**STATE SCHEME PREMIUMS:
MARKET LEVEL INDICATORS**

THE new state pension scheme which started in April 1978, allows contracted-out occupational pension schemes, in certain circumstances, to transfer the responsibility or part of the responsibility, for their members' guaranteed minimum pension rights to the state scheme by the payment of premiums.

The premiums concerned are limited revaluation premiums, accrued rights premiums and pensioners' rights premiums. Their amounts are, in part, related to stock market levels at the time they become due and DHSS each month notifies the average market level indicator to be used in their calculation under the State Scheme Premiums (Actuarial Tables) Regulations 1978 (S.I. 1978 No. 134).

For November 1980 the average market level indicator for accrued rights premiums and limited revaluation premiums is 68. The corresponding average market level indicator for pensioners' rights premiums is 72.

The average market level indicator for ARPs and LRPs shows an increase of one since the previous month. The average market level indicator used for PRPs shows no change since the previous month.

COASTAL PROTECTION WORKS AT ROCKFIELD
COAST PROTECTION ACT 1949

THE Highland Regional Council, acting in their capacity as Coast Protection Authority, hereby give Notice under Sub-Section (1) of Section 5 of the above Act that they propose to carry out coast protection work as described herein at Rockfield, Easter Ross.

The work will consist of four sections of rip-rap sloped revetment approximately 20m, 95m, 60m and 50m in length and some 17m wide (in plan) at slopes of 1 in 2 below the level of +2.7 O.D.N. and 1 in 4 above the same level. Stone armouring is intended to be in the range of 0.5 to 1.0 tonnes (and the average thickness of armour layer 1250mm). A fabric

membrane and protective granular filter layer may be incorporated over a small section but generally this measure will not be necessary due to the shingle foreshore and presence of bedrock in the vicinity of the Works. The top of the rip-rap slopes will generally be at a level of +4.75m O.D.N. and the revetment will extend below Mean High Water Springs.

The estimated cost of the work is £103,000.

Any person may, not later than Friday, 12th December 1980, serve Written Notice of objection to the above proposal on the Secretary of State and on the Coast Protection Authority. Any such Notice must contain a statement of the grounds of objection and must be sent by pre-paid post to the Secretary, Scottish Development Department, New St. Andrew's House, Edinburgh EH1 3SZ and to the undersigned at the address shown below.
