This order came into force on 1st January, 1995, the date on which the Agreement Establishing the World Trade Organisation (Cm 2571) entered into force.

### OFTEL

#### PROPOSED MODIFICATIONS OF THE CONDITIONS OF THE LICENCE OF BRITISH TELECOMMUNICATIONS PLC ("BT")

1. The Director General of Telecommunications (the "Director") in accordance with section 12(2) of the Telecommunications Act 1984 (the "Act") hereby gives notice that he proposes to make modifications to the licence granted to British Telecommunications on 22nd June, 1984 (the "BT Licence"). The modifications which the Director proposes to make are set out in the following Schedule.
2. The Director proposes to make the modifications for the following reasons:
  - (a) the availability of number portability – the ability of a customer to keep a telephone number if he changes from one provider of telecommunications services to another – has been shown to be a significant factor in promoting competition in the supply of such services;
  - (b) although the BT licence makes provision for the introduction of number portability in certain circumstances, the important question of allocation of the costs of introducing such a service is excluded from the Director's powers of determination under those provisions;
  - (c) in the absence of such a power, progress in introducing number portability is being significantly impeded. In the Director's opinion, number portability needs to be introduced into the UK as quickly as possible and with a cost-distribution which fairly reflects the distribution of benefits to telecommunications customers as a whole;
  - (d) in addition, developments in the provision of telecommunications service since the BT Licence was modified to cater for the provision of number portability have indicated a need for portability to be provided in accordance with an industry-wide specification and to widen the scope of number portability beyond simple exchange-line portability.
3. The Director is required by section 12(2) of the Act to consider any representations or objections which are duly made and not withdrawn.
4. Representations or objections to the proposed modifications may be made to: Alex Blowers, OFTEL, 50 Ludgate Hill,

London, EC4M 7JJ (telephone 0171 634 8798) no later than 22nd March 1995. Copies of the proposed modifications may be obtained from Peter Hammond at the above address (telephone 0171 634 8830). All responses will be publicly available, on receipt, in the OFTEL library, unless clearly marked "Confidential".

#### PROPOSED MODIFICATIONS TO CONDITION 34B OF THE BT LICENCE

The existing condition 34B of BT's licence allows, at paragraph 34B.11-15, for the introduction in a geographical area of number portability (defined as being enabled to retain a telephone number at an address if a person arranges for an exchange line to be provided by an operator other than BT, and vice versa), following the completion of a cost-benefit analysis which shows a net benefit from its introduction outweighing the likely costs. Such an analysis has been carried out and provided the requisite indication. Paragraph 34B.15 of the condition allows for BT to recover from other operators the "reasonable costs" incurred in providing, inter alia, number portability. But it does not specify how these costs are to be measured or allocated. On this point, the proposed modification would introduce a power for the Director to determine the charges levied by BT on other operators to provide number portability. Any such determination would not permit BT to recover from other operators the costs of establishing the basic ability to provide portability of numbers (the "set-up costs"), nor could BT wholly recover from one other operator the costs of routing a ported call within the BT system which are over and above those which are incurred in routing an ordinary call (the "additional conveyance costs").

The modification also expands the definition of number portability to encompass mobility of the customer to another address either at the time the telephone number is ported to another operator, or subsequently, and obliges BT to provide number portability in accordance with an industry-agreed functional specification.

The modification also allows for the introduction of number portability in respect of "non-geographic numbers" – numbers which are associated with a particular service, such as freephone and personal numbers. Other operators would be able to ask BT to port a number of this kind which was of a category specified in a list by the Director, where a customer wished to take a non-geographic service from that other operator rather than BT.

In addition, the modification allows for a simplification of the procedure for introducing number portability. This will no longer require a direction to the parties involved by the Director, but will be at the request of the other operator, subject to that operator being willing to enter a reciprocal agreement to provide number portability to BT, and to the technical feasibility of the request.

