Water Industry

Office of Water Services

WATER INDUSTRY ACT 1991, SECTIONS 8 AND 13

Notice of proposals by the Director General of Water Services (the Director) that Three Valleys Water Plc (Three Valleys) replace North Surrey Water Ltd (North Surrey) as the water undertaker for the latter's Water Supply Area.

The Process

This notice begins a period of public consultation. Any representations or objections about any of the matters described below should be in writing and sent to the Director General of Water Services, Centre City Tower, 7 Hill Street, Birmingham B5 4UA (fax 0121-625 3606), to be received not later than 5 p.m. on Monday, 21st August 2000. Please quote Ref. LEG/34/2/19/1.

The Proposal

That Three Valleys replace North Surrey as water undertaker for the latter's area.

Three Valleys and North Surrey are water undertakers. Each hold an Appointment from the Secretary of State as a water undertaker and is controlled by GU Capital Funds Plc.

The Director considers that, when two separate water undertakers are in the same ownership, it is necessary to ensure the separation of their operation and management. But if the owner wishes to rationalise the corporate structure, the Director considers that a single licence is preferable. This is particularly the case where the areas served by the Companies are adjacent to each other.

Therefore, the Director proposes that Three Valleys' Appointment as a water undertaker should be varied, so that it applies also to the area currently served by North Surrey. If that happens, North Surrey's Appointment will be terminated. Three Valleys and North Surrey have agreed these proposals.

Proposed modification of Three Valleys' Conditions of Appointment

The Water Supply Areas currently served by Three Valleys and North Surrey are operationally separate but under common ownership. They are also adjacent to each other geographically. Information about the performance of both Companies forms an important part of the Director's approach to comparative competition, under which he uses information about the performance of all the licensed water undertakers to inform his judgements, particularly about their efficiency. In order to preserve that possibility, the Director proposes to modify Three Valleys' conditions of appointment, so that certain information will continue to be supplied separately (as well as in aggregate).

The Director will require that information on relative efficiency is supplied separately in order to preserve effective comparative competition. This would entail providing the operational and cost information (in particular, the requirements of Regulatory Accounting Guideline 4) necessary for Ofwat's comparative efficiency modelling. There would be no requirement for Three Valleys to continue to produce separate Regulatory Accounts for its activities in what is now North Surrey's Water Supply Area. In addition, the Director will require separate Annual returns about work on water mains, analysis of activity costing and of the condition of fixed assets and of their maintenance by asset type.

The interests of customers in the areas currently served by Three Valleys and North Surrey will continue to be represented by the Thames Customer Service Committee.

At present, each of Three Valleys and North Surrey must ensure that its charges do not unduly discriminate against, or give undue preference to, particular classes of its customers. However, because the areas currently served by Three Valleys and North Surrey are operationally separate, that requirement will be amended, so that charges which are properly based upon the different costs of supplying customers in each of Three Valleys' and North Surrey's areas will not fall foul of that prohibition. There will still be a requirement to ensure that undue preference and discrimination are avoided as between classes of customers within each of Three Valleys' and North Surrey's Water Supply Areas.
