DEPARTMENT OF ENERGY

PETROLEUM (PRODUCTION) REGULATIONS 1982 (S.I. 1982 No. 1000)

1. The Secretary of State for Energy hereby gives notice that the arrangements for landward production licensing under the above Regulations will be as follows.

Consideration for licences

2. The Secretary of State for Energy, with the consent of the Treasury, has determined that, until further notice, the consideration required in respect of (i) petroleum Exploration Licences for landward areas above the low water mark and (ii) petroleum Production Licences for landward areas (as defined in Regulation 3 (1) (a) of the above-mentioned Regulations), shall be as follows:

(a) *Exploration Licences*, upon the acceptance of the offer of a licence, a non-recurrent fee at the rate of £50 per square kilometre in the licensed area.

(b) Production Licences

(i) upon acceptance of the offer of a licence, a payment covering the initial four-year term of the licence, at the rate of £80 per square kilometre in the licensed area ;

(ii) on exercise of the option contained in model clause 3 of Schedule 4 to the above-mentioned Regulations to continue the licence for a further period, the sum calculated at the rate of £150 per square kilometre in the continuing part of the licensed area, payable on the fourth anniversary of the date of the commencement of the licence term ; on the fifth anniversary similarly the sum calculated at the rate of £300, and thereafter similarly sums rising by annual increments of £250 until an annual sum calculated at the rate of £2,300 per square kilometre in the licensed area will be payable ;

(iii) a royalty (as described in Clauses 8 to 11 of Schedule 4 to the above-mentioned Regulations) at the rate of 12½ per cent.

Criteria and Conditions

3. Applicants will be judged against the background of the continuing need for expeditious, thorough and efficient exploration to identify landward oil and gas resources, and the following factors in particular will be borne in mind when applications are examined:

- (a) technical competence to undertake a programme of exploration and production work ;
- (b) capability to produce funds commensurate with work programme obligations in respect of initial exploration and the extent of access to adequate funds in the event of a commercial discovery being made ;
- (c) where the applicant already holds or has held any landward or seaward licence or licences, his overall performance to date in meeting licence obligations. In cases where the applicant holds a petroleum production licence, especial consideration will be given to the applicant's performance in thoroughly exploring and where appropriate appraising the licensed area, and to his intentions on further exploration and appraisal of that area ;
- (d) exploration already done by, or on behalf of, the applicant which is relevant to the area applied for ;
- (e) whether the applicant is willing to undertake to ensure that full and fair opportunity is provided to United Kingdom industry to compete for orders for goods and services in respect of his operations ;
- (f) the contribution which the applicant has made, or is planning to make, to the economy of the United Kingdom ;
- (g) where a body incorporated in a country outside the United Kingdom applies for a licence or holds a controlling interest in the applicant, how far equitable treatment is afforded in such other country.

4. The Secretary of State has informed the British Gas Corporation that it will be free to apply for landward licences. The Corporation however will be expected, in applying for new licences, to confine its aims strictly to searching for gas as envisaged by the powers granted to the Corporation under Section 2 (2) of the Gas Act 1972 and to limit accordingly its applications, whether made solely or as a part of a consortium, to areas of gas prospectivity. This will be one of the principle factors in judging, in the light of the geological evidence, any application from the Corporation, or from any consortia including the Corporation. The Corporation would be required to dispose of any oil discoveries it might make while searching for gas under any landward licence.

5. Licences will be granted on the basis that successful applicants will be required, on the day the licence is issued, to enter into an Agreement under seal with the Secretary of State and the British National Oil Corporation (B.N.O.C.) which will provide that B.N.O.C. will, if the Secretary of State so wishes, have the option to take at market price up to 51 per cent of the petroleum (other than natural gas) produced from the licensed area. The percentage will be calculated after taking into account any petroleum required to be delivered to the Secretary of State as royalty in kind. The Agreement (excluding the Schedules referred to therein) will be in the form of the Appendix to this notice, and will provide that in specified circumstances the licensee will, if so requested by the Secretary of State:

(i) execute a Deed of Assignment assigning the licence from the Licensee to the Licensee and B.N.O.C. jointly ; and will

(ii) enter into a further agreement containing provisions under which B.N.O.C. will take the petroleum. The current text, of the Schedule to the Agreement giving the provisions relating to B.N.O.C.'s rights and the limitation of those rights will be made available on request from the Department of Energy.

6. In all cases where the Secretary of State favourably considers an application, a licence will be offered on condition that, within 14 working days of the date on which the Secretary of State makes the offer, the applicant:

- (a) confirms his acceptance of a work programme proposed by the Secretary of State following discussion with the applicant ;
- (b) remits to the Secretary of State the appropriate initial payment for the licence ; and
- (c) confirms in writing that he is prepared to enter into the Agreement described in paragraph 5 above.

7. Where the holder of an exploration licence for a landward area above the low water mark is successful in an application for a production licence for the whole or part of the same area, the Secretary of State will be prepared to consider, without commitment, arrangements to allow the relevant area of the exploration licence to be surrendered forthwith so as to enable the production licence to take immediate effect.

8. Applications should be made on a standard application form available from the Department of Energy, and be delivered to the Petroleum Production Division of the Department at Thames House South, Millbank, London SW1P 4QJ, together with a remittance in respect of the appropriate application fee calculated in accordance with Regulation 11 of the Petroleum (Production) Regulations 1982.

9. Material referred to in this notice as being available from the Department of Energy, and also details of areas already covered by existing landward petroleum licences may be obtained from the address given in paragraph 8 above (telephone 01-211 6395).

10. The Petroleum (Production) Regulations 1982 came into operation on 16th August 1982, and the arrangements announced by notice in the issue of this *Gazette* dated 5th August 1980 will continue to apply to applications made before 16th August 1982.
