OFTEL (OFFICE OF TELECOMMUNICATIONS)

PROPOSED MODIFICATIONS TO THE CONDITIONS OF THE LICENCES OF THOSE WHO PROVIDE TELECOMMUNICATIONS SERVICES BY REFERENCE TO NUMBERS OVER FIXED NETWORKS

1. THE Director General of Telecommunications (the "Director") in accordance with section 12(2) of the

Telecommunications Act 1984 (the "Act") hereby gives notice that he proposes to make modifications to:

- (a) the following categories of licences granted under section 7 of the Act which authorise the running of telecommunication systems by means of fixed networks;
 - (i) each licence where the relevant system has been designated as a public telecommunication system;
 - (ii) each licence granted to an individual and authorising the provision of International Simple Voice Resale as defined in each such licence;
 - (iii) each licence listed in the Schedule; and
- (b) the licence granted to British Telecommunications on 22nd June 1984 under section 7 of the Act ("the BT Licence").

A full list of those licences described in sub-paragraphs (i) and (ii) above will be provided upon written application to the person specified below in paragraph 9.

2. The effect of the proposed modifications is set out below.
3. In the case of all those licences other than the BT Licence, any existing provisions on number portability will be deleted and new provisions which will be identical for all licences in this class, will be substituted. Minor modifications to existing provisions relating to numbering will be required in consequence. In the case of licences where no provisions on number portability exist, the new provisions will be inserted in the relevant licences. Accordingly, all licences within this class will contain identical provisions.
4. Number portability, which is described in the proposed modifications as 'Portability', is a facility provided by one telecommunications operator to another whereby a customer who has been allocated a telephone number by an operator providing telephony services can switch supply of those services to another operator, and keep the original number. The facility may apply to numbers which relate to a customer's home or work place and in this case is known as geographic Portability. It may also apply to numbers relating to services such as freephone (eg 0800), local charge (eg 0345), national rate (eg 0990), premium rate service (eg 0898) or personal numbering (eg 0700), and this is known as non-geographic Portability.
5. The effect of the proposed modifications to the licences described in paragraph 1(a) will be to:
 - (i) oblige the Licensee to provide Portability on reasonable terms to any Qualifying Operator in accordance with a Functional Specification. The Functional Specification is a document specifying technical and other principles enabling efficient implementation and utilisation of Portability and is published by the Director following consultation. A Qualifying Operator is a person who has requested a specific type of Portability from the Licensee, who can provide the same kind of Portability and, in the case of geographic Portability, who can provide Portability to the Licensee within the same area as that to which the request relates;
 - (ii) provide that charges for the provision of Portability must be made in accordance with certain principles. The charges must be based on costs: incremental costs if the BT Licence allows that cost basis for BT, otherwise fully allocated costs, unless the parties have agreed some other basis or the Director has determined, on the application of either party, that another cost basis is appropriate. Costs are divided into categories defined in the provisions. System Set-Up costs are to be borne

by the Licensee; specific charges based on the reasonable costs of providing Portability with respect to each Number are to be borne by the Qualifying Operator, but no specific charge may be made for Additional Conveyance Costs, which consist in those costs of conveyance incurred in setting up calls to ported numbers over and above the cost of conveyance of a non-ported call;

- (iii) provide that where a Qualifying Operator has sought the provision of Portability from a Licensee, either party may refer the question of the reasonableness of certain matters to the Director for his determination. The provisions specify the matters, which comprise the request for and extent of Portability, the costs, including the cost basis for calculating the costs, the cost categorisation and the proposed charges. If a Licensee proposes to use a higher cost method of implementing Portability where a lower cost method could or ought to have been used, the reasonableness of this may also be referred to the Director for his determination. The Director will consult before making any determination;
- (iv) provide that Licensees may be obliged to provide a record of Portability transactions, specifying those numbers in relation to which they provide Portability and the operator to whom the facility is provided.

