Board of Trade (Fisheries Department),
London, July 7, 1896.

THE Board of Trade have received, through the Consul-General for Russia, the following copy of a Circular relating to the importation of rags into that country, viz. :—

Circular No. 7197, from the Department of Customs.

Dated St. Petersburg, April 1, 1896.

The Department of Customs has ascertained that the various custom-houses on the occasions when rags are imported from abroad accompanied by a certificate of disinfection also demand a certificate as to the non-infection of the locality of the origin of the said merchandise. Taking into consideration that, according to Section 8 of the

Circular of the Medical Department of the 5th September, 1893, No. 1475, the rags can be imported from abroad without any impediment only when they are disinfected, and that in proof of the same it is necessary to produce an official certificate of the authorities from the place of export to the effect that the disinfection really took place; in the contrary case they must be sent for disinfection to those frontier points where there are in existence means for disinfection. The exception to this rule is only allowed in such cases when the factories or stores receiving the rags are situated near the frontier and possess the means for disinfection.

Therefore the Department of Customs informs the custom-houses for due fulfilment that at the time of the clearing of the rags it is necessary to guide themselves by the above stated Order of the Ministry of the Interior, and that their demand of a certificate of non-infection from the place of origin of the rags, besides the certificate of disinfection of the rags, cannot be sustained, as the Ministry of the Interior informs all concerned by means of publications in the Government Messenger of all countries which are infected with contagious diseases.

All previous Orders relating to the importation of rags, which are not in accordance with this circular, must be considered as cancelled.

Sec. 8. The rags can be imported from abroad without any hindrance in a disinfected state only, if otherwise they must be sent for disinfection to those frontier points where means for disinfection exist, the exception to this is only allowed in such cases where the manufactories or works receiving the rags are situated near the frontier and possess the means for disinfection.

Singapore—Signal made when Time Signals Fail.
WITH reference to Notice to Mariners, No. 418 of 1893:—

The Government of the Straits Settlements has given notice, dated 1st June, 1896, that when the time signal ball at Fort Canning or at Pulo Brani, Singapore, fail to drop correctly, the flag "W" will be hoisted at the time ball mast, and the ball will be lowered slowly by hand a few minutes after 1h. p.m., but it will be again hoisted at 1h. 55m. p.m., and if it fails a second time, the flag "W" will be again hoisted.

Should the time ball be under repair, the flag "W" will be kept flying until the repairs are completed.

Masters of vessels, wishing to obtain correct time, may then, by applying at the Master Attendant's office, compare their chronometers with the standard clock in the Observatory.
