DRAFT OF A SPECIAL ORDER TO BE MADE BY THE MINISTER OF LABOUR UNDER THE TRADE BOARDS ACT, 1918, VARYING THE TRADE BOARDS (PERAMBULATOR AND INVALID CARRIAGE) ORDER, 1919.

Whereas the Minister of Labour (hereinafter referred to as the Minister) by a Special Order

called the Trade Boards (Perambulator and Invalid Carriage Order, 1919, dated the 20th day of October 1919, applied the Trade Boards Acts, 1909 and 1918, to the trade specified in the Appendix to the said Special Order.

#### APPENDIX.

##### TRADE.

1. Subject to the provisions of this Appendix the following operations shall be operations of the Perambulator and Invalid Carriage Trade:—

(a) the making, wherever carried on, of perambulators, invalid carriages, folding push-cars, and the wheels or axles therefor;

(b) the making of the following articles for perambulators, invalid carriages, or folding push-cars when such making—

(i) is done in association or in conjunction with the making mentioned in sub-paragraph (a) above, or

(ii) constitutes the main business of the establishment, branch, or department, or

(iii) is done in a Toy-making establishment, that is to say:—springs, tubular under-carriages, hood frames, bodies (including cane or wicker bodies), canopy frames, levers of all kinds, aprons, hood and canopy covers;

(c) the making of motor-cycle side-car bodies when done in an establishment, branch, or department, in which the main business is any of the making mentioned in sub-paragraphs (a) and (b) above;

(d) the making of fittings or accessories for perambulators, invalid carriages, or folding push-cars when done (a) in association or in conjunction with any of the making specified above, or (b) in a Toy-making establishment;

(e) the repair of any of the articles, the

making of which is an operation of the trade herein specified, when done in association with or in conjunction with such making.

2. All operations of packing, warehousing, despatching, stock-taking, and other similar operations and all operations of crate making when such operations are incidental to any of the operations referred to in the preceding paragraphs hereof shall be deemed to be operations of the Perambulator and Invalid Carriage Trade.

3. Notwithstanding anything in this Appendix the following operations shall not be operations of the Perambulator and Invalid Carriage Trade:—

(a) the manufacture of self-propelled chain or lever-driven or mechanically propelled invalid carriages or parts thereof;

(b) operations included in the Trade Boards (Toy) Order, 1920, or any amendment or variation thereof.

4. For the purpose of this Appendix—

(a) the expression "invalid carriages" shall include spinal carriages;

(b) the expression "perambulators" shall not include Toy perambulators;

(c) the making of hood and canopy covers shall include the covering or re-covering of hoods and canopies;

(d) "Toy-making establishment" means an establishment, branch, or department, in which the main business is the work specified in the Trade Boards (Toy) Order, 1920, or any amendment or variation thereof.

#### (DRAFT) INSTRUCTIONAL CIRCULAR TRADE BOARDS (PERAMBULATOR AND INVALID CARRIAGE) ORDER, 1925.

1. It has been represented to the Minister of Labour that it might prove of assistance to employers and workers and others concerned in the application of the Trade Boards Acts, 1909-1918, if, in suitable cases, when he makes an Order applying the Acts to a trade for the first time or when he makes an Order varying the existing description of a trade contained in an Order made under the said Acts, some information were given by a departmental Instructional Circular as to his understanding of the scope of the Order.

2. An authoritative interpretation of the Trade Boards Acts and/or of Orders made thereunder can be given only by the Court of Law and, on the understanding that any views which he may express provisionally as to the inclusion within or exclusion from the scope of the Acts and/or Orders made thereunder of any trade, process, operation, article, or of any class of worker, are given on the information at the time in his possession and are subject to revision in the light of further information, the Minister makes the observations which follow in paragraph 3 below for the guidance of all concerned in the application of the Trade Boards (Perambulator and Invalid Carriage) Order, 1925.

3. The Order of 1925 amends the Order of 1919 and the principal effect of the amendment is to bring in various fringes of the trade which were not previously specified.

## PARAGRAPH 1 (a) and (b).

The work included in these sub-paragraphs is in general that included in the 1919 Order. The manufacture of such parts of Perambulators as Springs, Tubular Under Carriages, Hood Frames, Bodies, Canopy Frames and Levers, and the making of Aprons, Hood or Canopy covers including the covering or re-covering of Hoods or Canopies (see also paragraph 4 (c) of the definition) is now, however, included where it is the main business of the establishment, branch, or department in which it is performed as well as when the work is done directly in association with or in conjunction with the making of perambulators, invalid carriages, &c. It is also included when done in toy making establishments. The reason for this inclusion is that this work is understood to form an integral part of the Perambulator Trade, although the firms concerned may, in some cases, not manufacture any completed Perambulators.