6. In the case of the BT Licence, the effect of the modifications to the existing provisions in Condition 34C of that licence will be to:

- (a) alter the definition of Portability so that it is identical to the definition in the modifications proposed above, thereby retaining geographic Portability within its ambit, but providing for the inclusion of all types of non-geographic Portability;
- (b) bring provisions concerning the obligation to provide Portability more closely into line with the provisions in the modifications proposed above, by deleting the requirement for the Director to direct the Licensee to provide Portability, this having been done already, and following the same wording of the proposed modification to other licences with respect to its provisions on the Qualifying Operator, the extent of Portability, and the matters referable to the Director for determination as to their reasonableness, other than those connected with costs, cost-bases and charges;
- (c) deal with costs and charges: while the proposed modification to the BT Licence is consistent with the principle that the Licensee bears System Set-Up Costs, the Qualifying Operator bears per number costs and that no specified charge for Additional Conveyance Costs may be made, it having been established as the appropriate approach following the recommendations of the Monopolies and Mergers Commission ("the Commission") in relation to the reference dated 27th April 1995 made by the Director with respect to the BT Licence, the BT Licence retains specific provisions allowing the Director to determine certain costs and standard charges and in that respect differs from the modifications proposed to other licences;
- (d) delete references to the date for making the first determination of costs and charges, it having passed, while retaining provision for an annual determination to be made in relation to each financial year ending on 31st March;
- (e) retain provisions concerning the apportionment of costs relating to Additional Conveyance Costs while so-called 'tromboning' of ported calls may occur until the cut-off date of 31st October 1997, but include new rules on such costs in relation to non-geographic Portability; thereafter the general rule on Additional Conveyance Costs, to the effect that no specific charge for such costs may be made, applies;

- (f) make specific provision in relation to the costs and charges of non-geographic Portability, taking account of the state of development of BT's IN platform for delivery of such calls. A form of 'tromboning' of calls to non-geographic ported numbers will be necessary for two types of services, namely those charged at the equivalent of national rate calls and those known as 'premium rate services', where the charge for the call is generally higher than a national rate call on account of the content element of the call. Until 30th June 1998 in the case of national rate calls, and until 31st December 1998 in the case of premium rate calls, Additional Conveyance Costs incurred in porting non-geographic calls will be shared according to the general rule on tromboning specified by the Commission for geographic Portability. According to this rule, BT is entitled to recover, as a Standard Portability Charge, an amount representing half the difference between the Additional Conveyance Costs it actually incurs in providing Portability by means of the 'tromboning' technique, and the costs that it would have incurred if it had provided Portability by the more efficient 'Call Drop-Back' method;
- (g) retain the requirement for the Director to consult before making any determination;
- (h) in common with the proposed modifications to other licences, make provision that BT may be obliged to provide the Director with a record of its transactions relating to Portability.

7. The reasons for the proposed modifications are as follows:

- (i) the Commission, following its investigation into number Portability arising from the reference made under section 13 of the Act with respect to matters specified in relation to the BT Licence, made certain recommendations. It concluded that the absence of number Portability operated against the public interest, that it inhibited competition in the telecommunications market and that this inhibition of competition was detrimental to the interests of consumers in that prices charged for telecommunications services were likely to be higher, quality and variety of service lower and choice diminished compared to what would otherwise be the case. It recommended appropriate modifications to the BT Licence which was modified on 29th July 1996. The Commission also indicated that the Director should consider applying the same regime to other operators;
- (ii) having considered this matter, the Director has concluded that it is right to ensure that a similar regime to that secured in the case of the BT Licence is put in place which applies to the licensees described in this notice. The proposed modifications apply the principles recommended by the Commission and will ensure that any Licensee whose licence contains the relevant provisions will be placed under an obligation to provide Portability in appropriate circumstances;
- (iii) the Director also considers it desirable that there should be a uniform set of rules and principles to which the provision of number Portability should adhere. Nevertheless, since BT commands a significant proportion of the market in telephony services, the Director considers that it is still appropriate for special rules concerning the charges made by BT for providing number Portability to other operators to exist. It is for this reason that the rules on charges for the provision of number Portability, while adhering to common principles in all cases, differ as respects BT and those licensees other than BT's;
- (iv) The provision of number Portability by BT having already begun as a result of the modification made on 29th July 1996, and the Director desiring to ensure that

clear provision in relation to non-geographic Portability is made, particularly in order to take into account the special features of the BT network, he has concluded that it would be appropriate to modify not only licences other than the BT Licence, but also the BT Licence.

