Controlled clinical studies carried out in adult and elderly (>65 years) patients suffering mainly from Major Depressive Disorders, have demonstrated that reboxetine is effective in the therapy of acute episodes of depression as well as in the prevention of re-emergence of symptoms of depressive illness when administered on long-term therapy. The results of the studies indicate that the primary effect of reboxetine is on the nuclear symptom (depressed mood) of depressive illness. However, the positive effect is also seen on accessory symptoms related to arousal (insomnia, decreased activity level) and on anxiety and somatic symptoms. The remission of the acute phase of the depressive illness is associated with an improvement in the patient's quality of life in terms of social adaptation.	10th April 1997

OFFICE OF TELECOMMUNICATIONS

Notice of modifications to the Licence of British Telecommunications plc under the Telecommunications Act 1984

The Director General of Telecommunications (the 'Director'), in accordance with section 12(2) of the Telecommunications Act 1984 ('the Act'), hereby gives notice that he proposes to make modifications to the licence granted to British Telecommunications plc ('BT') on 22nd June 1984 ('the Licence').

2. Condition 13 of the Licence provides for agreements for the connection of systems providing connection services. Condition 16A provides for the publication of information relating to Condition 13 agreements. Condition 16B requires BT to refer for determination by the Director the charges for Standard Services. Condition 20B provides for the production of audited financial information. Condition 46 concerns the provision of Private Circuits.

3. The principal modifications which the Director proposes to make to the above Conditions and their effect are the introduction of new mechanisms of regulating BT's 'wholesale' charges to other network operators by:

(a) modifying Condition 13 to remove the power of determination by the Director of charges or any other terms of interconnection agreements, and changing the cost base of interconnection charges from historic fully allocated costs to forward looking long run incremental costs (plus mark up for common costs), and the imposition of obligations on BT to agree interconnection on terms and conditions (including charges) which are non-discriminatory and reasonable;

(i) BT must publish notice of any change to a charge with information on components of services and routing factors.

(ii) private circuit services will be removed from the ambit of Condition 13 and Condition 46 will be deleted, so these services will be required to be provided under Condition 1.

(iii) once the licences of operators entitled to interconnection under Condition 13 have been modified to bring them into line with these modifications, the Director will be required to consider any issues concerning the provision of services by an operator to BT with reference to the provisions of the operator's licence.

(iv) when charge controls do not apply, and the Director considers a charge for a service unlikely to be competitive before 30th September 2001 to be unreasonable, he may impose a charge cap.

(b) implementing a new framework of charge controls to apply from 1st October 1997 to 30th September 2001, and giving BT flexibility to set its own interconnection charges depending on the competitiveness of the interconnection service concerned:

(i) *for competitive services*: BT will be free to set charges (subject to the generally applicable provisions of its licence and general competition law); new services will be deemed competitive unless the Director determines them otherwise.

(ii) *for prospectively competitive services (those which are expected to become competitive during the period of the controls) and public emergency services*: safeguard caps of RPI+0% will apply each year to the interim charge for 1997-98 for each service so that charges may not rise in real terms. This will essentially be a back-stop provision—as services become competitive, charges will be driven down below the safeguard level.

(iii) *for bottleneck and non-competitive services*: charge caps will be introduced on 3 separate baskets of interconnection services to ensure that charges reflect efficiencies BT could be expected to achieve in a competitive market so as to reduce its network costs. The weighted average of the starting charge (charges to be agreed between BT and the Director before the modifications come into effect) for services in the baskets will be allowed to increase by no more than RPI-X each year if the change in the RPI is greater than X, or must fall by at least X-RPI if the change in RPI is smaller than X. The value of X proposed for all three baskets is 8%.

(c) imposing as a corollary of the greater freedom given to BT to set charges an obligation on BT to demonstrate that its charges are reasonably derived from the costs of the service.

