Roads (NI) Order

ROADS Service

Department for Regional Development

ROAD RACES ORDÚ UM RÁSAÍ BÓTHAIR

The Department for Regional Development has made a Statutory Rule entitled The Road Races (Ulster Rally) Order (Northern Ireland) 2010 (SR 2010 No. 189) which comes in to operation on 5th August 2010.

The Road Races (Ulster Rally) Order (Northern Ireland) 2010 (S.R. 2010 No. 189) which permits the Northern Ireland Motor Club Limited as promoter of the Ulster Rally 2010 to use for that event certain roads by suspending the right of way of other traffic at various times on 20th and 21st August 2010.

Copies of the Order may be obtained from Roads Service Headquarters, Room 2-13, Clarence Court, 10 – 18 Adelaide Street, Belfast, BT2 8GB or viewed online at <http://www.opsi.gov.uk> (1510/1)

DISEASES OF ANIMALS (NORTHERN IRELAND) ORDER 1981
LANDING OF CARCASSES AND ANIMAL PRODUCTS ORDER
(NORTHERN IRELAND) 1985 (AS AMENDED)

DISEASES OF ANIMALS (IMPORTATION OF BIRD
PRODUCTS) ORDER (NORTHERN IRELAND) 1996

GENERAL IMPORT LICENCE

DARD/GEN/10/01

The Department of Agriculture and Rural Development, in accordance with the terms of the above legislation, hereby authorises the importation into Northern Ireland of:

Reagents or Samples for Research or Diagnostic Purposes (Avian) from Great Britain

subject to the following conditions:

1. The birds from which the samples were derived must not originate

from premises in a region or zone that was subject to official restrictions due to an epizootic or notifiable disease to which birds are susceptible according to European or other national animal health regulations. (The recipient reserves the right to request a signed statement or other to that effect – local, regional or national veterinary authorities should be contacted to obtain this information.).

2. All material must be packed in compliance with relevant transport regulations. All potentially contaminated packaging or containers must be suitably disinfected before transport.
3. The packaging must be clearly labelled and show:–
 - (a) the premises of origin
 - (b) the destination of the consignment
 - (c) the contents of the package
4. Any documentation which accompanied the consignment must be retained for at least 1 year.
5. All packaging or containers must be rendered safe before disposal using a thermal process, such as autoclaving, that has been validated to STAATT Level IV.
6. Research or diagnosis must take place within the confines of the laboratory of destination within Northern Ireland. On completion of laboratory processes, all surplus material must be rendered safe on site using a thermal process, such as autoclaving, that has been validated to STAATT Level IV before disposal.
7. Any consignment imported under this licence shall be made available if so required for inspection by an officer of the Department. The consignor or consignee shall afford all assistance necessary to such an officer to enable him/her to carry out the inspection.
8. This licence is valid until further notice, unless revoked by the Department.

Dated: 7 May 2010

Signed *Michelle H. McIlwaine*, Officer of the Department of Agriculture and Rural Development.

NOTES

1. Nothing in this licence gives exemption from any requirement, prohibition or restriction imposed by the Imported Food Regulations (Northern Ireland) 1991, the Medicines Act 1968 and 1971 or by any legislation superseding or amending the same.
2. Any breach of any condition attached to this licence will constitute an offence against the Diseases of Animals (Northern Ireland) Order 1981 (as amended). (2004/6)

DISEASES OF ANIMALS (NORTHERN IRELAND) ORDER 1981 LANDING OF CARCASSES AND ANIMAL PRODUCTS ORDER (NORTHERN IRELAND) 1985 (AS AMENDED)

GENERAL IMPORT LICENCE

DARD/GEN/10/02

The Department of Agriculture and Rural Development, in accordance with the terms of the above legislation, hereby authorises the importation into Northern Ireland of:

Reagents or Samples for Research or Diagnostic Purposes (Fish, Shellfish and Crustacean) from Great Britain

subject to the following conditions:

1. The fish from which the samples were derived must not originate from premises in a region or zone that was subject to official restrictions due to an epizootic or notifiable disease to which fish are susceptible according to European or other national animal health regulations. (The recipient reserves the right to request a signed statement or other to that effect – local, regional or national veterinary authorities should be contacted to obtain this information.).
2. All material must be packed in compliance with relevant transport regulations. All potentially contaminated packaging or containers must be suitably disinfected before transport.
3. The packaging must be clearly labelled and show:–
 - (a) the premises of origin
 - (b) the destination of the consignment
 - (c) the contents of the package

4. Any documentation which accompanied the consignment must be retained for at least 1 year.
5. All outer packaging or containers must be rendered safe before disposal using a thermal process, such as autoclaving, that has been validated to STAATT Level IV.
6. Research or diagnosis must take place within the confines of the laboratory of destination within Northern Ireland. On completion of laboratory processes, all surplus material must be rendered safe on site using a thermal process, such as autoclaving, that has been validated to STAATT Level IV before disposal.
7. Any consignment imported under this licence shall be made available if so required for inspection by an officer of the Department. The consignor or consignee shall afford all assistance necessary to such an officer to enable him/her to carry out the inspection.
8. This licence is valid until further notice, unless revoked by the Department.

Dated: 7 May 2010

Signed *Michelle H. McIlwaine*, Officer of the Department of Agriculture and Rural Development.

NOTES

1. Nothing in this licence gives exemption from any requirement, prohibition or restriction imposed by the Imported Food Regulations (Northern Ireland) 1991, the Medicines Act 1968 and 1971 or by any legislation superseding or amending the same.
2. Any breach of any condition attached to this licence will constitute an offence against the Diseases of Animals (Northern Ireland) Order 1981 (as amended). (2004/7)

GENERAL IMPORT LICENCE

DARD/GEN/10/03

The Department of Agriculture and Rural Development, in accordance with the terms of the above legislation, hereby authorises the importation into Northern Ireland of:

Reagents or Samples for Research or Diagnostic Purposes (Mammalian) from Great Britain

subject to the following conditions:

1. The animals from which the samples were derived must not originate from premises in a region or zone that was subject to official restrictions due to an epizootic or notifiable disease to which birds are susceptible according to European or other national animal health regulations. However, material may be imported from animals that comply with any additional conditions imposed by the importing authority in respect of Bluetongue. (The recipient reserves the right to request a signed statement or other to that effect – local, regional or national veterinary authorities should be contacted to obtain this information.).
2. All material must be packed in compliance with relevant transport regulations. All potentially contaminated packaging or containers must be suitably disinfected before transport.
3. The packaging must be clearly labelled and show:–
 - (a) the premises of origin
 - (b) the destination of the consignment
 - (c) the contents of the package
4. Any documentation which accompanied the consignment must be retained for at least 1 year.
5. All packaging or containers must be rendered safe before disposal using a thermal process, such as autoclaving, that has been validated to STAATT Level IV.
6. Research or diagnosis must take place within the confines of the laboratory of destination within Northern Ireland. On completion of laboratory processes, all surplus material must be rendered safe on site using a thermal process, such as autoclaving, that has been validated to STAATT Level IV before disposal.
7. Any consignment imported under this licence shall be made available if so required for inspection by an officer of the Department. The

consignor or consignee shall afford all assistance necessary to such an officer to enable him/her to carry out the inspection.

8. This licence is valid until further notice, unless revoked by the Department.

Dated: 7 May 2010

Signed *Michelle H. McIlwaine*, Officer of the Department of Agriculture and Rural Development.

NOTES

1. Nothing in this licence gives exemption from any requirement, prohibition or restriction imposed by the Imported Food Regulations (Northern Ireland) 1991, the Medicines Act 1968 and 1971 or by any legislation superseding or amending the same.

GENERAL IMPORT LICENCE

DARD/GEN/10/06

The Department of Agriculture and Rural Development, in accordance

with the terms of the above legislation, hereby authorises the importation into Northern Ireland of:

Reagents or Samples for Research or Diagnostic Purposes (Fish, Shellfish and Crustacean) from the Republic of Ireland

subject to the following conditions:

1. The fish from which the samples were derived must not originate from premises in a region or zone that was subject to official restrictions due to an epizootic or notifiable disease to which fish are susceptible according to European or other national animal health regulations. (The recipient reserves the right to request a signed statement or other to that effect – local, regional or national veterinary authorities should be contacted to obtain this information.)
2. All material must be packed in compliance with relevant transport regulations. All potentially contaminated packaging or containers must be suitably disinfected before transport.
3. The packaging must be clearly labelled and show:–
(a) the premises of origin
(b) the destination of the consignment
(c) the contents of the package
4. Any documentation which accompanied the consignment must be retained for at least 1 year.
5. All packaging or containers must be rendered safe before disposal using a thermal process, such as autoclaving, that has been validated to STAATT Level IV.
6. Research or diagnosis must take place within the confines of the laboratory of destination within Northern Ireland. On completion of laboratory processes, all surplus material must be rendered safe on site using a thermal process, such as autoclaving, that has been validated to STAATT Level IV before disposal.
7. Any consignment imported under this licence shall be made available if so required for inspection by an officer of the Department. The consignor or consignee shall afford all assistance necessary to such an officer to enable him/her to carry out the inspection.
8. This licence is valid until further notice, unless revoked by the Department.

Dated: 7 May 2010

Signed *Michelle H. McIlwaine*, Officer of the Department of Agriculture and Rural Development.

NOTES

1. Nothing in this licence gives exemption from any requirement, prohibition or restriction imposed by the Imported Food Regulations (Northern Ireland) 1991, the Medicines Act 1968 and 1971 or by any legislation superseding or amending the same.
2. Any breach of any condition attached to this licence will constitute an offence against the Diseases of Animals (Northern Ireland) Order 1981 (as amended). (2004/11)

GENERAL IMPORT LICENCE

DARD/GEN/10/07

The Department of Agriculture and Rural Development, in accordance with the terms of the above legislation, hereby authorises the importation into Northern Ireland of:

Laboratory Test Kits ready for use from Great Britain and Member States

subject to the following conditions:

1. All material must be packed in sealed, impervious containers of a type suitable for the contents and must be packed in compliance with relevant transport regulations. All potentially contaminated packaging or containers must be suitably disinfected before transport.
2. The packaging must be clearly labelled and show:–
(a) the premises of origin
(b) the destination of the consignment

- (c) the contents of the package
- (d) the product is intended for use as a laboratory kit

3. The product must not contain any living or viable organism.
4. Any documentation which accompanied the consignment must be retained for at least 1 year.
5. All packaging or containers must be rendered safe before disposal using a thermal process, such as autoclaving, that has been validated to STAATT Level IV.
6. Any consignment imported under this licence shall be made available if so required for inspection by an officer of the Department.
8. This licence is valid until further notice, unless revoked by the Department.

Dated: 7 May 2010

Signed *Michelle H. McIlwaine*, Officer of the Department of Agriculture and Rural Development.

NOTES

1. Nothing in this licence gives exemption from any requirement, prohibition or restriction imposed by the Imported Food Regulations (Northern Ireland) 1991, the Medicines Act 1968 and 1971 or by any legislation superseding or amending the same.
2. Any breach of any condition attached to this licence will constitute an offence against the Diseases of Animals (Northern Ireland) Order 1981 (as amended).
3. This licence applies to test kits that comprise, or contain, biological products which are products derived from living organisms, manufactured and distributed in accordance with the requirements of appropriate national authorities and laboratories and are used for prevention, treatment, or diagnosis of disease in humans or animals, or for development, experimental or investigational purposes.

(2004/12)

Department of Agriculture and Rural Development

EUROPEAN COMMUNITIES ACT 1972

THE PRODUCTS OF ANIMAL ORIGIN (THIRD COUNTRY IMPORTS) REGULATIONS (NORTHERN IRELAND) 2007 (AS AMENDED)

GENERAL IMPORT AUTHORISATION

Licence No: DARD/GEN/10/09

The Department of Agriculture and Rural Development, in accordance with the terms of the above legislation, hereby authorises subject to and in accordance with the conditions set out below, the landing in Northern Ireland of:

Any product derived from fish, reptiles and invertebrates intended for educational, research and museum purposes from Australia, Canada, Iceland, Norway, Switzerland, New Zealand and USA at all ports and airports in Northern Ireland until further notice or unless revoked by the Department of Agriculture and Rural Development.

Dated: 11 May 2010

Lisa Reid, Officer of the Department of Agriculture and Rural Development.

