*Civil Service Commission,
6th March 1951.*

The Civil Service Commissioners hereby give notice that the following Regulations are published with the approval of the Lords Commissioners of H.M. Treasury, viz. :—

RECRUITMENT UNDER NORMAL REGULATIONS OF PROFESSIONAL ENGINEERS (HIGHER DEPARTMENTAL GRADES) IN THE MINISTRY OF SUPPLY.

1. Sex and Marriage.

(i) Both men and women may compete under these Regulations.

(ii) Married women who have formerly been established Civil Servants and have drawn marriage gratuity (other than those who resigned compulsorily on marriage and whose resignation took effect before 15th October 1946, or who are widows or divorced, or who are separated from their husbands, or whose husbands suffer without hope of recovery from total physical or mental incapacity) will not be eligible unless they undertake to refund on appointment the marriage gratuity paid.

2. Age.

Candidates must be at least 30 years of age on 1st January 1951. The Commissioners have not specified an upper age

limit for this competition. In general, however, Government Departments require a reasonable period of service from persons newly appointed to the Civil Service; and accordingly the Commissioners reserve the right to give weight to this factor when considering candidates for these posts who are over 50 years of age.

3. Nationality.

(1) Every candidate must

(a) be a natural-born British subject; and

(b) have been born within the United Kingdom or within one of the self-governing Dominions of parents both of whom were also born within the United Kingdom or within one of the self-governing Dominions.

(2) No departure from this rule will be made without the special permission of the Minister of Supply, and then only in exceptional cases and in favour of candidates who are British subjects and who also satisfy one of the following conditions :—

(a) If natural-born British subjects, they must either

(i) have at least one parent who is or was at death a British subject; or

(ii) have resided in His Majesty's dominions and/or been employed elsewhere in the service of the Crown for at least five years out of the last eight years preceding the date of their appointment.

(b) If naturalized British subjects, they must have resided in His Majesty's dominions and/or been employed elsewhere in the service of the Crown for at least five years out of the last eight years preceding the date of their appointment.

(c) If not qualified under (a) or (b) of this paragraph they must satisfy the Commissioners that they are so closely connected with His Majesty's dominions either by ancestry, upbringing or residence, or by reason of national service, that an exception may properly be made in their favour.

4. Qualifications and Experience.

Candidates must be trained mechanical and/or electrical engineers. They must also :—

either (1) be Corporate Members of the Institution of Civil Engineers, or the Institution of Mechanical Engineers, or the Institution of Electrical Engineers or Associate Fellows of the Royal Aeronautical Society.

or (2) (a) have served an engineering apprenticeship or pupilage including a minimum period of two years in the workshops of a reputable establishment and

(b) (i) hold an engineering degree of a British University, or

(ii) hold a Higher National Certificate in mechanical or electrical engineering with the endorsements necessary to secure exemption from the whole of the Associate Membership examination of one of the above-named professional Institutions, or

(iii) have passed any other examinations recognized by one of the above-named professional Institutions as granting exemption from the whole of its Associate Membership

examination or by the Royal Aeronautical Society as exempting from its Associate Fellowship examination.

Candidates will be required to undertake the more responsible duties in a wide variety of professional engineering work and preference will be given to those candidates with experience in the following fields:—

- (1) Design and construction of chemical factories.
- (2) Design and construction of modern high pressure steam power plant or heavy chemical plant.
- (3) Design of laboratory electronic equipment.
- (4) Design of radio and/or radar equipment and in the engineering of development prototypes for production.
- (5) Design and development of very high precision medium and light mechanical devices and apparatus for scientific work.
- (6) Design and development of small mechanisms and process tools for the remote handling of substances through various manufacturing processes.
- (7) Design, provision, and maintenance of instruments for the control and recording of pressures, temperatures, flow of liquids and gases in pipes, and the measurement of radioactivity.
- (8) Design and supervision of development of gas turbines, superchargers and turbochargers.
- (9) Design of fire control equipment involving light electro-mechanical and optical work.
- (10) Development and operation of large scale plants for water treatment, air filtration, refrigeration, and air conditioning.
- (11) Design of mobile and transportable tele-communication, direction-finding, and radar installations.
- (12) The production of electric cables and ancillary stores.
- (13) The production and repair of aircraft engines and accessories.
- (14) The installation and maintenance of plant, gas, electrical, water, and steam services in large factories.
- (15) Responsibility for production progress, planning, development, time and motion study and training in large factory filling ammunition.

5. Health and Character.

Successful candidates must satisfy the Commissioners as to their health and character.

6. Competition.

Those candidates who, on the evidence of their Application Forms, and any further information which the Commissioners think necessary to obtain, are found to be *prima facie* eligible, will be summoned to a Selection Board, except that the Commissioners may, if they see fit, summon only those candidates who, by reason of their experience and qualifications, appear to be most suitable for appointment. The Selection Board will take into consideration the candidates' record of experience and training, any recommendation from persons named by the candidates as having direct knowledge of their work in the past, and the personal qualities of the candidates as shown at the interview; and on their estimate of all the above facts they will frame their recommendations. The decision of the Commissioners will be final.

7. Candidates Trained as Teachers.

Persons upon whose training for the occupation of teacher public money has been spent cannot be appointed until the consent of the appropriate central education authority (e.g., the Ministry of Education, the Scottish Education Department, the Ministry of Education for Northern Ireland) has been notified to the Commissioners.

8. Canvassing.

Any attempt on the part of candidates to enlist support for their application through Members of Parliament or other influential persons, except as referees to be named in their Application Forms, will disqualify them for appointment.

9. Fee.

A successful candidate will be required to pay a fee of £1 10s. before the issue of a Certificate of Qualification for appointment.