## PARAGRAPH 1 (c).

The manufacture of motor cycle sidecar bodies which was within the scope of the original definition when carried on in association with the manufacture of perambulators, invalid carriages or folding push-cars, is now included only when carried on in establishments or departments mainly engaged in the perambulator and invalid carriage trade. It was not the intention of the original definition to bring within the scope the making of these bodies when their manufacture constituted the main business of the establishment or department and the making of the perambulators, &c., was an occasional or subsidiary part of the business and the opportunity has been taken in the new definition to make the position clearer.

## PARAGRAPH 1 (d).

This sub-paragraph specifies work which is held to be part of the Perambulator Trade when carried on in association with the manufacture of Perambulators, Invalid Carriages, Folding Push Cars, and integral parts thereof or in establishments or departments mainly engaged in the Toy Trade. The operations covered were already covered by the Order of 1919. An important difference is, however, that the manufacture of the toys specified in inclusion (e) of the 1919 Order is not now covered but by an Order of even date is included within the revised scope of the Toy Trade Board. This amendment is the result of an agreement reached by the two Boards after exhaustive consideration of the circumstances (see also Note above). The two Boards also agreed that the manufacture of Perambulator Fittings or Accessories by Toy firms should be covered by the Perambulator Board. The phrase "fittings or accessories" should be understood to cover everything made for a perambulator other than the parts specified in paragraph 1 (b) of the definition.

## PARAGRAPH 2.

Apart from the fact that stocktaking and crate making are now definitely included this paragraph is the same as inclusion (f) of the 1919 Order and appears to call for no comment.

## PARAGRAPH 3.

The object of this paragraph is to avoid overlaps with other trades, self-propelled chain or lever driven and mechanically propelled invalid carriages, being understood to form part of the cycle trade.

As regards sub-paragraph (b) see note on paragraph 1 (d) above.

## TRADE BOARDS ACTS, 1909 AND 1918.

NOTICE OF INTENTION TO MAKE A SPECIAL ORDER TO BE CITED AS THE TRADE BOARDS (TOY MANUFACTURING) ORDER, 1925.

The Minister of Labour hereby gives Notice that with a view to varying the description of the Toy Trade contained in the Trade Boards (Toy) Order, 1920, he intends, pursuant to the powers conferred upon him by Section 1 and Section 2 of the Trade Boards Act, 1918, to make a Special Order varying the Trade Boards (Toy) Order, 1920, in the manner shown in the Draft Special Order contained in the Appendix hereto.

Further copies of the Draft Special Order may be obtained on application in writing to the Secretary, Ministry of Labour, Whitehall, London, S.W.1.

Objections to the Draft Special Order must be sent to reach the Minister of Labour at the above address within 42 days from the nineteenth day of June 1925, that is to say, on or before 30th July 1925. Every objection must be in writing and must state—

- (a) the specific grounds of objection; and
- (b) the omissions, additions, or modifications asked for.

And whereas it is provided by Sub-Section I. of Section 2 of the Trade Boards Act, 1918, that every Special Order may be varied or revoked by a subsequent Special Order.

And whereas the Minister is of opinion that it is desirable to vary the said Special Order by altering the description of the trade specified in the Appendix thereto.

#### (TOY MANUFACTURING) ORDER, 1925.

1. It has been represented to the Minister of Labour that it might prove of assistance to employers and workers and others concerned in the application of the Trade Boards Acts, 1909-1918, if, in suitable cases, when he makes an Order applying the Acts to a trade for the first time or when he makes an Order varying the existing description of a trade contained in an Order made under the said Acts, some information were given by a departmental Instructional Circular as to his understanding of the scope of the Order.

2. An authoritative interpretation of the Trade Boards Acts and/or of Orders made thereunder can be given only by the Courts of Law and, on the understanding that any views which he may express provisionally as to the inclusion within, or exclusion from the scope of the Acts and/or Orders made thereunder of any trade, process, operation, article, or of any class of worker are given on the information at the time in his possession and are subject to revision in the light of further information, the Minister makes the following observations for the guidance of all concerned in the application of the Trade Boards (Toy) Manufacturing Order, 1925.

