Antrim, Ballymena and Larne Area Plan 2016

Notice of Intention to Prepare a Development Plan

The Planning Service, an Agency within the Department of the Environment, intends to prepare a development plan under the provisions of Part III of the Planning (Northern Ireland) Order 1991 for the area comprising Antrim, Ballymena and Larne Borough Council areas.

The Plan will be prepared within the context of the emerging Regional Development Strategy. It will inform the general public, statutory authorities, developers and other interested bodies of the policy framework and land use proposals that will be used to guide development and the use of land within the three Borough Council areas up to the year 2016.

The Plan will focus on a number of issues including: the zoning of land for particular forms of development such as housing, industry and recreation; designations relating to regional policies such as Green Belts; committed public sector proposals and designations of other site specific areas to which local policies will apply, such as local landscape policy areas. The Plan will also address the respective roles of the various settlements within the Council areas and deal with the relationship between land use and transport.

The Department will consult the local Councils, Government Departments, statutory undertakers, other appropriate bodies and interested parties in the preparation of the Plan.

The Department wishes to ensure that members of the public have the opportunity to participate at this initial stage in the Plan making process by contributing to the formulation of the key issues which the Plan should consider.

Individuals and interested parties are therefore invited to submit representations in writing to the Divisional Planning Manager at the address below:

Mr. D.H. Carroll
Divisional Planning Manager
Antrim, Ballymena and Larne Area Plan 2016
County Hall,
Galgorm Road
Ballymena

Divisional Planning Manager

Pipe-Lines

Offshore Petroleum Production and Pipe- Lines (Assessment of Environmental Effects) Regulation 1999

LICENCE P.185 - LICENCE HAVING EFFECT UNDER THE PETROLEUM ACT 1998

BLOCK 13/21a

Pursuant to regulation 5(8) of above Regulations, the Secretary of State for Trade and Industry gives notice that, being content that the requirements of the above Regulations have been satisfied, he has, pursuant to Licence P.185 granted a consent to Enterprise Oil plc to the drilling of two exploration wells in block 13/21a. The consent for wells 13/21a-E and 13/21a-F took effect from 31st January, 2001.

Enterprise Oil plc proposes drilling two exploration wells in block 13/21a, 68 km north of Fraserburgh, on the coast of North East Scotland. Enterprise's proposal is to drill 2 vertical wells to a depth of approximately 1067 metres, using a KCI water based mud system, with drilling cuttings (248 tonnes including sidetrack) and associated mud discharged to sea. No well testing will occur. No significant impacts have been identified from the proposed activity and it is unlikely to affect any possible future SAC that may be identified in the area.

The Secretary of State is of the view, having regard to the environmental statement prepared in respect of the well and the comments received from those consulted that the project is not likely to have a significant effect on the environment. The environmental statement adequately assessed the potential environmental impacts of drilling in a sensitive area and showed that all necessary contingency measures will be put in place.
