Transport Acts

The Greater Manchester Passenger Transport Executive

TRANSPORT AND WORKS ACT 1992

The Secretary of State for the Environment, Transport and the Regions gives notice, pursuant to section 14(1)(b), (3A) and (3AA) of the Transport and Works Act 1992 ("the Act"), that he has determined under section 13(1) of the Act to make with modifications the Greater Manchester (Light Rapid Transit System) (Ashton Moss Variation) Order 2000 ("the Order").

The Order was applied for by the Greater Manchester Passenger Transport Executive, 9 Portland Street, Piccadilly Gardens, Manchester M60 1HX.

The Order will amend the Greater Manchester (Light Rapid Transport System) (Ashton-under-Lyne Extension) Order 1998 ("the 1998 Order") so as to authorise the Executive to construct works which would provide an alternative alignment of its Metrolink light rapid transit system to that originally authorised by the 1998 Order.

Before making this determination, the Secretary of State considered the environmental statement submitted with the application for the Order. In the opinion of the Secretary of State the works authorised by the Order will have no major adverse environmental effects.

Copies of the Order (once made) may be obtained from the Stationery Office Limited or through booksellers.

A. Gray, Head of Planning Division 5, Department of the Environment, Transport and the Regions, Eland House, Bressenden Place, London SW1E 5DU. (999)

The West Yorkshire Passenger Transport Executive

TRANSPORT AND WORKS ACT 1992

The Secretary of State for the Environment, Transport and the Regions gives notice, pursuant to section 14(1)(b), (3A) and (3AA) of the Transport and Works Act 1992 ("the Act"), that he has determined under section 13(1) of the Act to make with modifications the Leeds Supertram (Extension) Order 2000 ("the Order").

The Order was applied for by the West Yorkshire Passenger Transport Executive, 40-50 Wellington Street, Leeds LS1 2DE, and by Leeds City Council, Civic Hall, Leeds LS1 1UR.

The Order will authorise extensions to the proposed Leeds Supertram system, authorised by the Leeds Supertram Act 1993. The extensions will be (a) the completion of the city centre loop, (b) a route westwards to the Park and Ride site at Bodington via Headingley and (c) a route eastwards to the Park and Ride site at Grimes Dyke via Harehills and Seacroft.

Before making his determination, the Secretary of State considered the environmental statement submitted with the application for the Order. He complied with the obligations under section 10 of the Act in relation to all objections which related to the environmental statement and referred to the inquiry held into the application for the Order under section 11(1) of the Act all representations (other than objections) which related to the environmental statement.

Section 14(3AA) of the Act requires the Secretary of State to describe the main measures to avoid, reduce and, if possible, remove the major adverse environmental effects of the proposals authorised by the Order. The main effects of these proposals which, if unmitigated, would in the opinion of the Secretary of State be major adverse, with the related mitigation measures that are proposed, are as follows:

Visual effects

visual impact of the Park and Ride sites;
visual intrusion and location of the tram stops particularly in sensitive locations;
loss of mature trees, particularly in the Headingley corridor;
realignment of stone curtilage walls at Headingley.

Mitigation measures

The implementation of planning conditions for the Park and Ride sites, tram stops, and walls will mitigate the visual effects of the scheme by making the details subject to approval by the local planning authority. Equivalent tree planting is to be implemented to replace the trees that will be lost.

Noise

temporary noise during construction and subsequently in the operation of the Supertram.

Mitigation measures

A planning condition will mitigate the effects of noise by requiring approval by the local planning authority of noise mitigation measures before work can be begun.

Effects on local roads, rights of way and transport

temporary increases in local traffic congestion and delays during construction;
increases in "rat running" on the local road network adjacent to the route.

Mitigation measures

construction traffic will be routed via Heavy Goods Vehicle routes as agreed with the local highway authority. Traffic calming schemes will be investigated by the local highway authority to reduce the incidence of rat running.

Effects on the architectural and historic heritage

demolition of non-listed buildings, particularly in the Headingley conservation area;
location of new tram stops, overhead wires, pedestrian crossings and street furniture in sensitive locations.

Mitigation measures

The implementation of planning conditions, including any approval of details by the local planning authority, for landscaping, highway and walling materials, stonework in conservation areas and development and reinstatement will mitigate the effects of the scheme. Within the Conservation Areas affected by the proposals a number of townscape schemes are proposed to mitigate visual effects, which are to include suitably designed schemes for tree replanting, floorscape, street furniture, tram stops, pedestrian movement, car parking and bus stops.

As the Order would authorise the compulsory purchase of open space, for which no land is to be given in exchange, the Order will be subject to section 12 of the Act.
