Method of Repayment

Local Loans as defined in Part I of this Notice will be repayable as the Ministry of Finance may determine, (i) by equal half-yearly instalments of the principal advanced, together with interest on the balance of principal from time to time outstanding ; (ii) by equal half-yearly instalments of annuities calculated to include interest at the rates specified ; (iii) on maturity, with interest payable every half-year.

Public Loans and loans defined in Parts II and III of this Notice will normally be repayable by equal half-yearly instalments of annuities calculated to include interest at the rates specified.

PREMATURE REPAYMENT OF GOVERNMENT LOANS

PURSUANT to the Government Loans Act (Northern Ireland) 1957, Section 3(4), the Ministry of Finance gives notice that it is prepared to accept premature repayment of loans made from the Government Loans Fund at rates of interest exceeding $9\frac{1}{8}$ per cent. per annum, by the transfer to the Fund of an amount of cash representing the present value of the future repayments still remaining to be made, such present value being calculated by discounting the half-yearly or other payments at a rate of $4\frac{13}{16}$ per cent. per half-year.

The Ministry may accept (subject to due notice being received) repayment of principal at any time without premium in the following cases, namely :

- (1) Loans issued at rates not in excess of $9\frac{1}{8}$ per cent. per annum.

- (2) Unexpended balances of loans where the Ministry is satisfied that the balance is unexpended either because the scheme for which the loan was issued was less costly than was anticipated, or because it has been definitely reduced in extent and also that application for repayment of the amount is made within five years from the date of its issue.

- (3) Loans issued to individuals and subject to repayment over a period of not more than 35 years.

All previous Minutes on this subject are hereby revoked.
