ROADS (SCOTLAND) ACT 1984

DUNDEE CITY COUNCIL (ARBROATH ROAD, DUNDEE) (CYCLE ROUTES) ORDER 2002

Notice is hereby given that on 3rd April 2002 Dundee City Council, in exercise of the powers conferred on them by Section 152(2) of the Roads (Scotland) Act 1984, confirmed the above Order.

A copy of the Order as confirmed and the relevant plan specifying the lengths of roads to be stopped up may be inspected at the office of the Director of Support Services, Dundee City Council, 21 City Square, Dundee, by any person free of charge between 8.30am and 5.00pm, Monday to Friday inclusive (except public holidays) during a period of 28 days from 12th April 2002.

The proposed Order was advertised in both the *Dundee Courier and Advertiser* and the *Edinburgh Gazette* on 11th January 2002, and the effect of the Order is as advertised in the said Notice.

The Order as confirmed comes into operation on 22nd April 2002. Patricia McIlquham, Director of Support Services (1501 95)

The City of Edinburgh Council

(TRAFFIC REGULATION; RESTRICTIONS ON WAITING, LOADING AND UNLOADING, AND PARKING PLACES) (VARIATION NO 1) ORDER 2002 - TO/E/99/144

The City of Edinburgh Council on 10th April 2002, made the above mentioned Order which will come into effect on 22nd April 2002. The effect of the Order is as stated in Notice 1501/33 in the *Edinburgh Gazette* Number 24873 dated 5th September 2000 and in the *Scotsman* of that date. A copy of the Order, and the Order being varied, together with an explanatory map and a statement of the Council's Reasons for making the Order, may be examined between the hours of 9.30 am and 3.30 pm Mondays to Fridays during the period from 16th April 2002 to 22nd May 2002 at The City of Edinburgh Council, City Development Department, 1 Cockburn Street, Edinburgh.

Any person wishing to question the validity of the Order or any provision contained in it on the grounds that it is not within the powers conferred by the Road Traffic Regulation Act 1984, as amended, or on the grounds that any requirement of that Act or any relevant regulation has not been complied with in relation to the Order may within six weeks from 10th April 2002 apply to the Court of Session for this purpose.

OFFICE OF GAS AND ELECTRICITY MARKETS

NOTICE OF PROPOSAL TO GRANT AN EXTENSION TO A GAS TRANSPORTERS LICENCE

1. The Gas and Electricity Markets Authority ("the Authority"), pursuant to section 7(5) of the Gas Act 1986, hereby gives notice that it proposes to grant a licence under that section to British Gas Connections, whose registered office is situated at Charter Court, 50 Winsor Road, Slough, Berkshire, SL1 2HA. The extension, if awarded, will authorise the above-named to convey gas through pipes to any premises in the areas briefly described below and shown on maps previously submitted to the Authority.

AREAS

Porterfield Road, Renfrew, Paisley, Scotland

High Craighends, Kilsyth, Glasgow, Scotland

Copies of these maps are available for inspection at the Office of Gas and Electricity Markets at the address shown below.

2. The Authority is of the opinion that the above-named applicant intends to carry on the activities which may be authorised by its licence under section 7 of the Act in the areas named, and that the granting of the licence will be calculated
 - (a) to secure that reasonable demands for gas in Great Britain are met, and
 - (b) to secure effective competition in the supply of gas conveyed through pipes
3. Any representations or objections with respect to the proposed extensions may be made in writing and delivered to J. Ricketts, Office of Gas and Electricity Markets, Licensing Section, 2nd Floor, 9 Millbank, London, SW1P 3GE, no later than 26th April 2002.

NOTICE UNDER S23(3) OF THE GAS ACT 1986

The Gas and Electricity Markets Authority ("the Authority") hereby gives notice pursuant to section 23(3) of the Gas Act 1986 ("the Act") as follows:

1. The Authority proposes to modify the conditions of the gas transportation licence granted to Transco plc ("Transco") treated as granted under section 7 of the Act in two respects, detailed below in Part A and Part B:

Part A

- (1) by amending the following licence condition;
 - (a) standard condition 6: Emergency Services and Enquiry Service Obligations by introducing a new paragraph, paragraph 23 (amendments are shown in bold and italicised); and
- (2) by substituting for special condition 9C: Restrictions on prices for transportation, metering and meter reading services the following licence conditions:

- (a) Special condition 26: Prohibited procurement activities;
- (b) Special condition 27: Licensee's procurement and use of system management services;
- (c) Special condition 28A: Revenue restriction definitions;
- (d) Special condition 28B: Revenue restrictions: Part I a: NTS transportation owner activity revenue restriction, Part I b: LDZ transportation activity revenue restriction, Part II: NTS system operation activity revenue restrictions;
- (e) Special condition 29: Allocation of revenues and costs for calculations under the price control;
- (f) Special condition 30: Supplementary provisions of the revenue restrictions;
- (g) Special condition 31: Restriction of prices in respect of tariff capped metering activities;
- (h) Special condition 32: Non-discrimination in the provision of metering activities;
- (i) Special condition 33: Information to be provided to the Authority in connection with the revenue restriction;
- (j) Special condition 34: Licensee's methodology for determining incremental entry capacity volumes;
- (k) Special condition 35: NTS performance reporting;
- (l) Special condition 36: LDZ incentive scheme and performance reporting;
- (m) Special condition 37: Exit code statement; and
- (n) Schedule A: NTS output measures for the price control.

which, as stated in press release and, in accordance with their terms, dated 22nd February 2002 by the Authority would be deemed to take effect from 0.00 hours on 1st April 2002.

