

WHITEHALL, September 21, 1911.

His Majesty the King has been graciously pleased to award the Edward Medal of the Second Class to Walter Cullen and Thomas Macfarlane, miners working at the Loanend Colliery, under the following circumstances:—

On the 21st of April 1911 Mr. Robert Edgar, the under manager of the Loanend Colliery, Cambuslang, went up a highly inclined road to tear down a screen so as to disperse an accumulation of firedamp, and was overcome suddenly by firedamp. Macfarlane at once went to his assistance, but was in turn overcome and rolled down the road. Cullen, who is 60 years of age, then made two attempts to rescue the under manager, and on both occasions was helped back by Macfarlane, who had recovered, though still suffering from the effects of firedamp. The under manager's body was not recovered until three and a half hours afterwards.

WHITEHALL, September 21, 1911.

His Majesty the King has been pleased to award the Edward Medal of the Second Class to—

Alfred Joseph Tonge,  
James Henry Polley,  
James Moss,  
John Hilton,  
William Markland,  
John Hardman,  
Robert Roberts,  
John Herring, and  
James Hartley.

On the 21st December 1910 a terrible explosion occurred at the No. 3 Bank Pit at the Hulton Colliery, near Allerton, by which a portion of the casting of the upcast shaft was wrecked. Various miners were shut off from escape by the fall of earth, and suffered from the effects of poisonous gases. Many miners used their utmost endeavours to rescue their fellow-workmen under circumstances of great danger, and the above showed specially conspicuous courage.

WHITEHALL, September 21, 1911.

His Majesty the King has been graciously pleased to award the Edward Medal of the Second Class to Mr. Charles Samuel Vassar Cudbird, Station Master at George Lane, South Woodford.

On the 30th June 1911, as the 9.30 train from Epping was about to enter the station at George Lane, Miss Tremlett, now Mrs. Wells, accidentally fell on the line about 70 yards in front of the train, which usually enters the station at 30 or 40 miles an hour, and Mr. Cudbird jumped down and pulled her clear on to the 6-foot way. Had not the driver seen what was happening and applied the brakes, both would certainly have been cut to pieces, and the risk involved in Mr. Cudbird's action was very great.

The Secretary of State for the Home Department, with the concurrence of the Lords Commissioners of His Majesty's Treasury, hereby gives notice that the following situations under the Home Office are added to Schedule B of the Order in Council of the 10th of January 1910:—

The temporary situation of Principal Chemist at the Home Office Station for Coal Dust Experiments.

The temporary situation of Assistant Chemist at the Home Office Station for Coal Dust Experiments.

Whitehall, 21st September 1911.
