OFFICE OF TELECOMMUNICATIONS

PROPOSED MODIFICATIONS OF THE LICENCE OF BRITISH TELECOMMUNICATIONS (BT)

1. The Director-General of Telecommunications (the "Director"), in accordance with section 12(2) of the Telecommunications Act 1984 (the "Act"), hereby gives notice that he proposes to make modifications to the licence granted to British Telecommunications ("BT") on 22nd June 1984.
2. The principal modifications which the Director proposes to make are the substitution of a new Condition, "Public Call Box Services", for the existing Condition 11 and the insertion of a new Condition, "Residential Limited Service Scheme".
3. The effect of the substitution of the new Public Call Box Services Condition is to:
 - (i) require a notice in public call boxes concerning call charges, emergency calls and complaints and stating whether incoming calls are available;
 - (ii) remove the restrictions concerning the cessation of call box services and instead to entitle BT to cease to provide them in accordance with guidelines. The draft guidelines provide that BT shall not cease to provide call box services except with the agreement of the local authority and that, where BT is obliged to remove a public call box, BT shall provide an alternative service except where it is otherwise agreed by the local authority. In either case the Director may override such agreement. The guidelines also contain provision regarding the installation of public call boxes in new locations, including for the development of new criteria for the installation of public call boxes reflecting community needs;
 - (iii) remove the requirement to provide temporary call boxes where major events take place;
 - (iv) remove the requirement to provide call box services where a person undertakes to pay the costs of providing such services.
4. The effect of the new residential Limited Service Scheme Condition is to require BT no later than 31st March 1998 to make available a scheme complying with guidelines under

which BT will provide to residential customers limited voice telephony services at charges lower than those payable under BT's standard tariff. The draft guidelines provide that customers will be entitled to receive incoming calls and to make outgoing emergency calls and other outgoing calls as set out in the guidelines.

5. The Director also proposes to make modifications consequential on the principal modifications mentioned above.
6. The reasons why the Director proposes to make the modifications are as follows:

- (i) as regards those having the effect set out in paragraph 3(i) of this notice because he considers that it is appropriate that the requirement to display consumer information i public call boxes should be a licence condition;
- (ii) as regards those having the effect set out in paragraph 3(ii) because he considers that the existing provisions are unnecessarily complicated and do not provide for sufficient local involvement;
- (iii) as regards those having the effect set out in paragraph 3(iii) because he considers that the demand for temporary call boxes will be met by operators for commercial motives so that it is unnecessary to require this as a licence condition;
- (iv) as regards those having the effect set out in paragraph 3(iv) because he considers that the provision of new public call boxes, where it would not be undertaken for commercial reasons, is more appropriately dealt with through the criteria for the installation of new public call boxes to be developed under the terms of the new condition;
- (v) as regards those having the effect set out in paragraph 4 because he considers that the new Condition will encourage those without a telephone at home to obtain one and enable those with such a telephone to control their telephone expenditure.

7. The Director is required by section 12(2) of the Act to consider any representations or objections which are duly made and not withdrawn. Following such consideration and BT's consent to them, the Director proposes to make the modifications forthwith.
8. Representations or objections to the proposed modifications may be made to the Director and should be addressed to Paul West, OFTEL, 50 Ludgate Hill, London, EC4M 7JJ by 17th October 1997.
9. Any confidential material should be clearly marked as such and separated out into a confidential annex. All representations or objections received by OFTEL, with the exception of material marked confidential, will be made available for inspection in OFTEL's library. Comments on the document (if they are relatively short) can also be sent to OFTEL at the following e-mail address: press.office.oftel@gt.net.gov.uk.
10. The proposed modifications and draft guidelines are contained in a Statement on Universal Telecommunication Services issued by OFTEL on 30th July. A copy of the Statement or of the proposed modifications and draft guidelines can be obtained from Sylvia Smith at the above address (telephone 0171 634 8742).