3. The Order of 1925 amends the description of the Toy manufacturing trade contained in the Order of 1920, its main effect being to bring within the scope of the Board various fringes of the trade hitherto unscheduled. In particular, the manufacture of toy perambulators and other toys manufactured by perambulator makers is transferred from the scope of the Perambulator and Invalid Carriage Board to that of the Toy Board.

The following explanation (which must not be taken as exhaustive) is given of the terms employed in the definition of the trade:—

#### *General Principles of Inclusion and Exclusion.*

*Paragraph 1.*—The principles on which the definition is based are to be found in its first

paragraph. Generally speaking, all work in connection with the making of children's toys is brought within the scope of the Board in two sets of circumstances (1) when carried on in an establishment, branch or department mainly so engaged or (2) when carried on by a worker so engaged, irrespective of the main work of the establishment, branch or department in which he is employed, provided in this case that the worker is wholly\* so employed during his working hours in any week. In addition, in the case of perambulator-making establishments, any toy work done in the establishment is brought within the scope of the Toy Board, whether the worker is employed on both types of work or not. Hitherto such work has been within the scope of the Perambulator and Invalid Carriage Board, and the present arrangement is the result of an agreement between the two Boards concerned.

#### *Interpretation "Toys."*

Paragraph 2 contains interpretations of the terms used in the first part of the definition; only the following call for comment:—

While no precise definition of "children's toys" can be embodied in the Order of 1925, the term applies essentially to any article made for sale as a plaything for children. Toys of all classes, *e.g.*, metal toys, wooden or other hard toys, soft and other stuffed toys, dolls, children's books of textile materials, requisites for table games, Christmas crackers, Easter eggs, toy musical instruments, &c., are of course included. There are, however, classes of articles (*e.g.*, bats and balls) which are toys in certain circumstances only, *e.g.*, according to the pattern made. A determining criterion in all such cases will be whether the article in question is made mainly for sale as a child's toy. If so, it is within the scope of the Board. The position is similar with regard to articles used for instructional or educational purposes. Children's toys are not excluded merely by reason of their being also used for those purposes.

It will be noted that, under paragraph 2 of the definition, the expression "children's toys" includes any part of such toys. There is thus brought within the scope of the Order the making in a toy-making establishment, branch or department, of paste or other adhesive material, or nails, screws, nuts, hinges, catches, or other similar articles used in the assembling of toys. The making of such articles elsewhere may, however, be presumed not to form part of the toy-making trade and is therefore not included.

#### *Assembling.*

The assembling of parts of toys is considered to be an integral part of the making of toys and is therefore within the scope of the Order in the same circumstances in which toy manufacture in general is included. For instance, a firm which had an establishment, branch or department wholly or mainly engaged upon assembling parts of toys bought either from

some other English firm or abroad or which employed a worker wholly upon such work, would thus be within the scope of the Order. By "assembling" is understood the putting together of parts in such a way that they cannot be separated afterwards without breaking the article. Such operations as the filling of Christmas stockings or the putting together of component parts of table games are not intended to be covered by the term "assembling." They are considered to be operations of "packing" and, as such, are within the scope of the Order only in the circumstances specified in paragraph 2 (1). That is to say, such packing operations would be within the scope of the Order (and not otherwise) when performed in a toy making establishment, branch or department, irrespective of whether the firm itself manufactured the stockings or parts thereof or not.

#### *Avoidance of overlapping with other trades: Clothing, Pottery, Sports Requisites.*

Paragraph 3.—The object of this paragraph is to avoid overlaps with other trades; for example, in the absence of a provision of this kind, articles of clothing worn by children for the purpose of "dressing up" as red Indians, policemen, nurses, &c., might be argued to be articles made for sale as children's playthings. Such articles are, however, in general, manufactured in the clothing trades and fall within the present scope of the appropriate clothing Trade Board. A further example of this kind is the manufacture of a toy animal from sugar, which clearly forms part of the Sugar Confectionery trade, and is covered by the Sugar Confectionery Trade Board. In addition, in order to avoid encroaching upon the pottery trade, the manufacture of such articles as doll's heads from pottery is excluded when carried on in conjunction with the manufacture of other pottery, even though the workers are not interchangeably employed. If, however, an establishment were engaged exclusively on the manufacture of dolls' heads or other toys or parts thereof from pottery, such an establishment would, in the Minister's view, be a toy-making establishment, and fall within the scope of the revised Definition. The express exclusion of the making of sports requisites not only emphasises the separate character of the Trade but is also in accordance with the criterion referred to above, of exempting articles which are not made wholly or mainly for sale as children's playthings.