8. The Director is required by section 12(2) of the Act to consider any representations or objections which are duly made and not withdrawn. Following consultation, the Director proposes to make the modifications forthwith following the licensees' agreement to them. Representations or objections to the proposed modifications may be made no later than 16th May 1997 to Adam Jackson, OFTEL, 50 Ludgate Hill, London EC4M 7JJ (tel: 0171 634 8875). Any confidential material should be clearly marked as such and separated out into a confidential annex. All representations or objections received by OFTEL, with the exception of material marked confidential, will be made available for inspection in OFTEL's library. Short comments can also be e-mailed to OFTEL on press.office.oftel@gtnet.gov.uk.
9. In a second stage of consultation, interested parties are invited to send comments to OFTEL no later than 23rd May 1997 on comments received in the first stage. Copies of the proposed modifications may be obtained from Duncan O'Neill at the above address (tel: 0171 634 8873).

ABERDEEN CITY COUNCIL

ROAD TRAFFIC REGULATION ACT 1984

GREAT NORTHERN ROAD/LESLIE ROAD/PRIMROSEHILL DRIVE/SANDILANDS DRIVE/ST MACHAR DRIVE – TRAFFIC MANAGEMENT

ABERDEEN CITY COUNCIL proposes to make "The Aberdeen City Council (Great Northern Road/Leslie Road/Primrosehill Drive/Sandilands Drive/St. Machar Drive, Aberdeen) (Traffic Management) Order 1997" under the Road Traffic Regulation Act 1984.

The effect of the Order will be to introduce a permanent Prohibition of waiting at any time on each of the lengths of road specified in the schedule below.

Also, the Order will provide for a permanent one-way regulation on Sandilands Drive, between its junctions with Ferrier Crescent and the St. Machar Drive/Great Northern Road roundabout whereby the permitted direction of travel will be in a generally westerly direction only.

The one-way regulation is already in place by virtue of an existing temporary traffic Order.

The draft Order is available for inspection along with a plan showing its provisions and an accompanying statement of the Council's reasons for promoting the legislation. These papers may be examined during normal office hours on weekdays between 21st April and 14th May 1997, in the offices of the Council's Roads Section at St. Nicholas House in Broad Street, Aberdeen. Anyone wishing to discuss the proposals from a legal or procedural point of view should first of all call Mr. David Wemyss in the Department of Legal and Corporate Services in the Town House telephone 522523. Anyone who wishes to discuss the strategic or traffic engineering aspect should call Ms. Suzanne Bennett in the Roads Section at 522676.

Any person wishing to object to the Order should send details of the grounds for objection in writing to the undersigned during the statutory objection period which also run from 21st April until 14th May 1997 inclusive. Any objection should state (1) the name and address for the objector, (2) the matters to which it relates, and (3) the grounds on which it is being made.

At this stage, the Council believes that the one-way regulation should be made the subject of a further temporary Order running from 21st April 1997, for a period of three months to cover for the time required to promote the permanent legislation named above, and to hear objections to it. The continuation of temporary powers is on the grounds of the likelihood of danger to the public if the measures are not kept in place. The new temporary Order will be called The Aberdeen City Council (Sandilands Drive, Aberdeen) (Temporary One-Way) Order 1997.