Conditions attached to this authorisation

1. This authorisation is valid for multiple consignments and the net weight of the imported material per consignment must not exceed 15 kg.
2. Each consignment must be accompanied by:
 - a copy of this authorisation
 - commercial/shipping documents providing the name and address of consignor and consignee, type of product and quantities
3. Each consignment must be accompanied by a declaration (see note i) signed by a veterinarian or director of the laboratory/establishment confirming that:
 - the products are **not** derived from animals known or suspected to be infected with a pathogen which causes a notifiable disease to which the animals are susceptible according to European legislation* or the animal health legislation of the exporting country;
 - nor do the products originate from animals in a premises or region or zone of a country that is subject to official restrictions due to a notifiable disease to which the animals are susceptible according to European or other national animal health legislation.

*Council Directive 82/894/EEC of 21 December 1982 (as amended) on the notification of animal diseases within the Community.

4. The packaging must be clearly labelled to indicate the general authorisation number under which the product is imported. The label should also state that material is for importation into the UK for research purposes.
5. The products must remain in their original wrapping until their arrival at destination premises.
6. All packages must be taken directly from the point of entry into the UK to the destination premises.
7. The consignment, or its packaging, must not be allowed to come into contact with any ruminating animals, swine, poultry or horses.
8. None of the material to which this authorisation relates shall be used for human consumption.
9. On completion of the testing, any residues of the material and the remainder of the packaging must be either incinerated at a premises that has been approved for the disposal of animal by-products (see note 5), autoclaved or re-exported (see note 7).
10. If there is an outbreak of a notifiable/reportable disease in the exporting country/countries, the conditions of this authorisation may change. In this event, you should contact Veterinary Service Trade Section. Further information on animal diseases can be found at: <http://www.dardni.gov.uk/index/publications/pubs-dard-animal-health/publications-ahw-notifiable-diseases.htm>
11. If the product is to be supplied to another establishment for further research, the importer must make the recipient aware of the requirement to destroy or re-export the residues of the product (see notes 5 and 7).
12. Products imported under this authorisation are for research, education or museum use only. A complete record/audit trail must be kept by all parties that handle the material. Products must NOT under any circumstances be supplied to a third party as a commercial transaction.
13. If at any time you are unable to meet the conditions on the authorisation; or any unlicensed animal pathogen is discovered in the imported material, work must be suspended immediately and the facts reported at once to Veterinary Service Trade Section.
14. The importer is responsible for ensuring the exporter is aware of the conditions of this authorisation.
15. You must inform Veterinary Service Trade Section of your intention to use this licence and forward a copy of the declaration at point 3 upon import of the product.
16. Any products and records relating to the product imported under this authorisation shall be made available if so required for inspection by an Officer of DARD at any place nominated by him/her for such inspection. The importer or his agent shall afford all assistance necessary to such an officer to enable him/her to carry out the inspection in such a manner as he/she shall determine and the importer shall be responsible for meeting any costs of carrying out such an inspection.

NOTES

- i. Please see the guidance and the declaration template
- ii. It is the responsibility of the importer to ensure that the exporter provides the necessary declaration referred to above.

GENERAL NOTES ON USING GENERAL AUTHORISATIONS

1. Nothing in this authorisation gives exemption from any prohibition or restriction imposed by any other legislation including: the Official Feed and Food Controls Regulations (Northern Ireland) 2007, the provisions of The Food Safety (Northern Ireland) Order 1991 and regulations made under it, the Animal By-Products (Identification) Regulations (Northern Ireland) 1999, the Marketing Authorisations for Veterinary Medicines Regulations 2009, the Control of Substances Hazardous to Health Regulations (Northern Ireland) 2003, International Air Transport Association, the Convention on International Trade in Endangered Species or by any regulation superseding or amending the same.
2. This authorisation is granted under animal health import legislation and gives no exemption from any prohibition, regulation or restriction imposed by any other Government Department or Agency.
3. Please note that while this authorisation is current at the time of issue, conditions can be subject to frequent change. Importers are advised to check the latest position with Veterinary Service Trade Section.

4. A list of approved incineration premises is available on our website: <http://www.dardni.gov.uk/index/animal-health/animal-by-products/animal-by-products-approved-premises.htm>
5. Further information on the importation of Specified Animal Pathogens is available from the Defra website at: <http://www.defra.gov.uk/foodfarm/farmanimal/diseases/pathogens/index.htm#list>
A copy of the Specified Animal Pathogens Order (Northern Ireland) 2008 can be obtained from the following website: http://www.opsi.gov.uk/sr/sr2008/nisr_20080336_en_1
6. This authorisation only deals with animal products. If you wish to import live animals of the species listed above, you should contact Veterinary Service Trade Section.
7. If the material is to be re-exported, you should ensure that the importing country will permit entry and that you have the correct paperwork to accompany the consignment.
8. Notification procedures are under review and may be subject to change. Please see guidance note for current process.

CAUTION

It is the importer's responsibility to ensure that any import covered by this authorisation complies with the terms and conditions as set out. Any breach of any conditions attached to this authorisation will constitute an offence against the Diseases of Animals (Northern Ireland) Order 1981.

GENERAL IMPORT AUTHORISATION

Licence No: DARD/GEN/10/10

The Department of Agriculture and Rural Development, in accordance with the terms of the above legislation, hereby authorises subject to and in accordance with the conditions set out below, the landing in Northern Ireland of:

Animal tissue derived from mammals and birds fixed in formalin intended for museum purposes from all countries at all ports and airports in Northern Ireland until further notice or unless revoked by the Department of Agriculture and Rural Development.

Dated: 11 May 2010

Lisa Reid, Officer of the Department of Agriculture and Rural Development.

Conditions attached to this licence

1. This licence is valid for multiple consignments and the net weight of the imported material per consignment must not exceed 15 kg.
2. Each consignment must be accompanied by:
 - a copy of this licence
 - commercial/shipping documents providing the name and address of consignor and consignee, type of product and quantities;
 - a declaration (see note i) signed by a veterinarian or director of the laboratory/establishment confirming that the tissue has been thoroughly fixed in formalin such that the formalin has penetrated throughout the entire sample/specimen (see note iii).
3. The packaging must be clearly labelled to indicate the general authorisation number under which the product is imported. The label should also state that material is for research purposes.

4. The products must remain in their original wrapping until their arrival at destination premises.
5. All packages must be taken directly from the point of entry into the UK to the destination premises.
6. The consignment, or its packaging, must not be allowed to come into contact with any ruminating animals, swine, poultry or horses.
7. None of the material to which this licence relates shall be used for human consumption.
8. On completion of the testing, any residues of the material and the remainder of the packaging must be either incinerated at a premises that has been approved for the disposal of animal by-products (see note 4), autoclaved or re-exported (see note 7).
9. If there is an outbreak of a notifiable/reportable disease in the exporting country/countries, the conditions of this authorisation may change. In this event, you should contact Veterinary Service Trade Section. Further information on animal diseases can be found at: <http://www.dardni.gov.uk/index/publications/pubs-dard-animal-health/publications-ahw-notifiable-diseases.htm>
10. If the product is to be supplied to another establishment, the importer must make the recipient aware of the requirement to destroy or re-export the residues of the product (see notes 4 and 7).
11. Products imported under this licence are museum use only. A complete record/audit trail must be kept by all parties that handle the material. Products must not under any circumstances be supplied to a third party as a commercial transaction.
12. If at any time you are unable to meet the conditions on the licence; or any unlicensed animal pathogen is discovered in the imported material, work must be suspended immediately and the facts reported at once to Veterinary Service Trade Section.
13. The importer is responsible for ensuring that the exporter is aware of the conditions of this licence.
14. You must inform Veterinary Service Trade Section of your intention to use this licence and forward a copy of the declaration at point 3 upon import of the product.
16. Any products and records relating to the product imported under this licence shall be made available for inspection by an Officer of DARD at any place nominated by him/her for such inspection. The importer or his agent shall afford all assistance necessary to such an officer to enable him/her to carry out the inspection in such a manner as he/she shall determine and the importer shall be responsible for meeting any costs of carrying out such an inspection.

NOTES

- i. Please see the guidance for the declaration template
- ii. It is the responsibility of the importer to ensure the exporter provides the necessary declaration.
- iii. **Formalin:** Aqueous solutions of formaldehyde are referred to as formalin. 100% formalin consists of a saturated solution of formaldehyde (this is about 40% by volume or 37% by mass) in water. Importers should note that the time taken to fix the tissue varies with factors such as the thickness of the tissue. **When tissues are initially fixed in formalin it is normal to use about 10 volumes of fixative to one volume of tissue.** Formalin fixed specimens for research must be cut so that one dimension is no greater than one centimetre and must be placed in not less than 9 times its own volume of 10% formalin for at least 48 hours before import. Larger specimens (e.g. for museum and educational purposes) must be placed in not less than 9 times its own volume of 10% formalin for at least **two weeks** before being imported. When tissue is imported into the UK, providing the tissue has been thoroughly fixed throughout, the same volume of fixative is not required.
- iv. **Safety:** Importers are responsible for ensuring that the health and safety requirements relating to the specimens, any infectious agents and the fixative are appropriately assessed and dealt with by ensuring suitable packaging and labelling. See condition 3.
- v. This licence cannot be used for animal material fixed in formalin that is intended for diagnostic work. If you wish to import material for diagnosis, you will need to apply for a specific licence. If the diagnostic work involves animal pathogens, you will need to apply for a Pathogens Licence from Veterinary Service Trade Section.

GENERAL NOTES

1. Nothing in this licence gives exemption from any prohibition or restriction imposed by any other legislation including: the Official Feed and Food Controls Regulations (Northern Ireland) 2007, the provisions of The Food Safety (Northern Ireland) Order 1991 and regulations made under it, the Animal By-Products (Identification) Regulations (Northern Ireland) 1999, the Marketing Authorisations

for Veterinary Medicines Regulations 2009, the Control of Substances Hazardous to Health Regulations (Northern Ireland) 2003, International Air Transport Association, the Convention on International Trade in Endangered Species or by any regulation superseding or amending the same.

2. This licence is granted under animal health import legislation and gives no exemption from any prohibition, regulation or restriction imposed by any other Government Department or Agency.
3. Please note that while this licence is current at the time of issue, conditions can be subject to frequent change. Importers are advised to check the latest position with Veterinary Service Trade Section.
4. A list of approved incineration premises is available on our website: <http://www.dardni.gov.uk/index/animal-health/animal-by-products-approved-premises.htm>
5. Further information on the importation of Specified Animal Pathogens is available from the Defra website at: <http://www.defra.gov.uk/foodfarm/farmanimal/diseases/pathogens/index.htm#list>
A copy of the Specified Animal Pathogens Order (Northern Ireland) 2008 can be obtained from the following website: http://www.opsi.gov.uk/sr/sr2008/nisr/20080336_en_1
6. This licence only deals with animal products. If you wish to import live animals of the species listed above, you should contact Veterinary Service Trade Section.
7. If the material is to be re-exported, you should ensure that the importing country will permit entry and that you have the correct paperwork to accompany the consignment.
8. Notification procedures are under review and may be subject to change. Please see guidance note for current process.

CAUTION

It is the importer's responsibility to ensure that any import covered by this licence complies with the terms and conditions as set out. Any breach of any conditions attached to this licence will constitute an offence against the Diseases of Animals (Northern Ireland) Order 1981.

EUROPEAN COMMUNITIES ACT 1972

THE PRODUCTS OF ANIMAL ORIGIN (THIRD COUNTRY IMPORTS) REGULATIONS (NORTHERN IRELAND) 2007 (AS AMENDED)

DISEASES OF ANIMALS (IMPORTATION OF BIRD PRODUCTS) ORDER (NORTHERN IRELAND) 1996

GENERAL IMPORT AUTHORISATION

Licence No: DARD/GEN/10/11

The Department of Agriculture and Rural Development, in accordance with the terms of the above legislation, hereby authorises subject to and in accordance with the conditions set out below, the landing in Northern Ireland of:—

Heat treated eggs and egg products for educational, research and museum purposes from Third countries listed in Part 1 of Annex II to Council Decision 79/542/EEC (as amended or replaced) and third countries or parts of third countries from which Member States may authorise imports of fresh poultry meat which are listed in Regulation (EC) No. 798/2008 as amended at all ports and airports in Northern Ireland until further notice or unless revoked by the Department of Agriculture and Rural Development.

