Kingston Communications (Hull) Limited*

The Director General of Telecommunications ("the Director"), in accordance with section 12(2) of the Telecommunications Act 1984 ("the Act"), hereby gives notice that he proposes to modify Condition 29 of the Licence granted to Kingston Communications (Hull) Limited ("Kingston") on 30th November 1987 ("the Kingston Licence") under section 7 of the Act for the running of the telecommunications systems specified in Annex A to that Licence.

The modification which the Director proposes to make and the effect of the modification are described in the Schedule below.

The reason why the Director proposes to make the modification is to afford greater quality of service to users of telecommunications services provided by Kingston.

The Director is required by section 12(2) of the Act to consider any representations or objections which are duly made and not withdrawn.

Representations or objections to the proposed modification may be made to: Mr D. G. Hyde, Director, Consumer and International Affairs, Office of Telecommunications, Export House, 50 Ludgate Hill, London EC4M 7JJ, before 10th May 1993.

Further details of the proposed modification may be obtained from the above address (telephone 071-634 8857).

SCHEDULE

Proposed Modification of the Kingston Licence

The proposed modification to Condition 29 of the Kingston Licence would require Kingston to apply, under section 24 of the Act, and within a timescale to be specified by the Director, for approval of meters of a description specified by the Director which are in use on a date specified by him. Kingston would also have to apply for approval of meters of a specified description not in use on that specified date no later than a date further specified by the Director, or not less than six months before Kingston intended to bring such meters into use, whichever shall be the later. Kingston would be prohibited from keeping in use or bringing into use after a date specified by the Director any description of meter specified by him which is not approved and for which Kingston has not made an application for approval.

Where approval is not granted or is withdrawn, Kingston would be required to inform the Director of the remedial action it proposes to take and of the anticipated date of approval or of the programme for the cessation of use of that description of meter.

Kingston would also be prohibited from rendering bills which were higher than warranted by the extent of telecommunication service which it had actually provided. It would be obliged to have a billing process which would facilitate its compliance with its billing obligation. Kingston would be afforded a defence of having taken all reasonable steps to prevent a contravention of its billing obligations.

Kingston would be obliged to keep records for the purpose of satisfying the Director that its billing process met the requirements of the Licence.

Powers to require information and of examination, inspection and testing would be conferred on the Director so as to allow him to verify that the billing process met the requirements of the Licence.

Statutes in Force

A vital reference work on the law of the land

What is *Statutes in Force*?

Statutes in Force is the official revised edition of the statutes. It provides the text (without commentary) of the current statute law of the land, in a way which is

comprehensive

convenient

constantly updated

The complete edition consists of 107 looseleaf binders which contain hole-punched crown quarto (246 x 189mm) booklets - giving a total of some 60,000 pages. The Acts are arranged, not in purely chronological order, but classified into 125 groups according to subject matter.

Statutes in Force is intended to be a permanently renewable edition of revised statutes. It is kept up to date in a number of ways:

- The issue of new Acts for insertion into their appropriate groups (they are published in complete text form usually within two months after Royal Assent)
- The issue of instructions for the removal of repealed Acts
- The publication of revised reissues of heavily-amended Acts
- Cumulative supplements for each affected group giving particulars of amendments and partial repeals (pending their eventual incorporation in revised reissues of the affected Acts).

Customers may obtain copies of any individual Act in the *Statutes in Force* edition. This service will be of most benefit when ordering heavily amended Acts which have been revised and re-issued or Acts which are now out-of-print in the original (Queen's Printer) version.

There's a free leaflet on *Statutes in Force* available from:
