

4. Cattle for slaughter

- (a) Each consignment of cattle shall be accompanied by a certificate in accordance with Annex F, Model 2 of EEC Directive 64/432 (as amended) and signed by a veterinary officer appointed by the Government of the Republic of Ireland.
- (b) If the cattle derive from herds of no brucellosis status they must have passed the serum agglutination test at less than 30 days within 30 days of loading (see note 1).
- (c) If the cattle derive from herds of no tuberculosis status they must have passed the comparative tuberculin test criteria currently notified to the Department of Agriculture, Dublin, by the Ministry of Agriculture, Fisheries and Food, London.
- (d) Cattle in categories (b) and (c) must be shipped direct to Great Britain.

NOTES:

1. Castrated males are exempt from testing from brucellosis unless they are intended to join officially brucellosis free herds in Great Britain in which case special transport arrangements should be made.
2. Officially brucellosis free and brucellosis free animals must be kept separate from each other and from animals which are neither officially brucellosis free nor brucellosis free during transportation and in the Reception Centre. Failure to observe this requirement will result in all the animals being classified in the lower/lowest category.
3. Any person wishing to land animals in Great Britain under the terms of this licence must make arrangements in advance, with the occupier of the reception centre to which the animals are intended to be taken after landing, for accommodation of the animals.
4. The carrier of imported animals must, in accordance with Article 4(7) of the Importation of Animals Order 1977, notify the person in charge of the approved reception centre to which those animals are licensed to be moved of the proposed time of landing of those animals, and of their number and description.

ANNEX

DEPARTMENT OF AGRICULTURE, DUBLIN 2, IRELAND
EXPORT OF CATTLE TO UNITED KINGDOM (GREAT BRITAIN)
ADDITIONAL CERTIFICATE FOR CATTLE INTENDED FOR
(BREEDING OR PRODUCTION)

(TO BE PERMANENTLY ATTACHED TO MODEL CERTIFICATE)

I, a duly authorised Veterinary Officer of the Department of Agriculture, hereby certify in respect of the cattle detailed on EEC Certificate number the following:—

- (a) A certificate from an approved Veterinary Surgeon has been received to the effect that in the case of the test referred to at Point V(c) of the EEC certificate, negative results have been determined in accordance with the criteria for the pass mark for the comparative tuberculin test criteria currently notified to the Department of Agriculture, Dublin by the Ministry of Agriculture, Fisheries and Food, London.
- *(b) The cattle are derived from Officially Brucellosis free herds.
- *(c) The cattle are derived from Brucellosis free herds. As far as can be determined and to the best of my knowledge and belief the female cattle to be exported have not been vaccinated against brucellosis (see note).
They were examined by an approved Veterinary Surgeon within the previous 30 days who certifies that females are (1) non-pregnant and (2) not showing permanent incisor teeth.
- *(d) The cattle are not derived from Officially Brucellosis free or Brucellosis free herds and are intended for further production. They were examined by an approved

Veterinary Surgeon within the previous 30 days who certifies that, they are castrated males aged under 30 months.

†(e) notwithstanding Point V(d) of the EEC certificate, castrated males have not been subject to a serum agglutination test for brucellosis.

Date Signed
Veterinary Officer of the Department of Agriculture.

* To be certified in respect of (b) or (c) or (d) — deleting the others.
† Applies only until 31.12.79.

NOTE: To be certified also for bulls consigned to Great Britain via Northern Ireland.

STATEMENT showing the QUANTITIES SOLD and AVERAGE PRICES of BRITISH CORN per tonne of 1000 kilogrammes computed from the Returns received by the Department of Agriculture and Fisheries for Scotland in the week ended 29th November 1979, pursuant to the Corn Returns Act 1882, the Corn Sales Act 1921, the Agriculture (Miscellaneous Provisions) Act 1943, the Agriculture (Miscellaneous Provisions) Act 1954, the Agriculture Act 1970, and the Agriculture (Miscellaneous Provisions) Act 1972.

	BRITISH CORN	
	QUANTITY SOLD	AVERAGE PRICE PER TONNE
	Tonnes	£
WHEAT	3,186	103.47
BARLEY	8,886	98.79
OATS	735	91.93
RYE	—	—
MAIZE	—	—

NOTE:—The above statement is based on returns received from prescribed areas in Scotland in the week ended 29th November 1979. The prices represent the average for all sales returned in these areas between growers and merchants during the week ended 22nd November 1979.

MINISTRY OF AGRICULTURE, FISHERIES AND FOOD
DEPARTMENT OF AGRICULTURE AND FISHERIES
FOR SCOTLAND

WELSH OFFICE, AGRICULTURE DEPARTMENT
DISEASES OF ANIMALS ACT 1950

NOTICE is hereby given in pursuance of Section 85(3) of the Diseases of Animals Act 1950 that the Minister of Agriculture, Fisheries and Food, the Secretary of State for Scotland and the Secretary of State for Wales, acting jointly, have made the following Orders:—

STATUTORY INSTRUMENTS 1979 No. 1365
THE EPIZOOTIC ABORTION (REVOCATION) ORDER 1979
(MADE 23RD OCTOBER 1979)

This Order revokes the Epizootic Abortion Order of 1922. "Epizootic Abortion" is the disease now referred to as brucellosis in cattle.

The Brucellosis (England and Wales) Order 1978 (S.I. 1978/1480) applying to England and Wales and the Brucellosis (Scotland) Order 1978 (S.I. No. 1978/1875) applying to Scotland provide control measures which meet the objectives of the 1922 Order which was therefore revoked with effect from 1st November 1979.