Part B

- (1) by amending the following licence conditions:
 - (a) standard condition 4E: Requirement to Enter into Transportation Arrangements in Conformity with Network Code, by introducing a new paragraph, paragraph 5 (amendments are shown in bold and italicised); and
 - (b) standard condition 9: Network Code, by amending paragraphs 5(b) and 6(a) of that condition and by introducing a new paragraph, paragraph 16 (amendments are shown in bold and italicised).
- 2. The reasons why the Authority proposes to make these licence modifications and their effect are set out in the following documents published by the Authority:

Part A

- (1) **TO proposed modifications** (including NTS revenue restriction, LDZ revenue restrictions, NTS performance measures, LDZ incentive scheme and performance measures) **and metering modifications**:
 - (a) Review of Transco's price control from 2002: Initial thoughts February 2001.
 - (b) Review of Transco's price control from 2002: Draft proposals June 2001.
 - (c) Review of Transco's price control from 2002: Final proposals September 2002.
 - (d) February 2002 document: Licence Fee Cost Recovery Principles.
 - (e) Transco Price Control and NTS SO incentives 2002-07: Explanatory Note to accompany the S23 Notice of Proposed Modifications to Transco's Gas Transporter licence.
- (2) **SO proposed modifications**:
 - (a) September 2001 - Transco's National Transmission System - System Operator incentives 2002-7 Initial proposals.
 - (b) December 2001 - Transco's National Transmission System - system operator incentives 2002-7 Final proposals.
 - (c) Transco Price Control and NTS SO incentives 2002-07: Explanatory Note to accompany the S23 Notice of Proposed Modifications to Transco's Gas Transporter Licence.

To assist with consideration of the licence modification proposals, the Authority has prepared an explanation (see documents 1(e) and 2(c) above) of how the proposals contained in the draft licence modifications set out in this consultation have developed from those outlined in the documents referred to above. This document has been published separately today.

Part B

- (1) **Information disclosure and the modifications to enable third parties to raise network code modifications**:
 - (a) February 2001 - The new gas trading arrangements - further reform of the gas balancing regime - consultation paper.
 - (b) December 2001 - Transco's National Transmission System - system operator incentives 2002-7 Final proposals.
 - (c) Transco Price Control and NTS SO incentives 2002-07: Explanatory Note to accompany the S23 Notice of Proposed Modifications to Transco's Gas Transporter Licence.
- 3. In summary, the effects of the proposed licence modifications are as follows:

Part A

- (i) to introduce new price controls with effect from 1st April 2002 on Transco's NTS and LDZ transportation businesses;
- (ii) to introduce maximum tariff caps in respect of a number of Transco's metering activities;
- (iii) to introduce a non-discrimination condition to ensure that Transco continues to be subject to prohibitions on undue discrimination and preference in the provision of its metering activities, particularly in respect of charging;
- (iv) to introduce individual price controls in respect of the transmission asset owner ("TO") and system operator ("SO") functions of Transco;
- (v) to introduce new incentives for the SO;
- (vi) to introduce a new obligation on Transco to operate the National Transmission System ("NTS") in an efficient, economic and coordinated manner;
- (vii) to introduce a new condition prohibiting certain trading activities other than for the purposes of balancing management and constraints management, and requiring the production of statements on procurement, use of system management services and system management services adjustment data methodology; and
- (viii) to introduce various ancillary provisions to govern the manner in which Transco allocates revenues in respect of its various price controls, to monitor Transco's performance under the SO incentives, to monitor Transco's performance as regards environment in respect of the NTS and LDZ, to monitor the delivery of LDZ outputs and to introduce an incentive scheme in respect of the LDZ and facilitate the development of an expenditure monitoring framework.

Part B

- (i) to introduce a new condition to disclose information relating to the operation of the NTS; and
- (ii) to introduce new provisions that enable persons who are not shippers to propose modifications to the network code.

- 4. More specifically, the effect of the proposed licence modification is as follows:

Part A

(1) Transportation Owner proposals

(i) NTS TO price control

The detail of the proposed modifications referred to above is set out in the documents referred to in paragraphs 2(1)(a) to (e) above.

