#### ADMIRALTY NOTICE TO MARINERS.

##### No. 7.

##### CAUTION WITH REGARD TO SINGLE SHIPS APPROACHING SQUADRONS OR AIRCRAFT CARRIERS.

*Former Notice.*—No. 7 of 1947; hereby cancelled.

(1) The attention of shipowners and mariners is called to the danger to all concerned which is caused by single vessels approaching a squadron of warships or merchant vessels in convoy so closely as to involve risk of collision or attempting to pass ahead of or through such a squadron or convoy.

(2) Mariners are therefore warned that single vessels should adopt early measures to keep out of the way of a squadron or convoy.

(3) The fact that it is the duty of a single vessel to keep out of the way of a squadron or convoy does not entitle vessels so sailing in company to proceed without regard to the movements of the single vessel. Vessels sailing in a squadron or convoy should accordingly keep a careful watch on the movements of any single vessel approaching the

squadron or convoy and should be ready, in case the single vessel does not keep out of the way, to take such action as will best aid to avert collision.

(4) Attention is also drawn to the uncertainty of the movements of aircraft carriers, which must usually turn into the wind when aircraft are taking off or landing. Furthermore, Mariners should realise that by night His Majesty's aircraft carriers, whether engaged on night flying operations or not, may display navigation lights (except the overtaking light) sited on the island structure only. This structure is always on the starboard side.

This in effect means that the bow lights do not indicate the full width of the ship; the starboard bow light is on the starboard side, but the port bow light may be as much as 100 feet from the port side.

*Note.*—This Notice is a repetition of the former Notice quoted above, with amendments to para. (4).
