DEPARTMENT OF ENERGY

UK CONTINENTAL SHELF
14th ROUND OF LICENSING

The Petroleum (Production) (Seaward Areas) Regulations 1988

1. The Secretary of State for Energy invites applications, in accordance with the Petroleum (Production) (Seaward Areas) Regulations 1988 (SI 1988 No. 1213), as amended by the Petroleum (Production) (Seaward Areas) (Amendment) Regulations 1990 (in this Notice called "the Regulations"), for petroleum production licences in respect of the blocks specified in Schedules 1 and 2 to this notice and delineated on maps deposited in the Library at the Department of Energy, 1 Palace Street, London SW1E 5HE. The maps may be inspected by prior appointment (Telephone No. 071-238 3042) between 09.15 and 16.45 hours Monday to Friday until Tuesday 15 December, 1992.

Consideration for and Conditions of Licences

2. Licences issued in respect of blocks shown on the maps at Schedule 1 and listed in Schedule 2 will have an initial term of six years with a second term of twelve years. This second term may be extended beyond twelve years for a further period of eighteen years. These licences will be subject to the conditions set out in Schedule 4 to the Regulations.

3. The consideration required in respect of production licences granted as a result of this invitation will be:

   (a) an initial payment, at the time the offer of a licence is accepted, of £390 for each square kilometre comprised in the licensed area;

   (b) subsequent annual payments determined according to the following provisions:

      (i) on the sixth anniversary of the date of commencement of the licence term (following exercise of the option to continue as to the remaining period of the licence) the sum of £450 will be payable for each square kilometre in the area to which the licence then relates; on the seventh anniversary £900 per square kilometre and so on, rising by annual increments of £450 until an annual sum of £6,750 is payable for each square kilometre comprised in the licensed area;

      (ii) the payments specified in sub-paragraph 3(b) (i) above will be subject to variation as follows:

         (aa) The annual payments will be increased or subsequently reduced at two-yearly intervals in line with movements in the Index of the Price of Crude Oil acquired by Refineries (published in the Digest of UK Energy Statistics) if the Minister so determines. The Minister will give notice of any such determination ("biennial determination") during the month preceding the eighth anniversary of the date of commencement of licences or any subsequent two-yearly anniversary, and will specify in the notice the increase or reduction in the amount payable. Movements in the Index will be calculated by reference to a comparison between the arithmetic mean of the Index levels for the two latest calendar years for which figures are available at the time when the determination is made, and the arithmetic mean of the Index levels for 1990 and 1991. In the event that the Index of the Price of Crude Oil acquired by Refineries ceases to be published, the Minister may substitute arrangements for redetermination of annual payments having substantially similar effect to those set out above based on such other comparable Index as he may determine.

         (bb) The increase or reduction specified in a biennial determination will be payable or take effect on the anniversary of the date of commencement of the licence next following the date of the relevant determination.

         (cc) No biennial determination will have effect so as to reduce the annual payments below the levels set in sub-paragraph 3(b) (i).

         (dd) The Minister will not make a biennial determination increasing or reducing the amounts payable, where that increase or reduction would be 5% or less of the levels set following the previous biennial determination.

   (c) A royalty (provided for in Clauses 10-13 of Schedule 4 to the Regulations) at the rate of 12.5% payable in respect of petroleum won and saved from any field which is neither:

      (i) a relevant new field for the purposes of the Petroleum Royalties (Relief) Act 1983, nor

      (ii) a relevant Southern Basin field for the purposes of the Petroleum Royalties (Relief) and Continental Shelf Act 1989.

4. Licences may be granted subject to special conditions governing the notice required for, and the timing and circumstances of, operations carried out thereunder. The Department of Energy will make copies of these conditions available as soon as possible.

