

(b) Three *Red* lights vertically disposed if the port is closed (see also paragraph (3)).

The above lights will be carried in addition to the ordinary navigation lights and will show an unbroken light around the horizon.

*Note.*—These lights may not invariably be displayed—(see paragraph (3)).

(8) Merchant vessels approaching a British Port at which an Examination Service is in force, must hoist their signal letters on arriving within visual signal distance of the port, and are not to wait for the signal "What is the name of your vessel?" to be made by the Examination Vessel.

(9) Vessels allowed to proceed into harbour by the Examination Vessel will be given a Special Signal to hoist consisting of a combination of flags by day and coloured lights by night to enable them to pass the defences in safety. Vessels should be ready to hoist these signals immediately, and should by night have two red and two white lanterns ready for this purpose.

By Day flags should be well shaken out.

The Examination Vessel will give instructions as to the point at which these signals can be lowered.

As a general rule Merchant Vessels will be examined in the order of their arrival, and if permitted to enter, will proceed up harbour in the same order unless instructed to the contrary.

(10) If ordered to anchor in the Examination Anchorage Masters are warned that it is forbidden, except for the purpose of avoiding accident, to do any of the following things without permission from the Examining Officer:—

To move the ship.

To work cables.

To lower any boat.

To communicate with the shore or with other ships.

To allow any person or thing to leave the ship.

To get into communication with the Examining Officer when in the Examination Anchorage Merchant Vessels are to hoist the following signals:—

*By Day*—Flags J.G. International Code.

*By Night*—2 lights, red over white, 3 feet apart at the fore masthead.

(11) The restriction on communications in the Examination Anchorage also applies to vessels when approaching the port when the use of private signals, whether by day or night, will render a vessel liable to be fired upon. The sounding of sirens or whistles by ships in British Waters which might be heard on land is to be restricted to the minimum necessary for the safety of navigation.

Attention is drawn to the regulations forbidding the use of W/T in tidal waters of Great Britain and Northern Ireland, and to such orders as may be issued similarly in British Dominions and Colonies. W/T offices will normally be sealed on arrival in harbour and the seals may not be broken without the permission of the customs or other authority responsible.

### PART III.

#### LIGHTS TO BE DISPLAYED.

(12) Subject to any other general or local orders the following regulations regarding display of lights at night are to be observed:—

(a) Outside the harbour, including the Examination Anchorage if so situated, steaming and bow lights are only to be exhibited when necessary for safe navigation and to avoid danger of collision. Similarly anchor lights of vessels in the Examination Anchorage are to be displayed only when other vessels are navigating in their immediate vicinity. They are always to be ready, however, for use as described above.

(b) Inside the harbour, vessels permitted to navigate are to employ bow and steaming lights, and vessels at anchor, anchor lights.

(c) All these lights are to be screened from above and dimmed as laid down in "Navigation and Anchor Lights Order, 1939," issued in pursuance of Regulation No. 43 of the Defence Regulations, 1939.

(d) No other lights are to be visible from outboard, as laid down in "Darkening Ship Order, 1939," issued in pursuance of the above Defence Regulation No. 43.

### PART IV.

#### INTERNAL MOVEMENT AND LEAVING THE PORT.

(13) Local instructions regarding internal movement can be obtained from the Examining Officer and particular attention should be paid to the action to be taken during Air Raid alarm periods. Merchant Vessels are invariably to keep clear of H.M. Ships and Government Vessels whether under way or not.

(14) Vessels are only to leave the port under instructions from the local authorities and it must be stressed that they must leave punctually at the time ordered so that they may be passed safely through the defences and avoid delaying and thus endangering other vessels. A blue flag hoisted ashore indicates that no Merchant Vessel is to leave the port while this signal is flying.

### PART V.

#### MINE-SWEEPING OPERATIONS.

H.M. Vessels engaged in mine-sweeping operations or exercises are hampered to a considerable extent in their manœuvring powers.

#### VESSELS MUST KEEP CLEAR OF MINE-SWEEPERS.

With a view to indicating the nature of the work on which they are engaged, these vessels will show the signals hereinafter mentioned. For the public safety all other vessels, whether steamers or sailing craft, should endeavour to keep out of the way of vessels flying these signals and not approach them inside the distances mentioned herein, specially remembering that it is dangerous to pass between the vessels of a pair or group sweeping together.

##### 1. Signals shown by Day.

*When towing sweeps.*

All vessels towing sweeps are to show:—

*By Day.*—A black ball at the fore mast-