Dated: 11 May 2010

Lisa Reid, Officer of the Department of Agriculture and Rural Development.

Conditions attached to this authorisation

1. This authorisation is valid for multiple consignments and the net

weight of the imported material per consignment must not exceed 15 kg.

2. Each consignment must be accompanied by:
 - a copy of this authorisation
 - shipping documents providing the name and address of consignor and consignee, type of product and quantities;
3. Each consignment must be accompanied by a declaration (see note i) signed by a veterinarian or director of the laboratory/establishment confirming that
 - the products are **not** derived from animals known or suspected to be infected with a pathogen which causes a notifiable disease to which the animals are susceptible according to European Legislation* or the animal health regulations of the exporting country;
 - nor do the products originate from animals in a premises, region or zone of a country that is subject to official restrictions due to a notifiable disease to which the animals are susceptible according to European or other national animal health legislation.
 - that the product has been heated treated to at least 56°C for at least 30 minutes.

*Council Directive 82/894/EEC of 21 December 1982 (as amended) on the notification of animal diseases within the Community.

4. The packaging must be clearly labelled to indicate the general authorisation number under which the product is imported. The label should also state that material is for research purposes.
5. The products must remain in their original wrapping until their arrival at destination premises.
6. All packages must be taken directly from the point of entry into the UK to the destination premises.
7. The consignment, or its packaging, must not be allowed to come into contact with any ruminating animals, swine, poultry or horses.
8. None of the material to which this authorisation relates shall be used for human consumption.
9. On completion of the testing, any residues of the material and the remainder of the packaging must be either incinerated at an approved premises (see note 4), autoclaved or re-exported (see note 7).
10. If there is an outbreak of a notifiable/reportable disease in the exporting country/countries, the conditions of this authorisation may change. In this event, you should contact Veterinary Service Trade Section. Further information on animal diseases can be found at: <http://www.dardni.gov.uk/index/publications/pubs-dard-animal-health/publications-ahw-notifiable-diseases.htm>
11. If the product is to be supplied to another establishment for further research, the importer must make the recipient aware of the requirement to destroy or re-export the residues of the product (see notes 4 and 7).
12. Products imported under this authorisation are for research, education or museum use only. A complete record/audit trail must be kept by all parties that handle the material. Products must not under any circumstances be supplied to a third party as a commercial transaction.
13. If at any time you are unable to meet the conditions on the authorisation; or any unlicensed animal pathogen is discovered in the imported material, work must be suspended immediately and the facts reported at once to Veterinary Service Trade Section.
14. The importer must ensure that the exporter is aware of the conditions of this authorisation.
15. You must inform Veterinary Service Trade Section of your intention to use this licence and forward a copy of the declaration at point 3 upon import of the product.
16. Any products and records relating to the product imported under this authorisation shall be made available if so required for inspection by an Officer of DARD at any place nominated by him/her for such inspection. The importer or his agent shall afford all assistance necessary to such an officer to enable him/her to carry out the inspection in such a manner as he/she shall determine and the importer shall be responsible for meeting any costs of carrying out such an inspection.

NOTES

- i. Please see the guidance and the declaration template.
- ii. It is the responsibility of the importer to ensure the exporter provides the necessary declaration referred to above.
- iii. A separate licence is available for the importation of egg products from EU countries. If the material you wish to import is from another

Member State, has been produced in accordance with the Animal By-Products Legislation (Regulation No. (EC) 1174/2002 as amended), you can import it under licence DARD/GEN/10/20 or if it has been produced in accordance with EU Hygiene rules and is fit for human consumption, you can import it under Licence DARD/GEN/10/19.

Copies of these licences are on the website: <http://www.dardni.gov.uk/index/animal-health/animal-import-licences.htm>

- iv. If you wish to import egg products from a country not listed above, you should apply for an authorisation from Veterinary Service Trade Section.
- v. This authorisation does not cover uncooked eggs in shell, unprocessed liquid eggs or unprocessed cracked eggs. If you wish to import these you should apply for an authorisation from Veterinary Service Trade Section.

GENERAL NOTES

1. Nothing in this authorisation gives exemption from any prohibition or restriction imposed by any other legislation including: the Official Feed and Food Controls Regulations (Northern Ireland) 2007, the provisions of The Food Safety (Northern Ireland) Order 1991 and regulations made under it, the Animal By-Products (Identification) Regulations (Northern Ireland) 1999, the Marketing Authorisations for Veterinary Medicines Regulations 2009, the Control of Substances Hazardous to Health Regulations (Northern Ireland) 2003, International Air Transport Association, the Convention on International Trade in Endangered Species or by any regulation superseding or amending the same.
2. This authorisation is granted under animal health import legislation and gives no exemption from any prohibition, regulation or restriction imposed by any other Government Department or Agency.
3. Please note that while this authorisation is current at the time of issue, conditions can be subject to frequent change. Importers are advised to check with Veterinary Service Trade Section.
4. A list of approved incineration premises is available on our website: <http://www.dardni.gov.uk/index/animal-health/animal-by-products-approved-premises.htm>
5. Further information on the importation of Specified Animal Pathogens is available from the Defra website at: <http://www.defra.gov.uk/foodfarm/farmanimal/diseases/pathogens/index.htm#list>
A copy of the Specified Animal Pathogens Order (Northern Ireland) 2008 can be obtained from the following website: <http://www.opsi.gov.uk/sr/sr2008/nisr/20080336.en1>
6. This authorisation only deals with animal products. If you wish to import live animals of the species listed above, you should contact Veterinary Service Trade Section.
7. If the material is to be re-exported, you should ensure that the importing country will permit entry and that you have the correct paperwork to accompany the consignment.
8. Notification procedures are under review and may be subject to change. Please see guidance note for current process.

CAUTION

It is the importer's responsibility to ensure that any import covered by this authorisation complies with the terms and conditions as set out. Any breach of any conditions attached to this authorisation will constitute an offence against the Diseases of Animals (Northern Ireland) Order 1981.

(2004/16)

Department of Agriculture and Rural Development

DISEASES OF ANIMALS (NORTHERN IRELAND) ORDER 1981 DISEASES OF ANIMALS (IMPORTATION OF BIRD PRODUCTS) ORDER (NORTHERN IRELAND) 1996

GENERAL IMPORT AUTHORISATION**Licence No: DARD/GEN/10/13**

The Department of Agriculture and Rural Development, in accordance with the terms of the above legislation, hereby authorises subject to and in accordance with the conditions set out below, the landing in Northern Ireland of:

Processed feathers intended for educational, research and museum purposes from all EU countries at all ports and airports in Northern Ireland until further notice or unless revoked by the Department of Agriculture and Rural Development.

Dated: 11 May 2010

Lisa Reid, Officer of the Department of Agriculture and Rural Development.

Conditions attached to this licence

1. This licence is valid for multiple consignments and the net weight of the imported material per consignment must not exceed 15 kg.
2. Each consignment must be accompanied by:
 - a copy of this licence
 - commercial/shipping documents providing the name and address of consignor and consignee, type of product and quantities;
3. Each consignment must be accompanied by a declaration (see note i) signed by a veterinarian or director of the laboratory/establishment confirming that:
 - the feathers and parts of feathers are: clean and free of visible dirt and tissue and treated with a steam current or by another method ensuring the inactivation of pathogens and are securely enclosed in packaging and are dry (see note iii);
 - the feathers originate from birds that did not show clinical signs of any disease communicable through that product to humans or animals;
 - the processed feathers are to be used for research, education, or museum purposes only.
4. The packaging must be clearly labelled to indicate the general authorisation number under which the product is imported. The label should also state that material is for importation into the UK for research purposes.
5. The products must remain in their original wrapping at all times until their arrival at destination premises.
6. All packages must be taken directly from the point of entry into the UK to the destination premises.
7. The consignment, or its packaging, must not be allowed to come into contact with any ruminating animals, swine, poultry or horses.
8. None of the material to which this licence relates shall be used for human consumption under any circumstances.
9. On completion of the testing any residues of the material and the remainder of the packaging shall be: incinerated at premises that have been approved for the disposal of animal by-products (see note 4), autoclaved or re-exported (see note 7).
10. If there is an outbreak of a notifiable/reportable disease in the exporting country/countries, the conditions of this licence may

change. In this event, you should contact Veterinary Service Trade Section. For information on animal diseases please see: <http://www.dardni.gov.uk/index/publications/pubs-dard-animal-health/publications-ahw-notifiable-diseases.htm>

11. If the product is to be supplied to another establishment, the importer must make the recipient aware of the requirement to destroy or re-export the residues of the product (see notes 4 and 7).
12. Products imported under this licence are for research, education or museum use only. A complete record/audit trail must be kept by all parties that handle the material. Products must not under any circumstances be supplied to a third party as a commercial transaction.
13. If at any time you are unable to meet the conditions on the licence; or any unlicensed animal pathogen is discovered in the imported material, work must be suspended immediately and the facts reported at once to Veterinary Service Trade Section.
14. The importer is responsible for ensuring that the person(s) sending the material to the UK are aware of the conditions of this licence.
15. You must inform Veterinary Service Trade Section of your intention to use this licence and forward a copy of the declaration at point 3 upon import of the product.
16. Any products and records relating to the product imported under this licence shall be made available if so required for inspection by an Officer of DARD at any place nominated by him/her for such inspection. The importer or his agent shall afford all assistance necessary to such an officer to enable him/her to carry out the inspection in such a manner as he/she shall determine and the importer shall be responsible for meeting any costs of carrying out such an inspection.

NOTES

- i. Please see the guidance and the declaration template.
- ii. It is the responsibility of the importer to ensure the exporter provides the necessary declaration referred to above.
- iii. The feathers must be cleaned so that there are no visible signs of faeces or any tissues.
- iv. If the material you wish to import in from another Member State has been produced in accordance with the Animal By-Products Legislation (Regulation No. (EC) 1774/2002 as amended), you can import it under licence DARD/GEN/10/20.
A copy of the licence is on our website: <http://www.dardni.gov.uk/index/animal-health/animal-import-licences.htm>

GENERAL NOTES ON USING GENERAL LICENCES

1. Nothing in this licence gives exemption from any prohibition or restriction imposed by any other legislation including: the Official Feed and Food Controls Regulations (Northern Ireland) 2007, the provisions of The Food Safety (Northern Ireland) Order 1991 and regulations made under it, the Animal By-Products (Identification) Regulations (Northern Ireland) 1999, the Marketing Authorisations for Veterinary Medicines Regulations 2009, the Control of Substances Hazardous to Health Regulations (Northern Ireland) 2003, International Air Transport Association, the Convention on International Trade in Endangered Species or by any regulation superseding or amending the same.
2. This licence is granted under animal health import legislation and gives no exemption from any prohibition, regulation or restriction imposed by any other Government Department or Agency.
3. Please note that while this licence is current at the time of its issue, conditions can be subject to frequent change and importers are advised to check the latest position with Veterinary Service Trade Section.
4. A list of approved incineration premises is available on our website: <http://www.dardni.gov.uk/index/animal-health/animal-by-products/animal-by-products-approved-premises.htm>
5. Further information on the importation of Specified Animal Pathogens is available from the Defra website at: <http://www.defra.gov.uk/foodfarm/farmanimal/diseases/pathogens/index.htm>
A copy of the Specified Animal Pathogens Order (Northern Ireland) 2008 can be obtained from the following website: http://www.opsi.gov.uk/sr/sr2008/nisr/20080336_en_1
6. This licence only deals with animal products. If you wish to import live animals of the species listed above, you should contact Veterinary Service Trade Section.
7. If the material is to be re-exported, you should ensure that the importing country will permit entry and that you have the correct paperwork to accompany the consignment.

8. Notification procedures are under review and may be subject to change. Please see guidance note for current process.

CAUTION

It is the importer's responsibility to ensure that any import covered by this licence complies with the terms and conditions as set out.

Any breach of any conditions attached to this licence will constitute an offence against the Diseases of Animals (Northern Ireland) Order 1981.

