*Board of Trade (Fisheries and Harbour Department), London, January 31, 1899.*

(Translation.)

Republic of Colombia—Department of Panama—Secretaryship of Government—Second Section—Department of Hygiene—Circular No. 50—Panama, 13th of December, 1898.

SIR,—For your information and guidance I transcribe to you a resolution approved by the Central Hygiene Committee, and communicated to this Department by the Minister of Government. It states as follows:—

"No vessel that presents itself in the ports of Colombia with foul patent (bill of health), or with an infectious disease on board, will be admitted to free pratique. This Order shall be in effect until the respective authorities, in accord with the Departmental Boards of Hygiene, shall adopt sites for quarantine stations, in accordance with the ruling of resolution No. 8 dictated by this committee, whilst Government erects disinfecting apparatus for which it is empowered by special law, cargoes should be aerated and exposed to the sun for fifteen days."

The committee takes advantage of the present opportunity to reiterate the notice it has given Government that it is urgent to order the adoption of sites for quarantine stations in the principal ports of the Nation, and the installation of disinfecting apparatus; since the lack of one and the other causes the adoption of measures which, like the present, are necessary to safeguard the towns, but which notably injure commerce.

God save you,

JULIO J. FABREGA.

NOTE.—This circular was transcribed to the President of the Hygiene Board, to the Prefects of Panama and Colon, the Mayor of Bocas del Toro, and the Inspectors and Health Officers of the same ports.

*The Peiræus—Harbour Works.*

WITH reference to Notice to Mariners No. 744 of 1898:—

The Hellenic Government has given further notice, dated 28th December, 1898, respecting the harbour works now in progress in the Peiræus:—

a. Fifty yards of the southern portion of the shoal off the saluting battery will eventually be removed by the dredging now in progress. The red fixed light hitherto shown from a red pyramid has been discontinued, and will be re-exhibited at the southern end of the remaining portion of the shoal when the work is completed.

During the operations the dredger employed (which will work from south to north) will show a red flag during the day and a red fixed light by night on her outer extremity as a mark for the limit of the passage.

b. The buoy (red) marking the works in connection with the breakwater extending from Cara Krakari is now moored near the position of its projected head, with Cara Krakari Column bearing N. 9° W., distant 1½ cables, and north extreme of Cape Miaulis N. 88° E.

Approximate position, lat. 37° 56' N., long. 23° 37' E.

c. From the point about 1½ cables westward of Cape Miaulis, it is proposed to construct a mole extending about 120 yards N.W. by W. from the point. A buoy will mark its proposed head before the work commences.

[Variation 6° Westerly in 1899.]
