WATERCOURSE MANAGEMENT DIVISION

The Department of Agriculture for Northern Ireland hereby gives notice in pursuance of Regulation 5 of the Drainage (Environmental Assessment) Regulations (Northern Ireland) 1991 that it proposes to carry out works on the Draperstown Drain Branch A, Draperstown, Co. Londonderry.

The works are located within the culverted stream which flows along the rear of properties in High Street and through a builders yard in Draperstown. A new manhole will be constructed in the builders yard.

The works are necessary to stabilise the structural condition of the culvert which partially lies beneath a storage building and is in poor condition.

Having determined that the proposed works are not by reason amongst other things of their nature, size or location, likely to have significant environmental effects it is the Department's intention not to prepare an Environmental Statement.

Any person who wishes to comment on the environmental implications of the proposed works may send observations in writing to:

Mr. J. Flynn,
Design Engineer,
Department of Agriculture,