GENERAL IMPORT AUTHORISATION

Licence No: DARD/GEN/10/14

The Department of Agriculture and Rural Development, in accordance with the terms of the above legislation, hereby authorises subject to and in accordance with the conditions set out below, the landing in Northern Ireland of:

Processed feathers intended for educational, research and museum purposes from all non EU countries at all ports and airports in Northern Ireland until further notice or unless revoked by the Department of Agriculture and Rural Development.

Dated: 11 May 2010

Lisa Reid, Officer of the Department of Agriculture and Rural Development.

Conditions attached to this authorisation

1. This authorisation is valid for multiple consignments and the net weight of the imported material per consignment must not exceed 15 kg.
2. Each consignment must be accompanied by:
 - a copy of this authorisation
 - commercial/shipping documents providing the name and address of consignor and consignee, type of product and quantities;
3. Each consignment must be accompanied by a declaration (see note i) signed by a veterinarian or director of the laboratory/establishment confirming that:
 - the feathers and parts of feathers are: clean and free of visible dirt and tissue and treated with a steam current or by another method ensuring the inactivation of pathogens and are securely enclosed in packaging and are dry (see note iii);
 - that the feathers originate from animals that did not show clinical signs of any disease communicable through that product to humans or animals;
 - confirming that the processed feathers are to be used for education, research or museum purposes only.
4. The packaging must be clearly labelled to indicate the general authorisation number under which the product is imported. The label should also state that material is for importation into the UK for research purposes.
5. The products must remain in their original wrapping at all times until their arrival at destination premises.
6. All packages must be taken directly from the point of entry into the UK to the destination premises.
7. The consignment, or its packaging, must not be allowed to come into contact with any ruminating animals, swine, poultry or horses.
8. None of the material to which this authorisation relates shall be used for human consumption under any circumstances.
9. On completion of the testing any residues of the material and the remainder of the packaging shall be: incinerated at premises that

have been approved for the disposal of animal by-products (see note 4), autoclaved or re-exported (see note 7).

10. If there is an outbreak of a notifiable/reportable disease in the exporting country/countries, the conditions of this authorisation may change. In this event, you should contact Veterinary Service Trade Section. For information on animal diseases please see: <http://www.dardni.gov.uk/index/publications/pubs-dard-animal-health/publications-ahw-notifiable-diseases.htm>
11. If the product is to be supplied to another establishment, the importer must make the recipient aware of the requirement to destroy or re-export the residues of the product (see notes 4 and 7).
12. Products imported under this authorisation are for research, education or museum use only. A complete record/audit trail must be kept by all parties that handle the material. Products must not under any circumstances be supplied to a third party as a commercial transaction.
13. If at any time you are unable to meet the conditions on the authorisation; or any unlicensed animal pathogen is discovered in the imported material, work must be suspended immediately and the facts reported at once to Veterinary Service Trade Section.
14. The importer is responsible for ensuring that the person(s) sending the material to the UK are aware of the conditions of this authorisation.
15. You must inform Veterinary Service Trade Section of your intention to use this licence and forward a copy of the declaration at point 3 upon import of the product.
16. Any products and records relating to the product imported under this authorisation shall be made available if so required for inspection by an Officer of DARD at any place nominated by him/her for such inspection. The importer or his agent shall afford all assistance necessary to such an officer to enable him/her to carry out the inspection in such a manner as he/she shall determine and the importer shall be responsible for meeting any costs of carrying out such an inspection.

NOTES

- i. Please see the guidance and the declaration template.
- ii. It is the responsibility of the importer to ensure the exporter provides the necessary declaration referred to above.
- iii. The feathers must be cleaned so that there are no visible signs of faeces or any tissues

GENERAL NOTES

1. Nothing in this authorisation gives exemption from any prohibition or restriction imposed by any other legislation including: the Official Feed and Food Controls Regulations (Northern Ireland) 2007, the provisions of The Food Safety (Northern Ireland) Order 1991 and regulations made under it, the Animal By-Products (Identification) Regulations (Northern Ireland) 1999, the Marketing Authorisations for Veterinary Medicines Regulations 2009, the Control of Substances Hazardous to Health Regulations (Northern Ireland) 2003, International Air Transport Association, the Convention on International Trade in Endangered Species or by any regulation superseding or amending the same.
2. This authorisation is granted under animal health import legislation and gives no exemption from any prohibition, regulation or restriction imposed by any other Government Department or Agency.
3. Please note that while this authorisation is current at the time of issue, conditions can be subject to frequent change and importers are advised to check the latest position with Veterinary Service Trade Section.
4. A list of approved incineration premises is available on our website: <http://www.dardni.gov.uk/index/animal-health/animal-by-products/animal-by-products-approved-premises.htm>
5. Further information on the importation of Specified Animal Pathogens is available from the Defra website at: <http://www.defra.gov.uk/foodfarm/farmanimal/diseases/pathogens/index.htm>
A copy of the Specified Animal Pathogens Order (Northern Ireland) 2008 can be obtained from the following website: http://www.opsi.gov.uk/sr/sr2008/nisr_20080336_en_1
6. This authorisation only deals with animal products. If you wish to import live animals of the species listed above, you should contact Veterinary Service Trade Section.
7. If the material is to be re-exported, you should ensure that the importing country will permit entry and that you have the correct paperwork to accompany the consignment.

8. Notification procedures are under review and may be subject to change. Please see guidance note for current process.

CAUTION

It is the importer's responsibility to ensure that any import covered by this authorisation complies with the terms and conditions as set out.

Any breach of any conditions attached to this authorisation will constitute an offence against the Diseases of Animals (Northern Ireland) Order 1981.

EUROPEAN COMMUNITIES ACT 1972

THE PRODUCTS OF ANIMAL ORIGIN (THIRD COUNTRY IMPORTS) REGULATIONS (NORTHERN IRELAND) 2007 (AS AMENDED)

LANDING OF CARCASSES AND ANIMAL PRODUCTS ORDER (NORTHERN IRELAND) 1985 (AS AMENDED)

GENERAL IMPORT AUTHORISATION

Licence No: DARD/GEN/10/15

The Department of Agriculture and Rural Development, in accordance with the terms of the above legislation, hereby authorises subject to and in accordance with the conditions set out below, the landing in Northern Ireland of:

Heat treated organs, glands, blood or other tissues, or products derived from these tissues from ungulates, born and bred in captivity and not known or suspected to be infected with specified animal pathogens, intended for educational, research and museum purposes from Australia, Canada, Iceland, Norway, New Zealand, Switzerland and the USA at all ports and airports in Northern Ireland until further notice or unless revoked by the Department of Agriculture and Rural Development.

Dated: 11 May 2010

Lisa Reid, Officer of the Department of Agriculture and Rural Development.

Conditions attached to this authorisation

1. This authorisation is valid for multiple consignments and the net weight of the material per consignment must not exceed 15 kg.
2. Each consignment must be accompanied by:
 - a copy of this authorisation
 - commercial/shipping documents providing the name and address of consignor and consignee, type of product and quantities;
3. Each consignment must be accompanied by a declaration (see note i) signed by a veterinarian or director of the laboratory/establishment confirming that:
 - the product is derived from animals born and kept in isolation from other animals which have not been born and kept in isolation;
 - the products are not derived from animals known or suspected to be infected with a specified animal pathogen (e.g. rabies) listed by the Specified Animal Pathogens Order (NI) 2008 (as amended);
 - the animals have not been kept with animals known or suspected to be infected with specified animal or human pathogens nor have they been used in experiments involving live pathogens listed in the Specified Animal Pathogens Order (NI) 2008 (as amended) (see note 5);
 - that the material has been heat treated to at least 56°C for at least 30 minutes.
4. This authorisation **must not** be used for animals which were not born and kept in captivity.
5. This authorisation **must not** be used for specimens from animals which are or were known or suspected to be infected with a specified animal pathogen (see note 6 for further information).
6. The packaging must be clearly labelled to indicate the general

authorisation number under which the product is imported. The label should also state that material is for research purposes.

7. The products must remain in their original wrapping until their arrival at destination premises.
8. All packages must be taken directly from the point of entry into the UK to the destination premises.
9. The consignment, or its packaging, must not be allowed to come into contact with any ruminating animals, swine, poultry or horses.
10. None of the material to which this authorisation relates shall be used for human consumption.
11. On completion of the testing any residues of the material and the remainder of the packaging must be either incinerated at a premises that has been approved for the disposal of animal by-products (see general note 4), autoclaved or re-exported (see general note 7).
12. If there is an outbreak of a notifiable/reportable disease in the exporting country/countries, the conditions of this authorisation may change. In this event you should contact Veterinary Service Trade Section. Further information on animal diseases can be found at: <http://www.dardni.gov.uk/index/publications/pubs-dard-animal-health/publications-ahw-notifiable-diseases.htm>
13. If the product is to be supplied to another establishment, the importer must make the recipient aware of the requirement to destroy or re-export the residues of the product (see notes 4 and 7).
14. Products imported under this authorisation are for research, education or museum use only. A complete record/audit trail must be kept by all parties that handle the material. Products must not under any circumstances be supplied to a third party as a commercial transaction.
15. If at any time you are unable to meet the conditions on the authorisation; or any unlicensed animal pathogen is discovered in the imported material, work must be suspended immediately and the facts reported at once to Veterinary Service Trade Section.
16. The importer is responsible for ensuring the exporter is aware of the conditions of this authorisation.
17. You must inform Veterinary Service Trade Section of your intention to use this licence and forward a copy of the declaration at point 3 upon import of the product.
18. Any products and records relating to the product imported under this authorisation shall be made available if so required for inspection by an Officer of DARD at any place nominated by him/her for such inspection. The importer or his agent shall afford all assistance necessary to such an officer to enable him/her to carry out the inspection in such a manner as he/she shall determine and the importer shall be responsible for meeting any costs of carrying out such an inspection.

NOTES

- i. Please see the guidance and the declaration template.
- ii. It is the importer's responsibility to ensure that the exporter provides the necessary declaration referred to above.
- iii. This authorisation must not be used for products of animals which were not born and kept in captivity.
- iv. If you wish to import organs, glands, blood, tissues or other products derived from these tissues from ungulates and primates from a country other than that specified above, you should contact Veterinary Service Trade Section.

GENERAL NOTES

1. Nothing in this authorisation gives exemption from any prohibition or restriction imposed by any other legislation including: the Official Feed and Food Controls Regulations (Northern Ireland) 2007, the provisions of The Food Safety (Northern Ireland) Order 1991 and regulations made under it, the Animal By-Products (Identification) Regulations (Northern Ireland) 1999, the Marketing Authorisations for Veterinary Medicines Regulations 2009, the Control of Substances Hazardous to Health Regulations (Northern Ireland) 2003, International Air Transport Association, the Convention on International Trade in Endangered Species or by any regulation superseding or amending the same.
2. This authorisation is granted under animal health import legislation and gives no exemption from any prohibition, regulation or restriction imposed by any other Government Department or Agency.
3. Please note that while this authorisation is current at the time of issue, conditions can be subject to frequent change. Importers are advised to check with Veterinary Service Trade Section.
4. A list of approved incineration premises is available on our website:

<http://www.dardni.gov.uk/index/animal-health/animal-by-products/animal-by-products-approved-premises.htm>

5. Further information on the importation of Specified Animal Pathogens is available from the Defra website at: <http://www.defra.gov.uk/foodfarm/farmanimal/diseases/pathogens/index.htm>
A copy of the Specified Animal Pathogens Order (Northern Ireland) 2008 can be obtained from the following website: http://www.opsi.gov.uk/sr/sr2008/nisr/20080336_en_1
6. This authorisation only deals with animal products. If you wish to import live animals of the species listed above, you should contact Veterinary Service Trade Section.
7. If the material is to be re-exported, you should ensure that the importing country will permit entry and that you have the correct paperwork to accompany the consignment.
8. Notification procedures are under review and may be subject to change. Please see guidance note for current process.

CAUTION

It is the importer's responsibility to ensure that any import covered by this authorisation complies with the terms and conditions as set out.

Any breach of any conditions attached to this authorisation will constitute an offence against the Diseases of Animals (Northern Ireland) Order 1981.