TOWN AND COUNTRY PLANNING (SCOTLAND) ACT 1972

THE FIFE COUNCIL DIVERSION OF FOOTPATH
(MITCHELSTON INDUSTRIAL ESTATE, KIRKCALDY)
ORDER 1997

THE FIFE COUNCIL hereby give notice that they have made an Order under Section 199 of the Town and Country Planning (Scotland) Act 1972 ("the Planning Act") authorising the Diversion of a length of footpath and the creation of an alternative length of footpath both in Mitchelston Industrial Estate, Kirkcaldy. The Fife Council are satisfied that the Order is necessary to enable development specified in the Schedule below to be carried out in accordance with planning permission granted under Part III of the Planning Act.

Copies of the Order and the relevant plan specifying the length of footpath to be diverted and the alternative length to be created may be inspected and the Central Area Office, Town House, Kirkcaldy by any person free of charge between the hours of 8.30am to 4.30pm. Mondays to Fridays during the period of 28 days from publication of this Statutory Notice.

Within that period any person may by written notice addressed to the Central Area Law and Administration Manager, Law and Administration Service, The Fife Council, Town House, Kirkcaldy, KY1 1XW, object to the making of the Order. Failing any objections made within that time period, the Order may be confirmed as an unopposed Order.

Bankruptcy (Scotland) Act 1985: Schedule 5, paragraph 5(3)

Notice of Trust Deed for the Benefit of Creditors of

JOHN ASHWOOD

A TRUST DEED has been granted by John Ashwood, residing at 61 Speirs Avenue, Beith, Ayrshire KA15 1JD, on 2nd April 1997 conveying (to the extent specified in Section 5(4A) of the Bankruptcy (Scotland) Act 1985) his estate to me, Gerald Ian Rankin, of Cork Gully, Kintyre House, 209 West George Street, Glasgow G2 2LW as trustee for the benefit of his creditors generally.

If a creditor wishes to object to the trust deed for the purposes of preventing it becoming a protected trust deed (see notes below on the objections required for that purpose) notification of such objection must be delivered in writing to the Trustee within 5 weeks of the date of publication of this Notice.

Notes:

The trust deed will become a protected trust deed unless within the period of 5 weeks of the date of publication of this Notice in *The Edinburgh Gazette* a majority in number or not less than one third in value of the creditors notify the Trustee in writing that they object to the trust deed and do not wish to accede to it.

The effect of this is that paragraphs 6 and 7 of Schedule 5 to the Act will apply to the trust deed. Briefly, this has the effect of restricting the rights of non-acceding creditors to do diligence (ie to enforce court decrees for unpaid debts) against the debtor and confers certain protection upon the trust deed from being superseded by the sequestration of the debtor's estate.

Bankruptcy (Scotland) Act 1985 : Schedule 5, Paragraph 5(3)

Trust Deed for Creditors by

LINDA MCNEIL NICOL

A Trust Deed has been granted by Linda McNeil Nicol, residing at 73 Leander Crescent, Bellshill ML4 1JA on 15th April 1997 conveying (to the extent specified in Section 5(4A) of the Bankruptcy (Scotland) Act 1985) her estate to me, Bryce Luke Findlay BSc CA MIPA MSPi, Hughes Walker Associates, 50 Darnley Street, Pollokshields, Glasgow G41 2SE, as Trustee for the benefit of her creditors generally.

If a creditor wishes to object to the trust deed for the purposes of preventing it becoming a protected trust deed (see notes below on the objections required for that purpose) notification of such objection must be delivered in writing to the Trustee within 5 weeks of the date of publication of this Notice in *The Edinburgh Gazette*.

Notes:

The trust deed will become a protected trust deed unless within the period of 5 weeks of the date of publication of this Notice in *The Edinburgh Gazette* a majority in number or not less than one third in value of the creditors notify the Trustee in writing that they object to the trust deed and do not wish to accede to it.

The effect of this is that paragraphs 6 and 7 of Schedule 5 to the Act will apply to the trust deed. Briefly, this has the effect of restricting the rights of non-acceding creditors to do diligence (ie to enforce court decrees for unpaid debts) against the debtor and confers certain protection upon the trust deed from being superseded by the sequestration of the debtor's estate.