(d) retaining requirements in Condition 16B (deleted) on BT to offer services and charges which are not unduly discriminatory and to publish a Standard List identifying *inter alia* Standard Service charges and details of components of services and routing factors and to determine that a service market is competitive.

- (e) absorbing Condition 16A (which requires the publication of interconnection agreements) into Condition 13.
- (f) modifying Condition 20B to reflect the end of determinations of interconnection charges and the change to the cost basis for interconnection services. Provisions which require BT to maintain current cost accounting records on the same basis as those prepared on an historic cost basis are inserted and BT will be required to produce statements of long run incremental costs.
- (i) BT will be required to publish any comments made by the Director on the financial statements.
- (ii) BT's obligation to produce historic cost statements will end with the financial year 1998-99.
- (iii) BT's obligation to produce interim financial statements will end with the financial year 1997-98.
- (iv) Final charges for 1997-98 will be based on the Interim Financial Statements.

4. The Director also proposes to make a number of minor and consequential modifications for the purposes of the modifications mentioned above.

5. The Director proposes to make the modifications because they will provide a framework which is more appropriate for a maturing and increasingly competitive market better reflecting the basis on which commercial businesses in competitive markets make investment decisions. He proposes to make the modifications referred to in paragraph 3(f) above to improve the examination and investigation by the Director of whether charges offered are properly and transparently derived from costs.

6. Further explanation of the reasons for the proposed modifications are set out in OFTEL's consultative documents 'Network Charges from 1997' (December 1996 and May 1997), and its statement, 'Network Charges from 1997' (July 1997).

7. The Director is required by section 12(2) of the Act to consider any representations or objections to the proposed modifications which are duly made and not withdrawn. Following such consideration, the Director proposes to make the modifications forthwith subject to BT's consent to them.

8. Representations or objections to the proposed modifications may be made to the Director by 22nd August 1997, and should be addressed to Chris Taylor, at OFTEL, 50 Ludgate Hill, London EC4M 7JJ, (0171-634 8850), from whom a copy of the proposed modifications may be obtained on or after 25th July 1997. Any confidential material should be clearly marked as such and separated out into a confidential annex. All representations or objections received by OFTEL, with the exception of material marked confidential, will be made available for inspection in OFTEL's library. Short comments can also be e-mailed to OFTEL at netcomp.oftel@gtnet.gov.uk.

9. Following 22nd August 1997, there will be a 2 week period to 5th September 1997, during which interested parties are invited to comment on the representations and objections received. (11 SI)

PROPOSED MODIFICATIONS OF THE LICENCE OF BRITISH TELECOMMUNICATIONS (BT)

The Director General of Telecommunications ("the Director"), in accordance with section 12(2) of the Telecommunications Act 1984 ("the Act"), hereby gives notice that he proposes to make modifications to the licence granted to British Telecommunications ("BT") on 22nd June 1984 ("the Licence").

The Director proposes to make the modifications, described in the Schedule below ("the Schedule") to provide a degree of additional regulatory reassurance that BT will continue to adhere to its licence obligations in the United Kingdom in the light of the Company's progressive globalisation. Further explanation of the reasons for the proposed modifications are set out in OFTEL's Consultation Document "Domestic Obligations in a Global Market" (March 1997) and its Statement of 24th July 1997.

The Director is required by section 12(2) of the Act to consider any representations or objections which are duly made and not withdrawn. Subject to such consideration and BT's consent, the Director proposes to make the modifications forthwith.

The consultation procedure comprises two stages. In the first stage, representations on or objections to the proposed modifications may be made to Rosemary Buck, OFTEL, 50 Ludgate Hill, London EC4M 7JJ, (telephone 0171-634 8822, fax 0171-634 8847) by no later than Friday, 22nd August 1997.

Any confidential material should be clearly marked as such and separated out into a confidential annex. All representation and objections received by OFTEL, with the exception of material marked confidential, will be made available for inspection in OFTEL's library. Comments on this document (if they are relatively short) can also be sent to OFTEL at the following e-mail address: press.office.oftel@gtnet.gov.uk.