LANDING OF CARCASSES AND ANIMAL PRODUCTS ORDER (NORTHERN IRELAND) 1985 (AS AMENDED)

GENERAL IMPORT AUTHORISATION

Licence No: DARD/GEN/10/16

The Department of Agriculture and Rural Development, in accordance with the terms of the above legislation, hereby authorises subject to and in accordance with the conditions set out below, the landing in Northern Ireland of:-

Heat treated organs, glands, blood or other tissues, or products derived from these tissues that are

- from domestic, zoo and laboratory mammals, excluding ungulates and primates;
- born and bred in captivity; and
- not known or suspected to be infected with specified animal pathogens

that are intended for educational, research and museum purposes only from all non EU countries at all ports and airports in Northern Ireland until further notice or unless revoked by the Department of Agriculture and Rural Development.

Dated: 11 May 2010

Lisa Reid, Officer of the Department of Agriculture and Rural Development.

Conditions attached to this authorisation

1. This authorisation is valid for multiple consignments and the net weight of the material per consignment must not exceed 15 kg.
2. Each consignment must be accompanied by:
 - a copy of this authorisation
 - commercial/shipping documents providing the name and address of consignor and consignee, type of product and quantities;
3. Each consignment must be accompanied by a declaration (see note i) signed by a veterinarian or director of the laboratory/establishment confirming that:

- the products are derived from animals born and kept in isolation from other animals which have not been born and kept in isolation;
 - the products are not derived from animals known or suspected to be infected with a specified animal pathogen (e.g. rabies) listed by the Specified Animal Pathogens Order (NI) 2008 (as amended);
 - the animals have not been kept with animals known or suspected to be infected with specified animal or human pathogens nor have they been used in experiments involving live pathogens listed in the Specified Animal Pathogens Order (NI) 2008 (as amended) (see note 5);
 - the material has been heat treated to at least 56°C for at least 30 minutes.
4. This authorisation **must not** be used for animals which were not born and kept in captivity.
 5. This authorisation **must not** be used for specimens from animals which are or were known or suspected to be infected with a specified animal pathogen (see note 5).
 6. The packaging must be clearly labelled to indicate the general authorisation number under which the product is imported. The label should also state that material is for importation into the UK for research purposes.
 7. The products must remain in their original wrapping at all times until their arrival at destination premises. All packages must be taken directly from the point of entry to the destination premises.
 8. All packages must be taken directly from the point of entry into the UK to their destination.
 9. The consignment, or its packaging, must not be allowed to come into contact with any ruminating animals, swine, poultry or horses.
 10. None of the material to which this authorisation relates shall be used for human consumption.
 11. On completion of the testing, any residues of the material and the remainder of the packaging shall be: incinerated at premises that have been approved for the disposal of animal by-products (see note 4), autoclaved or re-exported (see note 7).
 12. If there is an outbreak of a notifiable/reportable disease in the exporting country/countries, the conditions of this authorisation may change. In this event, you should contact Veterinary Service Trade Section. For information on animal diseases please see: <http://www.dardni.gov.uk/index/publications/pubs-dard-animal-health/publications-ahw-notifiable-diseases.htm>
 13. If the product is to be supplied to another establishment, the importer must make the recipient aware of the requirement to destroy or re-export the residues of the product (see notes 4 and 7).
 14. Products imported under this authorisation are for research, education or museum use only. A complete record/audit trail must be kept by all parties that handle the material. Products must not under any circumstances be supplied to a third party as a commercial transaction.
 15. If at any time you are unable to meet the conditions on the authorisation; or any unlicensed animal pathogen is discovered in the imported material, work must be suspended immediately and the facts reported at once to Veterinary Service Trade Section.
 16. The importer is responsible for ensuring that the person(s) sending the material to the UK are aware of the conditions of this authorisation.
 17. You must inform Veterinary Service Trade Section of your intention to use this licence and forward a copy of the declaration at point 3 upon import of the product.
 18. Any products and records relating to the product imported under this authorisation shall be made available if so required for inspection by an Officer of DARD at any place nominated by him/her for such inspection. The importer or his agent shall afford all assistance necessary to such an officer to enable him/her to carry out the inspection in such a manner as he/she shall determine and the importer shall be responsible for meeting any costs of carrying out such an inspection.

NOTES

- i. Please see the guidance and the declaration template.
- ii. It is the responsibility of the importer to ensure that the exporter provides the necessary declaration referred to above.
- iii. Products derived from ungulates and primates are NOT permitted under this authorisation.

GENERAL NOTES

- Nothing in this authorisation gives exemption from any prohibition or restriction imposed by any other legislation including: the Official Feed and Food Controls Regulations (Northern Ireland) 2007, the provisions of The Food Safety (Northern Ireland) Order 1991 and regulations made under it, the Animal By-Products (Identification) Regulations (Northern Ireland) 1999, the Marketing Authorisations for Veterinary Medicines Regulations 2009, the Control of Substances Hazardous to Health Regulations (Northern Ireland) 2003, International Air Transport Association, the Convention on International Trade in Endangered Species or by any regulation superseding or amending the same.
- This authorisation is granted under animal health import legislation and gives no exemption from any prohibition, regulation or restriction imposed by any other Government Department or Agency.
- Please note that while this authorisation is current at the time of its issue, conditions can be subject to frequent change and importers are advised to check the latest position with Veterinary Service Trade Section.
- A list of approved incineration premises is available on our website: <http://www.dardni.gov.uk/index/animal-health/animal-by-products/animal-by-products-approved-premises.htm>

DISEASES OF ANIMALS (NORTHERN IRELAND) ORDER 1981 LANDING OF CARCASSES AND ANIMAL PRODUCTS ORDER (NORTHERN IRELAND) 1985 (AS AMENDED)

GENERAL IMPORT AUTHORISATION

Licence No: DARD/GEN/10/18

The Department of Agriculture and Rural Development, in accordance with the terms of the above legislation, hereby authorises subject to and in accordance with the conditions set out below, the landing in Northern Ireland of:

Heat treated organs, glands, blood or other tissues, or products derived from these tissues that are

- from domestic, zoo and laboratory mammals, excluding ungulates and primates;
- born and bred in captivity; and
- not known or suspected to be infected with specified animal pathogens

that are intended for educational, research and museum purposes only from EU countries at all ports and airports in Northern Ireland until further notice or unless revoked by the Department of Agriculture and Rural Development.

Dated: 11 May 2010

Lisa Reid, Officer of the Department of Agriculture and Rural Development.

Conditions attached to this licence

1. This licence is valid for multiple consignments and the net weight of the imported material per consignment must not exceed 15 kg.
2. Each consignment must be accompanied by:
 - a copy of this licence
 - commercial/shipping documents providing the name and address of consignor and consignee, type of product and quantities;
3. Each consignment must be accompanied by a declaration (see note i) signed by a veterinarian or director of the laboratory/establishment confirming that:
 - the products are derived from animals born and kept in isolation from other animals which have not been born and kept in isolation;
 - the products are not derived from animals known or suspected to be infected with a specified animal pathogen (e.g. rabies) listed by the Specified Animal Pathogens Order (NI) 2008 (as amended);
 - the animals have not been kept with animals known or suspected to be infected with specified animal or human pathogens nor have they been used in experiments involving live pathogens listed in the Specified Animal Pathogens Order (NI) 2008 (as amended) (see note 5);
 - the material has been heat treated to at least 56°C for at least 30 minutes.
4. This licence **must not** be used for animals which were not born and kept in captivity.
5. This licence **must not** be used for specimens from animals which are or were known or suspected to be infected with a specified animal pathogen (see note 5).
6. The packaging must be clearly labelled to indicate the general authorisation number under which the product is imported. The label should also state that material is for importation into the UK for research purposes.
7. The products must remain in their original wrapping at all times until arrival at destination premises.
8. All packages must be taken directly from the point of entry into the UK to the destination premises.
9. The consignment, or its packaging, must not be allowed to come into contact with any ruminating animals, swine, poultry or horses.
10. None of the material to which this licence relates shall be used for human consumption.
11. On completion of the testing any residues of the material and the remainder of the packaging must be either incinerated at a premises that has been approved for the disposal of animal by-products (see general note 4), autoclaved or re-exported (see general note 7).
12. If there is an outbreak of a notifiable/reportable disease in the exporting country/countries, the conditions of this authorisation may

change – please contact Veterinary Service Trade Section. For information on animal diseases please see: <http://www.dardni.gov.uk/index/publications/pubs-dard-animal-health/publications-ahw-notifiable-diseases.htm>

13. If the product is to be supplied to another establishment, the importer must make the recipient aware of the requirement to destroy or re-export the residues of the product (see notes 4 and 7).
14. Products imported under this licence are for research, education or museum use only. A complete record/audit trail must be kept by all parties that handle the material. Products must not under any circumstances be supplied to a third party as a commercial transaction.
15. If at any time you are unable to meet the import conditions, or any unlicensed animal pathogen is discovered in the imported material, work must be suspended immediately and the facts reported to Veterinary Service Trade Section.
16. The importer is responsible for ensuring the exporter is aware of the conditions of this licence.
17. You must inform Veterinary Service Trade Section of your intention to use this licence and forward a copy of the declaration at point 3 upon import of the product.
18. Any products and records relating to the product imported under this licence shall be made available for inspection by an Officer of DARD at any place nominated by him/her for such inspection. The importer or his agent shall afford all assistance necessary to such an officer to enable him/her to carry out the inspection in such a manner as he/she shall determine and the importer shall be responsible for meeting any costs of carrying out such an inspection.

NOTES

- i. Please see the guidance and the declaration template.
- ii. It is the importer's responsibility to ensure the exporter provides the declaration referred to above.
- iii. If the material you wish to import in from another Member State, has been produced in accordance with the Animal By-Products Legislation (Regulation No. (EC) 1774/2002 as amended), you can import it in under licence DARD/GEN/10/20.
- iv. The licence is available on our website: <http://www.dardni.gov.uk/index/animal-health/animal-import-licences.htm>
- v. Products derived from ungulates and primates are NOT permitted under this licence.

GENERAL NOTES

1. Nothing in this licence gives exemption from any prohibition or restriction imposed by any other legislation including: the Official Feed and Food Controls Regulations (Northern Ireland) 2007, the provisions of The Food Safety (Northern Ireland) Order 1991 and regulations made under it, the Animal By-Products (Identification) Regulations (Northern Ireland) 1999, the Marketing Authorisations for Veterinary Medicines Regulations 2009, the Control of Substances Hazardous to Health Regulations (Northern Ireland) 2003, International Air Transport Association, the Convention on International Trade in Endangered Species or by any regulation superseding or amending the same.
2. This licence is granted under animal health import legislation and gives no exemption from any prohibition, regulation or restriction imposed by any other Government Department or Agency.
3. Please note that while this licence is current at the time of issue, conditions can be subject to frequent change. Importers are advised to check the latest position with Veterinary Service Trade Section.
4. A list of approved incineration premises is available on our website: <http://www.dardni.gov.uk/index/animal-health/animal-by-products/animal-by-products-approved-premises.htm>
5. Further information on the importation of Specified Animal Pathogens is available from the Defra website at: <http://www.defra.gov.uk/foodfarm/farmanimal/diseases/pathogens/index.htm>
A copy of the Specified Animal Pathogens Order (Northern Ireland) 2008 can be obtained from the following website: <http://www.opsi.gov.uk/sr/sr2008/nisr/20080336.en.1>
6. This licence only deals with animal products. If you wish to import live animals of the species listed above, you should contact Veterinary Service Trade Section.
7. If the material is to be re-exported, you should ensure that the importing country will permit entry and that you have the correct paperwork to accompany the consignment.

8. Notification procedures are under review and may be subject to change. Please see guidance note for current process.

CAUTION

It is the importer's responsibility to ensure that any import covered by this licence complies with the terms and conditions as set out. Any breach of any conditions attached to this licence will constitute an offence against the Diseases of Animals (Northern Ireland) Order 1981.

GENERAL IMPORT LICENCE

DARD/GEN/10/19

The Department of Agriculture and Rural Development, in accordance with the terms of the above legislation, hereby authorises subject to and in accordance with the conditions set out below, the landing in Northern Ireland of:

Meat, meat products, minced meat, meat preparations, milk and dairy products, eggs, liquid eggs and egg products, mechanically separated meat, other processed products (all as defined in Annex 1 of Council Regulation (EC) No. 853/2004¹ laying down hygiene rules for food of animal origin) derived from domestic bovine, porcine, ovine and caprine animals, poultry, rabbits, hares, wild game, famed game (see Regulation (EC) No. 853/2004) and Composite Products as defined in Commission Decision 2007/275/EC² intended for human consumption from EU countries, Norway, Liechtenstein and Switzerland at all ports and airports in Northern Ireland until further notice or unless revoked by the Department of Agriculture and Rural Development.

