MINISTRY OF POWER

Mines and Quarries Act 1954

Draft Coal and Other Mines (Support) Regulations 1966

THE Minister of Power, in accordance with the provisions of Section 142 of, and Part I of Schedule 2 to, the Mines and Quarries Act 1954, hereby gives notice that he proposes to make General Regulations under Section 49, 54, 141 and 143 of the Act, entitled the Coal and Other Mines (Support) Regulations 1966.

These regulations will replace, with amendments, the Coal and Other Mines (Support) Regulations 1956 ; they will apply to mines of coal, shale and fireclay and will relate to the setting of supports, systematic support at faces and roadheads and miscellaneous matters.

These regulations introduce specific provisions regarding support at places where armoured conveyors are used and are designed to give statutory force to the best current practice at prop-free front faces. Regulation 12 requires the manager to specify in support rules for any face on which an armoured conveyor is used, the maximum intervals between props and between props and the face, subject to prescribed limits, and provides that on such faces all props used for systematic support must comply with a specification approved by the Minister. Support systems at faces where armoured conveyors are not used are dealt with in Regulation 13.

Major changes are also made in connection with the following matters. Regulations 10 and 15 deal with the setting and securing of arch girders and their use at road-heads. Regulation 16 deals with powered supports which must also be of approved types. Regulation 17 introduces the requirement that a roof newly exposed by ripping must be forthwith effectively supported. Regulation 21 deals with falls of roof or side. Further requirements have been included in this regulation for the prevention of an extension of a fall and action to be taken to ensure the safety of any person passing or working near the scene of the fall. Regulation 22 deals with the systematic use of packs for controlling movement of strata and requires that details of the system shall be specified in support rules. Regulation 23 permits supports to be withdrawn from the area in advance of the pack front provided no material for pack building is obtained from any place from which supports have been withdrawn and provided additional supports are set to prevent the roof breaking into the pack space.

Copies of the draft regulations may be purchased (price 1/6d. net) from Her Majesty's Stationery Office at the following addresses:

49 High Holborn, London W.C.2 ; 423 Oxford Street, London W.1 ; 13a Castle Street, Edinburgh 2 ; 35 Smallbrook, Ringway, Birmingham 5 ; 50 Fairfax Street, Bristol 1 ; Brazenose Street, Manchester 2 ; 109 St. May Street, Cardiff ; 80 Chichester Street, Belfast ; or through any book-seller.

Any objection to the draft Regulations by, or on behalf of, any person affected thereby must be sent to the Minister of Power, Thames House South, Millbank, London S.W.1, before 11th July 1966. Each such objection must be made in writing and must state:

- (a) the specific grounds of objection ; and
- (b) the omissions, additions or modifications asked for.
