NOTICE

TREASURY MINUTE dated 16th May 1989.

The Lords Commissioners of Her Majesty's Treasury read section 3(2) of the National Loans Act 1968 (1968 C.13 as amended) whereby any sums borrowed from the Public Works Loan Commissioners shall bear interest at such rates as the Treasury may determine from time to time in accordance with section 5 of the said Act.

- (ii) Different rates of interest shall be charged on such fixed rate loans according to whether the principal of a loan is repaid by instalments or at maturity and, if repaid by instalments, whether by equal instalments of the principal with interest paid on the decreasing balance of the principal (E.I.P.), or by instalments of equal repayments of the principal and interest paid thereon (E.R.);
- (iii) The rates of such interest shall be:

WATER RESOURCES ACT

MID KENT WATER COMPANY

DROUGHT ACT 1976

Water Shortage

Notice of application for emergency orders to vary licence conditions to ground water sources and restrict or prohibit the use of water for certain specified uses

In view of the exceptional shortage of rain, very limited recharge to aquifers has occurred and a serious deficiency of supplies of water is threatened in the statutory area of The Mid Kent Water Company.

Notice is hereby given that in order to ensure maintenance of essential supplies of water to its consumers this summer the Company is applying to the Secretary of State for the Environment for an Order pursuant to Sections 1(3)(e) of the Drought Act 1976 to modify conditions relating to the abstraction of water from the Chalk Strata at Boughton, Wineycock Shaw, Howfield, Thanington, Godmersham, Chilham and Hoplands Farm Pumping Stations and from the Lower Greensand Strata at Borough Green (including Nepicar Lane) and Charing Pumping Stations. The modifications would provide for temporary increases in the existing authorised maximum day abstraction quantities which would also necessitate a temporary increase in the authorised annual quantities in certain cases. The proposed modifications would also involve the temporary suspension of the compensation water provisions for the Chilham and Godmersham licences and the temporary suspension of the restricted abstraction conditions for the Howfield and Thanington licences with respect to the 104.6 Ml/d (23 m.g.d.) flow conditions in the River Great Stour as measured at the Horton Gauging Station. Details of the existing and temporary modifications are indicated in the table below:

Notice is also hereby given that the Company is applying to the Secretary of State for the Environment for an Order pursuant to section 1(3)(b) of the Drought Act 1976 and in accordance with the Drought Direction 1984 to authorise prohibition or limitation of the use of water for non essential purposes. In this respect the Company is seeking authority to prohibit, should this be deemed necessary:

- the cleaning of industrial premises and plant for any reason other than safety or hygiene;
- the operation of ornamental fountains or cascades, including any where water is recycled;
- the operation, in relation to any building or other premises of any cistern which flushes automatically, during any period when the premises are wholly or substantially unoccupied.

A copy of this application together with an accompanying plan may be inspected by any person free of charge during all reasonable office hours at the Company's Principal Office, High Street, Snodland, Kent, at the Eastern Divisional Office, Odsal House, Harbledown, Canterbury, Kent, and the Western Divisional Office, King Street, Maidstone, Kent, for a period of seven days from the publication of this notice.