Dated: 11 May 2010

Lisa Reid, Officer of the Department of Agriculture and Rural Development.

¹ OJ No. L226, 25.6.2004 p. 22

² OJ No. L116, 4.5.2007 p. 9

Conditions attached to this licence

1. The products must have been produced, stored and transported in accordance of Council Directive 2002/99/EC³ laying down the animal health rules governing the production, processing, distribution and introduction of products of animal origin for human consumption.
2. The products must be produced, stored and transported in accordance with public health requirements laid down in Community legislation. Further information is available from the Food Standards Agency:

Meat Hygiene & Imported Food Unit,
Food Standards Agency Northern Ireland,
10A-C Clarendon Road, Belfast BT1 3BG
Telephone: 028 90417705
Email: Danielle.Gamble@foodstandards.gsi.gov.uk

³ OJ No. L18, 23.1.2003 p. 11

NOTES

1. Nothing in this licence gives exemption from any prohibition or restriction imposed by the provisions of the provisions of the Food Safety (Northern Ireland) Order 1991 and regulations made under it, the Animal By-Products (Identification) Regulations (Northern Ireland) 1999, the Marketing Authorisations for Veterinary Medicines Regulations 2009 or by any regulation superseding or amending the same.

2. This licence is granted under animal health import legislation and gives no exemption from any prohibition, regulation or restriction imposed by any other Government Department or Agency.
3. Please note that while this licence is current at the time of its issue, conditions can be subject to frequent change and importers are advised to check the latest position with Veterinary Service Trade Section at the below address.
4. Any products imported under this licence shall be made available if so required for inspection by an Officer of DARD at any place nominated by him/her for such inspection. The importer or his agent shall afford all assistance necessary to such an officer to enable him/her to carry out the inspection in such a manner as he/she shall determine and the importer shall be responsible for meeting any costs of carrying out such an inspection.

CAUTION

It is the importer's responsibility to ensure that any import covered by this licence complies with the terms and conditions as set out.

Any breach of any conditions attached to this licence will constitute an offence against the Diseases of Animals (Northern Ireland) Order 1981.

LANDING OF CARCASSES AND ANIMAL PRODUCTS ORDER (NORTHERN IRELAND) 1985 (AS AMENDED)

GENERAL IMPORT LICENCE

DARD/GEN/10/20

The Department of Agriculture and Rural Development, in accordance with the terms of the above legislation, hereby authorises subject to and in accordance with the conditions set out below, the landing in Northern Ireland of:

Category 3 animal by-products not intended for human consumption as defined in Commission Regulation 1774/2002¹ (Animal By-Products) from EU countries, Norway, Liechtenstein and Switzerland at all ports and airports in Northern Ireland until further notice or unless revoked by the Department of Agriculture and Rural Development.

Dated: 11 May 2010

Lisa Reid, Officer of the Department of Agriculture and Rural Development.

¹ OJ No. L273, 10.10.2002 p. 1

Conditions attached to this licence

1. The products must have been produced, labelled, stored and transported in accordance with Commission Regulation No. (EC) 1774/2002 of the European Parliament and of the Council of 3 October 2002 laying down health rules concerning animal by-products not intended for human consumption.

NOTES

1. Nothing in this licence gives exemption from any prohibition or restriction imposed by the provisions of the Food Safety (Northern Ireland) Order 1991 and regulations made under it, the Animal By-Products (Identification) Regulations (Northern Ireland) 1999, the Marketing Authorisations for Veterinary Medicines Regulations 2009 or by any regulation superseding or amending the same.
2. This licence is granted under animal health import legislation and gives no exemption from any prohibition, regulation or restriction imposed by any other Government Department or Agency.
3. Please note that while this licence is current at the time of its issue, conditions can be subject to frequent change and importers are advised to check the latest position with Veterinary Service Trade Section.

4. Any products imported under this licence shall be made available if so required for inspection by an Officer of DARD at any place nominated by him/her for such inspection. The importer or his agent shall afford all assistance necessary to such an officer to enable him/her to carry out the inspection in such a manner as he/she shall determine and the importer shall be responsible for meeting any costs of carrying out such an inspection.

CAUTION

It is the importer's responsibility to ensure that any import covered by this licence complies with the terms and conditions as set out.

Any breach of any conditions attached to this licence will constitute an offence against the Diseases of Animals (Northern Ireland) Order 1981.

Department of Agriculture and Rural Development

DISEASES OF ANIMALS (NORTHERN IRELAND) ORDER 1981 LANDING OF CARCASSES AND ANIMAL PRODUCTS ORDER (NORTHERN IRELAND) 1985 (AS AMENDED) GENERAL IMPORT LICENCE

Licence No: DARD/GEN/10/21

The Department of Agriculture and Rural Development, in accordance with the terms of the above legislation, hereby authorises subject to and in accordance with the conditions set out below, the landing in Northern Ireland of:

Whole carcasses, parts of carcasses, organs, glands, blood, faeces, urine or other body fluids or tissues/materials derived from these commodities from animals of the family *Canidae*, Family *Felidae*, Order *Rodentia* and Order *Lagomorpha** born and bred in captivity and not known or suspected to be infected with specified animal pathogens, **and** intended for research, testing, diagnostic and/or educational purposes. Please note this authorisation excludes viable semen, ova and embryos intended for artificial breeding purposes

*see note 14

from all EU countries at all ports and airports in Northern Ireland until further notice or unless revoked by the Department of Agriculture and Rural Development.

Dated: 11 May 2010

Lisa Reid, Officer of the Department of Agriculture and Rural Development.

Conditions attached to this licence

1. This licence can only be used for the importation into Northern Ireland of whole carcasses, parts of carcasses, organs, glands, blood, faeces, urine or other body fluids or tissues/materials derived from these commodities (hereafter all called 'products') from animals of the Family *Canidae*, Family *Felidae*, Order *Rodentia* and Order *Lagomorpha* not known or suspected to be infected with specified animal pathogens, and intended for research, testing, diagnostic and/or educational purposes.
2. This licence is valid for multiple consignments and the net weight of the material per consignment must not exceed 15 kg.
3. Each consignment must be accompanied by:
 - a copy of this licence
 - commercial/shipping documents providing the name and address of consignor and consignee, type of product and quantities;
4. Each consignment must be accompanied by a declaration (see note i) signed by a veterinarian or director of the consigning laboratory/establishment confirming that:
 - the products are derived from animals born and bred in captivity and kept isolated from other animals which are not born and bred in captivity;
 - the products are not derived from animals known or suspected to be infected with a specified animal pathogen (e.g. rabies) listed

by the Specified Animal Pathogens Order (NI) 2008 (as amended);

- the animals have not been kept with animals known or suspected to be infected with specified animal pathogen nor have they been used in experiments involving live pathogens listed in the Specified Animal Pathogens Order (NI) 2008 (as amended) (see note 10 on Specified Animal Pathogens).
5. The samples must be worked on and stored in facilities working to at least ACDP containment level 2 (see note 5).
 6. This licence **must not** be used for specimens from animals which are or were known or suspected to be infected with a specified animal pathogen (see note 10).
 7. The exterior packaging must be clearly labelled to indicate the general licence number under which the produce is imported. The label should also state that material is for research purposes.
 8. The products must remain in their original packaging until arrival at the destination premises.
 9. All consignments must be taken directly from the point of entry into the UK to the destination premises.
 10. The consignment, or its packaging, must not be allowed to come into contact with any ruminating animals, swine, poultry or horses.
 11. None of the material to which this licence relates shall be used for human consumption under any circumstances.
 12. On completion of the research, testing, diagnostic and/or educational work any residue of the material and the remainder of the packaging shall be incinerated at an approved premises for the disposal of animal by-products (see note 9), autoclaved or re-exported (see note 12).
 13. If there is an outbreak of a notifiable/reportable disease in the exporting country/countries, the conditions of this licence may change. In this event, you should contact Veterinary Service Trade Section. For information on animal diseases please see <http://www.dardni.gov.uk/index/publications/pubs-dard-animal-health/publications-ahw-notifiable-diseases.htm>
 14. If the product is to be supplied to another establishment for further research, the importer must make the recipient aware of the requirement to destroy or re-export the residues of the product (see notes 9 and 12).
 15. A complete record/audit trail must be kept by all parties that handle the material. The products must not under any circumstances be supplied to a third party as a commercial transaction.
 16. If at any time you are unable to meet the conditions on the authorisation; or any unlicensed animal pathogen is discovered in the imported material, work must be suspended immediately and the facts reported at once to Veterinary Service Trade Section.
 17. The importer is responsible for ensuring that the exporter is aware of the conditions of this licence.
 18. You must inform Veterinary Service Trade Section of your intention to use this licence and forward a copy of the declaration at point 3 upon import of the product.
 19. Any products and records relating to the product imported under this licence shall be made available if so required for inspection by an Officer of DARD at any place nominated by him/her for such inspection. The importer or his agent shall afford all assistance necessary to such an officer to enable him/her to carry out the inspection in such a manner as he/she shall determine and the importer shall be responsible for meeting any costs of carrying out such an inspection.

NOTES

1. Please see the guidance and the declaration template on our website.
2. It is the importer's responsibility to ensure the exporter provides the necessary declaration.
3. If you wish to import products listed above, derived from an animal or from a country other than that specified, you should contact Veterinary Service Trade Section.
4. If the material you wish to import in from another Member State has been produced in accordance with the Animal By-Products Legislation (Regulation No. (EC) 1774/2002 as amended), you can import it in under licence DARD/GEN/10/20. A copy of the licence is available on our website: <http://www.dardni.gov.uk/index-animal-health/animal-import-licences.htm>.
5. Containment level 2 must be used for work with biological agents in hazard group 2. Laboratory personnel must receive suitable and sufficient information, instruction and training in working safely

with agents in hazard group 2. A high standard of supervision of the work should be maintained.

6. Nothing in this licence gives exemption from any prohibition or restriction imposed by any other legislation including the Official Feed and Food Controls Regulations (Northern Ireland) 2007, the provisions of The Food Safety (Northern Ireland) Order 1991 and regulations made under it, the Animal By-Products (Identification) Regulations (Northern Ireland) 1999, the Marketing Authorisations for Veterinary Medicines Regulations 2009, the Control of Substances Hazardous to Health Regulations (Northern Ireland) 2003, International Air Transport Association, the Convention on International Trade in Endangered Species or by any regulation superseding or amending the same.
7. This licence is granted under animal health import legislation and gives no exemption from any prohibition regulation or restriction imposed by any other Government Department or Agency.
8. Please note that while this licence is current at the time of issue, conditions can be subject to frequent change. Importers are advised to check the latest position with Veterinary Service Trade Section.
9. A list of approved incineration premises is available on our website: <http://www.dardni.gov.uk/index/animal-health/animal-by-products/animal-by-products-approved-premises.htm>.
10. Further information on the importation of Specified Animal Pathogens is available from the Defra website at: <http://www.defra.gov.uk/foodfarm/farmanimal/diseases/pathogens/index.htm>

A copy of the Specified Animal Pathogens Order (NI) 2008 can be obtained from the following website: <http://www.opsi.gov.uk/sr/sr2008/nisr20080336.en1>. If any pathogens are known or suspected to be present, it is the responsibility of the importer to carry out a risk assessment and to use suitable containment facilities as required by the Control of Substances Hazardous to Health Regulations (COSHH).

11. This licence only deals with animal products. If you wish to import live animals of the species listed above, you should contact Veterinary Service Trade Section.
12. If the material is to be re-exported, you should ensure that the importing country will permit entry and that you have the correct paperwork to accompany the consignment.
13. Notification procedures are under review and may be subject to change. Please see guidance note for further information.
14. *Canidae* is the biological family of carnivorous and omnivorous mammals that includes the wolves, foxes, jackals, coyotes, and the domestic dog.
Felidae is the biological family of the cats; a member of this family is called a felid or feline. The most familiar felid is the domestic cat, but the family includes all other wild cats including the big cats.
Rodentia is an order of mammals also known as rodents, characterised by two continuously growing incisors in the upper and lower jaws which must be kept short by gnawing. Common rodents include mice, rats, squirrels, porcupines, beavers, guinea pigs, and voles.
Lagomorpha is an order of mammals in which there are two families, the *Leporidae*, (hares and rabbits), and the *Ochotonidae* (pikas).

