The limits, within which these rules are to be observed, extend from the furthest point seaward to which sea channels, or approaches thereto, of

the River Mersey, are buoyed on both sides, to the Rock Lighthouse :—

1. Every vessel, including river craft, in any part of the River Mersey, or in the sea channels or approaches thereto as above defined shall, on and after the 16th day of August, 1897, observe and obey the "Regulations for preventing Collisions at Sea" made in pursuance of the "Merchant Shipping Act, 1894," hereinafter called "the General Regulations," and which may from time to time be in force, with the exceptions and additions mentioned in the following rules.

NOTE.—The numbers quoted in these rules refer to the Articles in the General Regulations made on the 27th of November, 1896.

3. Canal flats and all other vessels with or without masts, whilst being towed, shall carry the lights prescribed for sailing vessels by Article 5 of the General Regulations.

4. A steam vessel, when towing another vessel, shall, in addition to the compulsory lights prescribed by Article 3 of the General Regulations, carry a small white light abaft the funnel or aftermast for the vessel towed to steer by, but such light shall not be visible forward of the beam.

5. In lieu of Article 10 of the General Regulations, a vessel under way (except as hereafter by this Rule provided), shall carry at her stern a white light. The light shall be fixed and carried in a lantern so constructed, fitted, and screened that it shall throw an unbroken light over an arc of the horizon of 12 points of the compass, viz., for 6 points from right aft on each side of the vessel, so as to be visible at a distance of at least a mile. Such light shall be carried as nearly as practicable on the same level as the side lights.

Provided that the vessels referred to in Article 7 of the General Regulations (viz., steam vessels of less than 40, and vessels under oars or sails of less than 20, tons gross tonnage respectively, and rowing boats) shall not be obliged to carry the light prescribed by this rule, but if they do not carry such light they shall, when being overtaken, by another vessel, show from the stern a white light or a flare up light as required by Article 10 of the General Regulations.

6. In lieu of Article 11 of the General Regulations, a vessel when at anchor, except—

(b) as hereafter in this Rule provided, shall carry in the forward part of the vessel, at a height of not less than 20, and not exceeding 40, feet above the hull, a white light, in a lantern so constructed as to show a clear, uniform and unbroken light visible all round the horizon at a distance of at least a mile, and at or near the stern of the vessel and at such a height that it shall not be less than 15 feet lower than the forward light, another such light.

Provided that the vessels referred to in Article 7 of the General Regulations (viz., steam vessels of less than 40, and vessels under oars or sails of less than 20, tons gross tonnage respectively, and rowing boats) when at anchor shall not be obliged to carry the lights prescribed by this Rule, but if they do not carry them each of such vessels shall carry in a place where it can best be seen, and at a height above the gunwale of not less than 9 feet, a white light in a lantern so constructed as to show a clear, uniform and unbroken light visible all round the horizon at a distance of at least a mile.

7. A vessel, except as hereafter in this Rule

provided, having on board any explosive, except ship's ammunition, shall, when at anchor, carry a red light, in a globular lantern not less than 10 inches in diameter, 6 feet above the forward white light prescribed by Rule 6 hereof.

Provided that a vessel entitled to carry and carrying the white light prescribed by the proviso to Rule 6, shall carry the red light above described, not less than 3 feet above such white light.

8. A vessel anchored to mark the position of a wreck or other obstruction, shall carry, in all weathers from sunset to sunrise, two white lights, in lanterns so constructed as to show a clear, uniform and unbroken light visible all round the horizon at a distance of at least a mile, which lights shall be placed horizontally on a cross yard on the foremast, at a height not exceeding 20 feet above the hull and not exceeding 20 feet apart, and the said vessel shall carry, in all weathers between sunrise and sunset, two black balls placed as hereinbefore ordered with regard to the lights aforementioned.

9. A vessel of 350 feet or upwards in length when at anchor shall, during fog, mist, falling snow or heavy rain storms, whether by day or night,

The bell shall be rung and the gong, triangle or other article sounded respectively for a period of about five seconds at intervals of not more than one minute.

The length of a vessel shall be deemed to be the length appearing in her certificate of registry.

10. Every steam vessel under way shall, when it is safe and practicable, keep to that side of the fairway or mid-channel which lies on the star-board side of such vessel.

DREDGERS.

11. The word "dredger" shall mean any vessel fitted with plant or apparatus for dredging or excavating or fitted with plant or apparatus for eroding or dispersing sand and other material.

12. A dredger, when at work or in position for working, shall carry the following lights and signals, viz. :—

By Night—

(a.) In the forward part of the dredger, at a height of not less than 20, and not exceeding 40, feet above the hull, a white light, in a lantern so constructed as to show a clear, uniform and unbroken light visible all round the horizon at a distance of at least a mile.

(b.) Three such white lights amidships, placed in triangular form not less than 8 feet apart, the base of the triangle to be at least 10 feet higher than the forward light, and to be also higher than and clear of the framework, funnels, or any other erections upon the dredger.

(c.) One such white light, at or near the stern of the dredger, and at such a height that it shall be not less than 15 feet lower than the forward light.

(d.) A dredger when not making any way through the water shall not carry side or stern lights, but when making way shall carry the usual red and green side lights and the stern light prescribed by Rule 5 hereof.

Three red balls amidships, of not less than 2 feet in diameter, placed in triangular form not less than 8 feet apart, the base of triangle to be

higher than and clear of the framework, funnels, or any other erections upon the dredger.

13. The lights and signals required to be carried by Rule 12 are to be taken by other vessels as signals that the vessel showing them is not under command, and cannot therefore get out of the way.

14. A dredger, when not at work nor in position for working, shall carry the ordinary lights and signals required to be carried by vessels for avoiding collisions, as provided by these Rules and by the Rules and Regulations now and from time to time in force under the "Merchant Shipping Act, 1894," and the "Mersey Channels Act, 1897."