Applications for Licences

5. In respect of all blocks listed in Schedule 2:

   (a) applications should be made on a standard application form available from the Department of Energy;

   (b) applications should be delivered between 09.30 and 12.00 hours on Tuesday 15 December, 1992 or between 09.30 and 12.00 hours on Wednesday 16 December, 1992 to the Oil & Gas Division of the Department of Energy at 1 Palace Street, London SW1E 5HE, together with a remittance in respect of the appropriate application fee of £3,700;

   (c) no applications will be accepted after 12.00 hours on Wednesday 16 December 1992;

   (d) applicants are requested to indicate where possible any preference they attach to the blocks applied for and should indicate if blocks applied for are alternatives;

   (e) applicants are requested to provide details of the work programme they propose to carry out if awarded a licence;

   (f) applicants should note that they are requested, for the first time, to submit a statement of their policy with regard to the environment;

   (g) further guidance on the material with which applicants may support their applications is given in Guidance Notes available from the Department of Energy;

   (h) copies of documents referred to in the text of this notice as being available from the Department of Energy may be obtained from the Licensing Branch (Room 3.2M.23), Oil & Gas Division, Department of Energy, 1 Palace Street, London SW1E 5HE (Telephone No. 071-238 3211/3212).

6. Applicants will be judged against the background of the continuing need for expeditious, thorough, efficient and safe exploration to identify oil and gas resources of the UK Continental Shelf, with due regard to environmental considerations. Where applicants hold or have held licences their overall record on exploration and exploitation may be taken into account.

7. The Secretary of State will be prepared to consider nominations from companies that unlicensed bocks on the United Kingdom Continental Shelf not listed in Schedule 2 should also be advertised for offer. Nominations for non-frontier blocks must be submitted by 3 July 1992; nominations for such blocks which

are likely to be in environmentally sensitive areas should however be submitted as soon as possible and in any such event before 1 May 1992. Nominations for blocks in frontier areas must be submitted by 6 November 1992; nominations for frontier blocks which are likely to be in environmentally sensitive areas should be submitted as soon as possible and in any event before 7 August 1992. Applicants may wish to seek advice from the Licensing Branch of the Department of Energy (see paragraph 5(h) above) on which areas may be regarded as environmentally sensitive or as requiring frontier terms for exploration.

8. Blocks nominated under paragraph 7 above which it is possible to release for licensing will be advertised for offer by Gazette Notice. The terms for such blocks may differ from those advertised in this Notice (see paragraphs 2 and 3 above).

9. Following examination of all applications the Secretary of State will select the applicants to whom he is prepared to award licences. If there are two or more applicants for a block who would be equally acceptable to the Secretary of State as licensees for that block he may suggest that the licence should be held jointly by some or all of such applicants.

10. The selected applicants will be offered licences on condition that within 14 working days of the date on which the Secretary of State makes the offer of an award;

    (a) they confirm acceptance of a work programme proposed by the Secretary of State following discussion with the applicants concerned;

    (b) they remit to the Secretary of State the appropriate payment referred to in paragraph 3(a) above; and

    (c) they confirm in writing that they accept any special conditions or restrictions of the sort referred to in paragraph 4 above.

11. Unsuccessful applicants will be notified in writing.

SCHEDULE 2

UNLICENSED ACREAGE IN DEFINED MATURE AREAS: 14th ROUND

5. Measures for the protection or rehabilitation of fishery, conservation, or other interests.

The works will be carried out using environmentally sensitive river engineering techniques devised in consultation with the Department's conservation advisers. This will fulfil the Department's commitment in its publication 'Drainage and the Environment' to minimise environmental damage and encourage regeneration by its drainage works.

The Department reserves the right to alter the maintenance programme.

Having determined that the proposed works are not, by reason amongst other things of their nature, size and location, likely to have significant environmental effects it is the Department's intention not to prepare an Environmental Statement.

In accordance with Regulation 5 (1)(d) of the Regulations representations may be made in writing to the Department at the address given below, with regard to its intention not to prepare an Environmental Statement. The closing date for receipt of representations is 10th April, 1992.

The Department will consult with conservation and fisheries organisations on the works programme.