CAUTION

It is the importer's responsibility to ensure that any import covered by this licence complies with the terms and conditions as set out.

Any breach of any conditions attached to this licence will constitute an offence against the Diseases of Animals (Northern Ireland) Order 1981.

GENERAL IMPORT AUTHORISATION

Licence No: DARD/GEN/10/22

The Department of Agriculture and Rural Development, in accordance with the terms of the above legislation, hereby authorises subject to and in accordance with the conditions set out below, the landing in Northern Ireland of:

Whole carcasses, parts of carcasses, organs, glands, blood, faeces, urine or other body fluids or tissues/materials derived from these commodities from animals of the family *Canidae*, Family *Felidae*, Order *Rodentia* and Order *Lagomorpha** born and bred in captivity and not known or suspected to be infected with specified animal pathogens, **and** intended for research, testing, diagnostic and/or educational purposes. Please note this authorisation excludes viable semen, ova and embryos intended for artificial breeding purposes.

Please note this authorisation excludes viable semen, ova and embryos intended for artificial breeding purposes – *see note 13

from Australia, Canada, Iceland, Norway, New Zealand, Switzerland and the USA at all ports and airports in Northern Ireland until further notice or unless revoked by the Department of Agriculture and Rural Development.

Dated: 11 May 2010

Lisa Reid, Officer of the Department of Agriculture and Rural Development.

Conditions attached to this authorisation

1. This authorisation can only be used for the importation into Northern Ireland of whole carcasses, parts of carcasses, organs, glands, blood, faeces, urine or other body fluids or tissues/materials derived from these commodities (hereafter called 'products') from animals of the family *Canidae*, Family *Felidae*, Order *Rodentia* and Order *Lagomorpha* not known or suspected to be infected with specified animal pathogens, and intended for research, testing, diagnostic and/or educational purposes.
2. This authorisation is valid for multiple consignments and the net weight of the material per consignment must not exceed 15 kg.
3. Each consignment must be accompanied by:
 - a copy of this authorisation
 - commercial/shipping documents providing the name and address of consignor and consignee, type of product and quantities;
4. Each consignment must be accompanied by a declaration (see note i) signed by a veterinarian or director of the consigning laboratory/establishment confirming that:
 - the products are derived from animals born and bred in captivity and kept isolated from other animals not born and bred in captivity;
 - the products are not derived from animals known or suspected to be infected with a specified animal pathogen (e.g. rabies) listed by the Specified Animal Pathogens Order (NI) 2008 (as amended);
 - the animals have not been kept with animals known or suspected to be infected with specified animal pathogen, nor have they been used in experiments involving live pathogens listed in the Specified Animal Pathogens Order (NI) 2008 (as amended) (see note 8).
5. The samples must be worked on and stored in facilities working to at least ACDP containment level 2 (see note 4).
6. This authorisation **must not** be used for specimens from animals which are or were known or suspected to be infected with a specified animal pathogen (see note 9 for further information).
7. The exterior packaging must be clearly labelled to indicate the general authorisation number under which the product is imported. The label should also state that material is for importation into the UK for research purposes.
8. The products must remain in their original packaging at all times until arrival at the destination premises.

9. All consignments must be taken directly from the point of entry into the UK to the destination premises.
10. The consignment, or its packaging, must not be allowed to come into contact with any ruminating animals, swine, poultry or horses.
11. None of the material to which this authorisation relates shall be used for human consumption under any circumstances.
12. On completion of the research, testing, diagnostic and/or educational work any residues of the material and the remainder of the packaging must be: either incinerated at an approved premises for the disposal of animal by-products (see note 8), autoclaved or re-exported (see note 11).
13. If there is an outbreak of a notifiable/reportable disease in the exporting country/countries, the conditions of this authorisation may change. In this event, you should contact Veterinary Service Trade Section. For information on animal diseases please see <http://www.dardni.gov.uk/index/publications/pubs-dard-animal-health/publications-ahw-notifiable-diseases.htm>
14. If the product is to be supplied to another establishment, the importer must make the recipient aware of the requirement to destroy or re-export the residues of the product (see notes 8 and 11).
15. A complete record/audit trail must be kept by all parties that handle the material. The products must not under any circumstances be supplied to a third party as a commercial transaction.
16. If at any time you are unable to meet the conditions on the authorisation; or any unlicensed animal pathogen is discovered in the imported material, work must be suspended immediately and the facts reported at once to Veterinary Service Trade Section.
17. The importer is responsible for ensuring that the person(s) sending the material to the UK is aware of the conditions of this authorisation.
18. You must inform Veterinary Service Trade Section of your intention to use this licence and forward a copy of the declaration at point 3 upon import of the product.
19. Any products and records relating to the product imported under this authorisation shall be made available if so required for inspection by an Officer of DARD at any place nominated by him/her for such inspection. The importer or his agent shall afford all assistance necessary to such an officer to enable him/her to carry out the inspection in such a manner as he/she shall determine and the importer shall be responsible for meeting any costs of carrying out such an inspection.

NOTES

1. Please see the guidance and the declaration template on our website.
2. It is the responsibility of the importer to ensure that the exporter provides the necessary declaration referred to above.
3. If you wish to import products listed above, derived from an animal or from a country other than that specified, you should contact Veterinary Service Trade Section.
4. Containment level 2 must be used for work with biological agents in hazard group 2. Laboratory personnel must receive suitable and sufficient information, instruction and training in working safely with agents in hazard group 2. A high standard of supervision of the work should be maintained.
5. Nothing in this authorisation gives exemption from any prohibition or restriction imposed by any other legislation including the Official Feed and Food Controls Regulations (Northern Ireland) 2007, the provisions of The Food Safety (Northern Ireland) Order 1991 and regulations made under it, the Animal By-Products (Identification) Regulations (Northern Ireland) 1999, the Marketing Authorisations for Veterinary Medicines Regulations 2009, the Control of Substances Hazardous to Health Regulations (Northern Ireland) 2003, the Convention on International Trade in Endangered Species or by any regulation superseding or amending the same.
6. This authorisation is granted under animal health import legislation and gives no exemption from any prohibition, regulation or restriction imposed by any other Government Department or Agency.
7. Please note that while this authorisation is current at the time of issue, conditions can be subject to frequent change and importers are advised to check the latest position with Veterinary Service Trade Section.
9. A list of approved incineration premises is available on our website: <http://www.dardni.gov.uk/index/animal-health/animal-by-products/animal-by-products-approved-premises.htm>. Further information is available from the Defra website at: <http://www.defra.gov.uk/foodfarm/farmanimal/diseases/pathogens/index.htm> A copy of the

Specified Animal Pathogens Order (NI) 2008 can be obtained from the following website: <http://www.opsi.gov.uk/sr/sr2008/nisr/20080336.en.1>.

9. If any pathogens are known or suspected to be present, it is the responsibility of the importer to carry out a risk assessment and to use suitable containment facilities as required by the Control of Substances Hazardous to Health Regulations (COSHH).
10. This authorisation only deals with animal products. If you wish to import live animals of the species listed above, you should contact Veterinary Service Trade Section.
11. If the material is to be re-exported, you should ensure that the importing country will permit entry and that you have the correct paperwork to accompany the consignment.
12. Notification procedures are under review and may be subject to change. Please see guidance note for further information.
13. *Canidae* is the biological family of carnivorous and omnivorous mammals that includes the wolves, foxes, jackals, coyotes, and the domestic dog.
Felidae is the biological family of the cats; a member of this family is called a felid or feline. The most familiar felid is the domestic cat, but the family includes all other wild cats including the big cats.
Rodentia is an order of mammals also known as rodents, characterised by two continuously growing incisors in the upper and lower jaws which must be kept short by gnawing. Common rodents include mice, rats, squirrels, porcupines, beavers, guinea pigs, and voles.
Lagomorpha is an order of mammals in which there are two families, the *Leporidae*, (hares and rabbits), and the *Ochotonidae* (pikas).

CAUTION

It is the importer's responsibility to ensure that any import covered by this licence complies with the terms and conditions as set out.

Any breach of any conditions attached to this authorisation will constitute an offence against the Diseases of Animals (Northern Ireland) Order 1981.

(2) making ancillary provision in connection with the Scheme pursuant to section 112 of FSMA.

A copy of a report on the terms of the Scheme prepared by an Independent Expert (in accordance with section 109 of FSMA) (the "**Scheme Report**") and a statement setting out the terms of the Scheme and containing a summary of the Scheme Report and the full Scheme document can be obtained free of charge by accessing www.aberdeen-asset.co.uk/pensions or alternatively they can be obtained by writing to Aberdeen Merger Queries, UK Pension Funds, Aberdeen Asset Management PLC, Bow Bells House, 1 Bread Street, London EC4M 9HH or by calling the Aberdeen Merger Hotline on 020 7463 3934 from the date of publication of this notice until the date on which the Application will be heard before the Court. Any questions or concerns relating to the proposed transfer may be raised by using the address or telephone number above.

The Scheme will result in all property and contracts related to the transferred business being transferred to Aberdeen Asset Management Life and Pensions Limited notwithstanding any restrictions on transfer or requirements for counterparty consent and without triggering any pre-emption, termination or other rights which might otherwise arise. Any entitlement to terminate, modify, acquire or claim an interest or right or to treat an interest or right as terminated or modified as a result of anything done pursuant to the Scheme will only be enforceable to the extent the Court so orders.

The Application is directed to be heard before a Chancery Division Judge at the Royal Courts of Justice, Strand, London WC2A 2LL, England on 9 September 2010. Any person who claims that he or she will be adversely affected by the carrying out of the Scheme may attend the hearing and explain his or her views either in person or by legal representative. Any person who intends to appear and any person who objects to the Scheme but does not intend to appear is asked to inform Maclay Murray & Spens LLP (reference:MBL), One London Wall, London EC2Y 5AB as soon as possible and preferably before 2 September 2010, setting out the reasons for the objections.

In the matter of

THE FINANCIAL SERVICES AND MARKETS ACT 2000

NOTICE IS HEREBY GIVEN that an application was on 8 June 2010 presented to her Majesty's High Court of Justice by Lloyds TSB Bank plc of 25 Gresham Street, London EC2V 7HN, United Kingdom, a company incorporated in England ("**Lloyds TSB**") and Banco Halifax Hispania, S.A.U. of Calle Anabel Segura 16, Planta 4a, 28108 Madrid, Spain, a company incorporated in Spain ("**Banco Halifax**") for an Order under section 111 of Part VII of the Financial Services and Markets Act 2000 (the "**Act**") sanctioning a scheme (the "**Scheme**") for the transfer by Lloyds TSB of its Spanish retail and corporate transactional banking businesses, as carried out by its Spanish branch, to Banco Halifax. Banco Halifax is a wholly-owned subsidiary of Lloyds TSB.

A statement setting out the terms of the Scheme (in English or Spanish) may be obtained by any person free of charge on application in writing to Lloyds TSB in Spain at Lloyds TSB Bank plc, Calle Serrano 90, 28006 Madrid, Spain for the attention of Jillian Nolan, Customer Service Centre Manager, before the making of an order sanctioning the Scheme or by calling our Customer Service department in Spain on +34 902 024 365 (from the UK) or 902 024 365 (from Spain), and these calls may be conducted in English or Spanish.

The statement referred to above may also be viewed on website www.lloydstsb.es until the making of such an order.

