The properties consist of the Tillery and Milfrain Collieries Iron and Tin Plate Works, Limestone Quarry, and freehold estate and houses. The Tillery Collieries are situated at Abertillery, on the Monmouthshire Railway, 17½ miles from Newport, and 33 miles from Cardiff. The property is leasehold and contains about 500 acres of unworked coal. There are winding and pumping pits, with efficient engines and winding and pumping machinery. The accommodation comprises stabling, smith's, carpenter's and saddler's shops. There is an incline for taking away rubbish worked by a 12-inch engine, and 24 ovens for coking small coals. There is also a level driven upon the Red Ash House coal seam.

The Milfrain Colliery is situated on the Brynmawr and Blaenavon Branch of the London and North-Western Railway, and is distant 22½ miles from Newport and 28 miles from Cardiff. This property, the area of which is about 240 acres, is leased from the Blaenavon Company, and is estimated to contain about 1,500,000 tons of unworked coal. The workings are drained by the Blaenavon Pits at an annual cost of £52, and the expense of pumping is thus saved. There are 20 coke ovens, and an apparatus for washing small coal for coking purposes. The principal portion of the two collieries is held on leases, of which 34 years are unexpired. The dead rents amount to about £3,400 per annum, which are redeemable in royalties averaging 7d. per ton.

The freehold estates comprise:—(1.) The Cwm and Gelly Crug Estates, adjacent to the Tillery Colliery, containing 247 acres. The minerals under these valuable properties are intact. A large number of houses are already built and others are in course of erection, estimated to produce a surface revenue of £640 per annum. (2.) The Clydach property containing 40 acres, upon which the ironworks are built. (3.) The Penydddydwyn property, containing 47 acres, principally farm land. On these two properties there are a large number of cottages, stabling for 25 horses, and shoeing and saddler's shops, &c.

The ironworks are built on freehold land and are situated on the London and North-Western Railway, about five miles from Abergavenny, and they possess also canal communication with Newport. The works comprise forge and mill, 14 puddling and four baling furnaces, mill train, fitting and roll turning shops, foundry, smiths' and carpenters' shops with all necessary plant and equipment. The machinery is, driven by water and auxiliary steam power.

The tin plate works are situate on leasehold land, seven years of the lease being unexpired. The approaches, however, on both sides are in the hands of the Company, and it is anticipated that there will be no difficulty in obtaining a renewal. The works comprise eight puddling and two baling furnaces, bar mill, steam hammer, two plate mills, and the machinery here is also driven by water and steam power. There are stables, fitting, and pattern shops, sheds for stores, &c., all complete and in efficient working order.

The limestone quarry is situated on the London and North-Western Railway near the ironworks. The works are all in

No. 24440.