In the second stage of consultation, interested parties are invited to send comments to OFTEL no later than Friday, 5th September 1997, on the representations and objections received in the first stage. Copies of the proposed modifications can be obtained from Rosemary Buck, at the above address.

SCHEDULE

Proposed Modifications of the BT Licence

It is proposed to modify the licence to insert a new Condition (expiring on 21st June 2004 unless the Director otherwise determines) which will require BT not to do anything which would materially detract from its ability during the remainder of the licence to comply with its licence obligations to provide telecommunication services and any licence and statutory obligations to provide such services to a specified standard.

The Condition will require BT to submit annually a certificate as to whether, in the opinion of its board of directors, it has infringed the Condition during the year. The Director will be empowered to require BT to obtain an auditor's report as to whether it has appropriate systems and processes for the certificate to be given and whether these have been followed. Purchase Price	+ Index-linking for year 1	+ 1.05% of Purchase Price	= 1st Anniversary Value
1st Anniversary Value	+ Index-linking for year 2	+ 1.3% of 1st Anniversary Value	= 2nd Anniversary Value
2nd Anniversary Value	+ Index-linking for year 3	+ 2.05% of 2nd Anniversary Value	= 3rd Anniversary Value

These rates will give a tax-free and guaranteed return equal to 2.75% per annum compound if kept for five years.

The interest rate specified in the above table for the purpose of calculating an anniversary value is also the interest rate applicable to periods of less than a year immediately preceding the anniversary date concerned (the interest on such periods may need to be calculated where a certificate is repaid during that period: for exactly when interest is earned in such circumstances, and how it is calculated, see the prospectus); for example, for a period falling between the 1st and 2nd anniversary dates, the rate used is the rate specified to calculate the 2nd anniversary value.

The only legal purpose of this notice is to prescribe the rate of the "extra interest" referred to in the prospectus. Details of how the extra interest is calculated and paid, an authoritative description of index-linking, and other terms and conditions relating to the 11th Issue of Index-linked Savings Certificates are contained in the relevant prospectus (which also defines the term "anniversary date" used in this notice).

Take notice that Dales Water Services Ltd., of Witherick Lane, Melmerby, Ripon, North Yorkshire HG4 5JB, on behalf of E. W. and S. Holliday, of Clifton Hall, Clifton, Penrith, Cumbria, is applying to the Environment Agency for a licence to abstract water from a borehole in the sandstone at Clifton Hall, in the parish of Clifton, Eden district of Cumbria, at National Grid Reference NY 531271. The proposal is to abstract water at the following rates: 2.15 cubic metres per hour, 34 cubic metres per day, 12,410 cubic metres per year. The water will be used for agricultural use on a dairy farm.

To abstract 8,035 cubic metres per day, 2,214,000 cubic metres per year from the River Derwent, at SK 3910 3410 to discharge into the Derby Southern Surface Water Sewer (Alvaston Channel) at SK 3906 3371. This will then flow into the "D" Cut (River Derwent), at SK 4042 3387 for the purpose of providing a base flow in this channel.

A copy of the application and any map, plans or other documents submitted with it may be inspected, free of charge, at all reasonable hours at Clifton Hall, Clifton, Penrith, Cumbria between 26th July 1997 and 26th August 1997.

The water is required as flows currently going to "D" Cut along the Alvaston Channel are to be diverted to Derby Sewage Works as part of the Derby Sewerage Improvement Strategy.

Any person who wishes to make representations about the application should do so in writing to the Environment Agency, North West Region, Chertsey Hill, London Road, Carlisle CA1 2QX, before the end of the said period.

The base flow under low flows required in the Channel is 4,320 cubic metres per day. The higher quantities are necessary as the abstraction is under gravity and when the river level rises the volume abstracted will increase.

B. Simpson, on behalf of E. W. & S. Holliday

22nd July 1997.

(481)