## DEPARTMENT FOR NATIONAL SAVINGS

### INDEX-LINKED NATIONAL SAVINGS

#### *Movement of the United Kingdom General Index of Retail Prices*

For the purposes of revaluing on repayment Index-linked National Savings Certificates (Retirement Issue, 2nd, 3rd, 4th, 5th, 6th and 7th Index-linked Issues) and contributions under Save As You Earn savings contracts (Third Issue) and for revising the annual rate of interest for Indexed-Income Bonds, the Index figure issued by the Central Statistical Office in the month of February and applicable to the month of March is 146.0. ## THE PLANNING (NORTHERN IRELAND) ORDER 1991 PLANNING (DEVELOPMENT PLANS) REGULATIONS (NORTHERN IRELAND) 1991 NEWTOWNABBEY AREA PLAN 2005

### *Interim Statement*

The Newtownabbey Area Plan 2005 was prepared by the Department of the Environment for Northern Ireland under Part III of The Planning (Northern Ireland) Order 1991 and was published in April 1993. Following the public display of the Plan a number of objections were received and a Public Inquiry was held in November, 1993, to hear these objections.

Having considered the recommendations of the Planning Appeals Commission and of the Report of the Commission who conducted the Inquiry the Department has reached a decision in respect of the majority of the issues considered by the Commission and has also accepted the need to review certain of the Plan proposals in the western sector of Ballyclare. To avoid any delay arising from this review the Department is publishing an Interim Statement to indicate:

- (1) Those issues which are still under consideration – these are described in Section 2 of the Interim Statement; and
- (2) those issues in respect of which the Department has reached a final decision – these are described in Sections 3 to 7 inclusive.

Copies of the Interim Statement, price £2.40 and the Commissioner's Report on the Public Inquiry incorporating the recommendations of the Planning Appeals Commission, price £6.00, are available for inspection and/or purchase by the public during normal office hours at the Divisional Planning Office, Bedford House, 16-22 Bedford Street, Belfast BT2 7FD or at Planning Service HQ, Clarence Court, 10-18 Adelaide Street, Belfast BT2 8GB.

Copies of the Interim Statement are also available for purchase from HMSO Bookshop, 16 Arthur Street, Belfast BT1 4GD.

G. F. Worthington, Divisional Planning Officer.

#### ROADS (CLASSIFICATION) ORDER

**DEPARTMENT OF AGRICULTURE**  
**WATERCOURSE MANAGEMENT DIVISION**

*Works Programme*

ANNUAL MAINTENANCE OF WATERCOURSES 1995/96

The Department of Agriculture for Northern Ireland hereby gives Notice in pursuance of Regulation 5 (1) of the Drainage (Environmental Assessment) Regulations (Northern Ireland) 1991 of proposed routine maintenance works on the main watercourses listed at A below and on minor watercourses in the catchments listed at B below.

Further details of the locations along the rivers concerned are available at the Department's Watercourses Management Office at the address below.

The work may include the following:

1. Necessary removal of channel silt and/or aquatic weed growth.
2. Removal of obstructions from the channel which restrict the free flow of water.
3. General maintenance of grilles, culverts, manholes, flap-valves and quays.
4. Construction, repair or protection of flood defences, revetments and watercourse structures.
5. Measures for the protection or rehabilitation of fishery, conservation, or other interests.

The Department will carry out the work using environmentally sensitive river engineering techniques.

The Department reserves the right to alter the maintenance programme.

Having determined that the proposed works are not, by reason amongst other things of their nature, size or location, likely to have significant environmental effects it is the Department's intention not to prepare an Environmental Statement.

In accordance with Regulation 5 (1) (d) of the Regulations representations may be made in writing to the Department at the address given below, with regard to its intention not to prepare an Environmental Statement. The closing date for receipt of representations is 24th March, 1995.

The Department will consult with Conservation and Fisheries organisations on the works programme.

4423/0230	Whitworth Pharmaceuticals Limited	Ventolin Inhaler	Salbutamol 0.1 mg	Prescription Only Medicine Salbutamol is a selective beta-2 adrenoceptor agonist. At therapeutic doses it acts on the beta-2 adrenoceptors of bronchial muscle with little or no action on the beta-1 adrenoceptors of the heart. With its fast onset of action, it is particularly suitable for the management and prevention of attack in mild asthma and for the treatment of acute exacerbation in moderate and severe asthma. Salbutamol provides short-action (4 hour) bronchodilation with fast onset (within 5 minutes) in reversible airways obstruction due to asthma. It is suitable for long term use in the relief and prevention of asthmatic symptoms. Ventolin should be used to relieve symptoms when they occur and to prevent them in those circumstances recognised by patient to precipitate an asthmatic attack (e.g. before exercise or unavoidable allergen exposure). Ventolin is particularly valuable as rescue medication in mild, moderate or severe asthma, provided that reliance on it does not delay the introduction and use of regular inhaled corticosteroid therapy.	15th December, 1994