The application is directed to be heard before a Judge of the Companies Court at the Royal Courts of Justice, Strand, London WC2A 2LL on 2

Companies & Financial Regulation

Petitions to Transfer Business *Aberdeen Asset Management*

IN THE HIGH COURT OF JUSTICE (CHANCERY DIVISION)

Companies Court No 4736/2010

In the Matter of

ABERDEEN ASSET MANAGEMENT POOLED PENSIONS LIMITED

and

In the Matter of

ABERDEEN ASSET MANAGEMENT LIFE AND PENSIONS LIMITED

and

In the Matter of

THE FINANCIAL SERVICES AND MARKETS ACT 2000

NOTICE IS HEREBY GIVEN that, on 15 June 2010, an Application was presented to Her Majesty's High Court of Justice by Aberdeen Asset Management Pooled Pensions Limited (formerly Credit Suisse Pooled Pensions Limited) and Aberdeen Asset Management Life and Pensions Limited, both of Bow Bells House, 1 Bread Street, London EC4M 9HH, pursuant to Part VII of the Financial Services and Markets Act 2000 ("**FSMA**") for an Order:

(1) under section 111 of FSMA sanctioning a scheme for the transfer to Aberdeen Asset Management Life and Pensions Limited of the whole of the long term insurance business carried on by Aberdeen Asset Management Pooled Pensions Limited (the "**Scheme**"); and

August 2010. Any person (including any employee of any of Lloyds TSB or Banco Halifax) who alleges that he/she would be adversely affected by the carrying out of the Scheme may appear at the hearing in person or by counsel or solicitor advocate. Any person who intends to appear is requested, but not obliged, to give notice in writing of such intention, and the reasons therefor, to the solicitors named below not less than five clear business days before the hearing. In addition, any person may write to the solicitors named below and request that their concerns be disclosed to the Court if he/she believes he/she would be adversely affected.

Dated 18 June 2010

Societies Regulation

Building Societies

Stroud & Swindon Building Society & Coventry Building Society

BUILDING SOCIETIES ACT 1986 ("ACT")

Notice under Paragraph 8 of Schedule 16 to the Act

Notice is hereby given that Stroud & Swindon Building Society, Register No. 568B, whose principal office is at Rowcroft, Stroud, Gloucestershire GL5 3BG, desires to transfer its engagements to Coventry Building Society, Register No. 148B, and that each society has applied to the Financial Services Authority (FSA) to confirm the transfer.

Notice is hereby given that Coventry Building Society, Register No. 148B, whose principal office is at Economic House, PO Box 9, High Street, Coventry CV1 5QN, desires to accept a transfer of the engagements of Stroud & Swindon Building Society, Register No. 568B, and that each society has applied to the FSA to confirm the transfer.

Any interested party may make written representations to the FSA and/or give notice of intention to make oral representations to the FSA with respect to the application. Written representations or notices of a person's intention to make oral representations at a hearing should be received by the Financial Services Authority, 11th Floor, RFD, Building Societies Department, 25 The North Colonnade, Canary Wharf, London E14 5HS or by email to stroudandswindon-bs.merger@fsa.gov.uk on or before 7 July 2010. If notice is given of oral representations these will be heard by the FSA on 23 July 2010, at a time and place to be determined by the FSA. (2803/37)

Personal Legal

Deceased Estates

Statutory Notice to Creditors & Others

IN THE ESTATE OF ADELAIDE BARBARA (KNOWN AS BARBARA) GRANT, DECEASED, LATE OF 157 GROOMSPORT ROAD, BANGOR, CO. DOWN, BT20 5NZ

OB: 1st JANUARY 2010

NOTICE IS HEREBY GIVEN pursuant to Section 28 of the Trustee Act (NI) 1958 that any person having a claim against or an interest in the Estate of the late Adelaide Barbara (known as Barbara) Grant who died on 01/01/2010 is hereby required to send particulars thereof to the undersigned the Solicitors for the Personal Representatives on or before the 19th August 2010.

After this date the Personal Representatives will distribute the assets of the said deceased amongst the persons entitled thereto having regard only to the claim and interests of which they shall then have had notice. In respect of the assets of any part thereof so distributed, the Personal Representatives will not be liable to any person of whose claim or interest they shall not then have had notice.

TERMS AND CONDITIONS RELATING TO SUBMISSION OF NOTICES

The Belfast Gazette is an Official Newspaper of Record. The Belfast Gazette publishes official, legal and regulatory notices pursuant to legislation and on behalf of the persons who are required by law to notify the public at large of certain information. For the avoidance of doubt all references to "Belfast Gazette" shall include supplements to the Belfast Gazette and all mediums which shall include the online version of the Belfast Gazette as well as the paper version.

The Belfast Gazette is published by the Publisher (defined below) under the authority and superintendence of the Controller of Her Majesty's Stationery Office and Queen's Printer of Acts of Parliament.

Notices received for publication fall under the following broad headings: State, Parliament, Ecclesiastical, Public Finance, Transport, Planning, Health, Environment, Water, Agriculture & Fisheries, Energy, Post & Telecom, Other Notices, Competition, Corporate Insolvency, Personal Insolvency, Companies & Financial Regulation, Partnerships, Societies Regulation and Personal Legal information. Further information can be found at www.gazettes-online.co.uk.

These terms and conditions ("Terms and Conditions") govern submission of Notices (as defined below) to the Belfast Gazette. By submitting Notices howsoever communicated, whether at the website www.gazettes-online.co.uk (the "Website") or to www.gazette-submission.co.uk, email, post and/or facsimile, the Advertiser (as defined below) agrees to be bound by these Terms and Conditions.

The Publisher reserves the right to modify these Terms and Conditions at any time. Such modifications shall be effective immediately upon publication of the modified Terms and Conditions. By submitting Notices to the Belfast Gazette after the Publisher has published notice of such modifications, the Advertiser agrees to be bound by the revised Terms and Conditions.

1 Definitions

1.1 In these Terms and Conditions:

"**Advertiser**" means any company, firm or person who has made an application for and who has been allocated space in the Belfast Gazette, whether acting on their own account or as agent or representative of a principal;

"**Charges**" means the payment due for the acceptance of a Notice by the Publisher payable by the Advertiser as set out in the Authorised Scale of Charges which can be found in the printed copy or at www.gazettes-online.co.uk;

"**Notice**" means all advertisements and state, public or legal notices placed in the Belfast Gazette;

"**Publisher**" means The Stationery Office Limited.

1.2 the singular includes the plural and vice-versa; and

1.3 any reference to any legislative provision shall be deemed to include any subsequent re-enactment or amending provision.

2 By submitting a Notice to the Publisher, the Advertiser agrees to be bound by these Terms and Conditions which represent the entire terms agreed between the Publisher and Advertiser in relation to the publication of Notices. These Terms and Conditions shall govern and be incorporated into every Notice, and shall prevail over any terms or conditions (whether or not inconsistent with these Terms and Conditions) contained or referred to in any correspondence or documentation submitted by the Advertiser or implied by custom, practice or course of dealing, unless otherwise agreed in writing by the Publisher.

3 The Publisher shall make all reasonable efforts to verify the validity of any Notice submitted for publication.

4 The Publisher may edit the Notice, subject to the following restrictions:

- 4.1 the sense of the Notice submitted by the Advertiser must not be altered;
- 4.2 Notices shall be edited for house style only, not for content;
- 4.3 Notices can be edited to remove obvious duplications of information;
- 4.4 Notices can be edited to re-position material for style;
- 4.5 any additions or deletions required in order to include the minimum necessary information set out in any Notice guidelines shall be confirmed with the Advertiser; and
- 4.6 no amendments to the text (other than those made as a consequence of 4.1 – 4.5 above) shall be made without written confirmation from the Advertiser.

5 The Advertiser accepts that it submits a Notice entirely at its own risk and that the Publisher shall have discretion whether to accept a Notice for publication. The Advertiser must satisfy itself as to the legislative requirements relating to any Notice. Where the Publisher has accepted a Notice for publication, the Publisher shall have discretion to refuse to publish where the content of the Notice does not comply with legislative or procedural requirements (guidance on both is available from the Publisher). In such instances, the Publisher shall notify the Advertiser of the action required to remedy any deficiency and publication shall not take place until the Publisher is satisfied that such action has been taken by the Advertiser.

6 The Publisher (including affiliates, officers, directors, agents and employees) shall not be liable for any loss or damage including expenses or costs suffered by the Advertiser or any third party whether arising from the acts or omissions of the Publisher and/or the Advertiser and/or any third party made in connection with the Notice or otherwise except only

that nothing in these Terms and Conditions shall limit or exclude the Publisher's liability for fraudulent misrepresentation, or for death or personal injury resulting from the Publisher's negligence or the negligence of the Publisher's agents or employees.

7 For the avoidance of doubt, subject to clause 4 above, in no circumstances shall the Publisher be liable for any economic losses (including, without limitation, loss of revenues, profits, contracts, business or anticipated savings), any loss of goodwill or reputation, or any special, indirect or consequential damages (however arising, including negligence).

8 Where the Publisher is responsible for any error which, in the Publisher's reasonable opinion, causes a substantive change to the meaning of a Notice or would affect the legal efficacy of a Notice, upon notification of such error by the Advertiser, the Publisher shall publish the corrected Notice at no charge and at the next suitable opportunity and this shall be the limit of the Publishers liability or responsibility in these circumstances.

9 In the event that the Publisher believes an Advertiser is deliberately submitting Notices in bad faith and in breach of clause 10 below, or has dealings with Advertisers who are in persistent breach of these Terms and Conditions, the Publisher may require further verification of information be provided by such Advertisers and may at its discretion delay publication of those Notices as far as it is able to, until it is satisfied that the Notice it has received is based on authentic information.

10 The location of the Notice in the Belfast Gazette shall be at the discretion of the Publisher. For the avoidance of doubt, the Notice shall be published in the house style of the Belfast Gazette.

11 The Advertiser warrants:

- 11.1 that it has the right, power and authority to submit the Notice;
- 11.2 the Notice is not false, inaccurate, misleading nor does it contain fraudulent information;
- 11.3 the Notice is submitted in good faith, does not contravene any Act of Parliament nor is it in any way illegal or defamatory or an infringement of any other party's rights or an infringement of the British Code of Advertising Practice.

12 To the extent permissible by law the Publisher excludes all implied warranties, conditions or other terms, whether implied by statute or otherwise.

13 The Advertiser agrees to indemnify and hold the Publisher and/or (as applicable) the Publisher's affiliates, officers, directors, agents and employees harmless from all losses incurred (including legal costs), in respect of any claim or demand, including threatened claims or demands, made by any third party which constitute, or would if proved constitute, a breach or threatened breach by the Advertiser of these Terms and Conditions or any breach by the Advertiser of any law or an infringement of the rights of a third party. The Publisher shall consult with the Advertiser as to the way in which such claims are handled but the Publisher retain the final decision on all aspects of the claim, including choice of instructing solicitors, steps taken in litigation and decisions to settle the case. The Advertiser shall provide, at its own expense, such co-operation and assistance as the Publisher may reasonably request, including the provision of witnesses, access to premises and delivery up of documents.

14 The Advertiser shall promptly notify the Publisher in writing of any actual, threatened or suspected claim made by a third party or parties against the Advertiser and/or the Publisher in relation to a Notice. The Publisher reserves the right, following a claim or threatened claim, to immediately remove the Notice which is the subject of the complaint from the website at www.gazettes-online.co.uk and all other websites controlled by the Publisher containing the Notice. The Publisher may require the Advertiser to amend the Notice at its own cost before it agrees to re-publish the Notice if it is capable of rectification to avoid the claim or threatened claim. Any reinstatement of the Notice shall be at the sole discretion of the Publisher.

15 The Advertiser acknowledges that the Publisher may re-use Notices and/or allow third parties to re-use Notices accepted for publication in the Belfast Gazette, and hereby assigns to the Publisher all rights, including but not limited to, copyright in all Notices, and warrants that any such activity by the Publisher and/or third parties does not and will not infringe any legal right of the Advertiser or any third party.

16 The Advertiser accepts that the purpose of the Belfast Gazette is to disseminate information of interest to the public as widely as possible and that the information contained in the Notices published in the Belfast Gazette may be used by third parties after publication for any purpose. In such instance, the Publisher accepts no liability whatsoever.

17 The Advertiser accepts that the Charges may be amended from time to time and will be payable at the rate in force at the time of invoicing unless otherwise agreed by the Publisher. The Charges must be paid by the Advertiser in advance of publication unless other requirements of the Publisher (as determined from time to time) are notified to the Advertiser.

18 If the Advertiser wishes to make a Complaint then please refer to the Gazette office.

19 A person who is not a party to these Terms and Conditions has no right under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of these Terms and Conditions but this does not affect any right or remedy of a third party specified in these Terms and Conditions or which exists or is available apart from that Act.

20 These Terms and Conditions and all other express terms of the contract shall be governed and construed in accordance with the Laws of England and the parties hereby submit to the exclusive jurisdiction of the English courts.
