FRIDAY, FEBRUARY 21, 1908.

Whitehall, January 18, 1908.

The KING has been pleased to allow Miss Margaret Jane Lamb, of Newcastle-upon-Tyne, to receive the Edward Medal of the First Class in recognition of the gallant action of her brother, the late George Huddleston Lamb, who lost his life in endeavouring to save the lives of five men at a fire at the Strathcona Company's Mine, at Strathcona, in the Province of Alberta, Canada, on the 8th June, 1907.

There were two shafts in the mine, a hoisting shaft and an air shaft. The engineer of the mine woke Lamb at about 11.25 p.m., when the fire was discovered, and told him that there were five men in the mine. Lamb descended three times, once by the air shaft, and having found the men urged them to escape by the ladder, saying he would remain until they had ascended. One man made an attempt, but returned. Lamb himself then succeeded in reaching the surface, but his clothes were in flames, and he died shortly afterwards from the effect of his injuries. The others seem to have endeavoured to follow him, but failed, either because they were overcome by the smoke or because the ladder was burned.

THAMES CONSERVANCY.

NOTICE is hereby given, that the Conservators having taken into consideration the objections and representations which have been made to them respecting the proposed Bye-laws for the regulation of the River Thames and the navigation thereof, and for other purposes, which said proposed Bye-laws were published in the London Gazette of the 12th day of July, 1907, and in "The Times" newspaper of the 13th and 20th days of July, 1907, have made the following alterations in the said Bye-laws:—

Interpretation Clause—Bye-law 4.

The following definition has been altered, and will now stand as follows:—

A vessel is "under way" within the meaning of these Bye-laws when she is not at anchor, moored, or made fast to the shore, or aground, and when she is dropping up or down the river with her anchor on the ground.

Provided that steam vessels which navigate both above and below London Bridge shall not be required to carry their lights at a greater height than twelve feet above the hull.

Above London Bridge.

Such steam vessels when navigating above London Bridge may carry the white light at any convenient height above and in line with the stern.
