## Water Resources

**Don't Freeze up this Winter  
Take Action Now**

### How to prevent frozen and burst pipes:-

- Open the trap door into the roof space to allow hot air from the main house to enter.
- Open the doors to the sink unit to allow warmer air to circulate around the pipes.
- If your house will be unoccupied during a cold spell ask a friend or neighbour to run the heating for a short time and check for frozen pipes.
- Insulate pipe work in roof spaces and other exposed places.

### In the event of pipes freezing:-

- Put hot water bottles or a thick cloth soaked in hot water over the frozen pipe. When thawing, start at the end of the pipe nearest the tap and work away from it.
- Never use a naked flame.

### In the event of pipes bursting:-

- Turn off the main stopcock. This is normally under the kitchen sink, but may be elsewhere in the kitchen, bathroom, hall or garage.
- If the flow of water cannot be stopped, open all the cold taps to drain the system.
- If the burst is on a pipe from the storage tank, turn off the stop valve in the storage tank, turn on all hot taps to drain the system, allow the fire to burn out or turn the heating off until the burst pipe has been attended to by a plumber.
- Do not turn on the water supply until the burst has been repaired.
- If the water has come into contact with electrical fittings the electricity should be turned off at the mains.

**Housing Executive tenants** with a burst pipe should contact their local District Office or, after hours, telephone Belfast (02890) 246111 or Londonderry (02871) 262628.

A burst pipe can cause serious damage to your home