In summary, the Authority is proposing an RPI-2 price control on revenue from Transco's NTS TO activities

The proposed licence modifications include a provision to adjust the revenue correction factor in 2002/03 for the recovery

of certain licence fee costs from 2001/02, as explained in the document referred to in paragraph 2 (1)(d) above. The base revenue in respect of the NTS TO price control has been set at £337 million in the proposed licence modifications and has been calculated in accordance with the principles set out in the September 2001 final proposals document referred to in 2(1)(e) and includes an adjustment of £1.5 million, to take account of the omission of capital expenditure relating to the construction of a new gas fired power station in the southwest of England.

(ii) LDZ price control

The detail of the proposed modifications is set out in the document referred to in paragraphs 2(1)(a) to (e) above. In summary, the Authority is proposing an RPI-2 price control on the revenue from Transco's LDZ activities.

The proposed licence modifications include provisions:

- (a) to create a revenue driver, which shall operate within the LDZ price control, which shall have the effect that 35 per cent of revenue from LDZ activity shall be linked to changes in demand.
- (b) to adjust the revenue correction factor in 2002/03 for the recovery of certain licence fee costs from 2001/02, as explained in the document referred to in paragraph 2(1)(d) above.

The base revenue in respect of the LDZ price control has been set at £1806 million in the proposed licence modifications and has been calculated in accordance with the principles set out in the September 2001 final proposals document referred to in paragraph 2(1)(c) and includes an adjustment of £19 million, primarily to take account of a correction to the calculation of regulatory asset values.

The proposed licence modifications also include a supplementary incentive mechanism relating to mains replacement for returning to consumers the benefits from changes in the workload mix and sharing with consumers the benefits from efficiency gains.

(iii) Emergency services

A new obligation is proposed on Transco to set charges for emergency services that reflect costs and a reasonable profit

(iv) Exit code

A new obligation is proposed on Transco to describe any services and associated charges made between the NTS and the LDZ.

(v) NTS and LDZ performance reporting conditions

In summary, the Authority is proposing to introduce a reporting framework for the provision of performance information in relation to Transco's NTS and LDZ networks. The reporting framework will seek to ensure that information specified in or under the proposed licence modifications is collected on a consistent basis and to an appropriate degree of accuracy by Transco, and to this end it also includes arrangements for the audit of the information that is collected. This information will be used to facilitate the establishment of an incentive scheme relating to the number and duration of non-contractual interruptions to supply and to monitor the delivery of LDZ outputs and the environmental performance of Transco's networks. The information will also be used to facilitate the development of an expenditure monitoring framework.

The document referred to in paragraph 2(1)(c) explained that Transco would be collecting detailed medium-term performance information in respect of Transco's NTS and LDZ networks. Ofgem is now developing an alternative means of monitoring Transco's approach to medium-term performance and asset-risk management through surveys of processes and procedures. Ofgem therefore does not propose to collect detailed medium-term performance information through these proposed licence modifications.

(2) Metering proposals

The detail of the proposed modifications is set out in the documents referred to in paragraphs 2(1)(a) to (c) and (e) above.

The proposed licence modifications apply to the metering and meter reading activities which Transco provides. Presently Transco sells these to gas shippers, but should Transco contract with other parties to provide these services, the licence will be modified accordingly.

In summary the effect of the proposed licence modifications is to:

- (i) introduce a set of tariff caps with effect from 1st April 2002 on four of Transco's metering activities, namely the annual charges to provide and maintain both domestic credit meters and prepayment meters; the one-off charge for the work to exchange a domestic credit meter with a prepayment meter; and the annual charge for providing a daily metered meter reading service (more particularly described in the documents referred to in paragraph 2(1)(a) to (c) and (e) above), which together with the condition in sub-paragraph (iii) below shall replace the existing price control on each of Transco's metering and meter reading activities; and
- (ii) provide a process whereby Transco may depart from its published statement of charges for the tariff capped activities in consequence of a shipper having engaged in 'cherry-picking' behaviour in unbundling its metering portfolio; and
- (iii) introduce a new non-discrimination condition which will regulate the prices of the remainder of Transco's metering activities and will also require Transco to avoid undue discrimination in the provision of all its metering activities, including those in sub-paragraph (i) above.

(3) System Operator proposals

- A (i) Transco currently faces a series of day-to-day SO incentives, which are contained in Transco's network code. These incentives are intended to ensure that Transco operates the NTS in an efficient and economic manner.
- (ii) The proposed licence modifications contained in this consultation are intended to strengthen Transco's day-to-day SO incentives and to detail all of these incentives within the body of Transco's licence rather than the present approach which is to detail the incentives in Transco's network code.
- (iii) The proposed licence modifications are also intended to facilitate the introduction of long-term auctions of entry capacity rights and to provide Transco with incentives to invest in entry capacity in response to demand.
- (iv) The proposed licence modifications also provide incentives on Transco to efficiently meet customer demand at NTS exit points.
- (v) As part of the process of monitoring the incentives, the proposed licence modifications include additional obligations as regards the reporting and provision of information.

(B) The effect of the proposed new incentives are:

(i) Entry capacity investment incentive

Under the proposed licence modifications, Transco would be obliged to offer for sale minimum levels of firm tradable entry capacity rights for 2002-07. Transco will be obliged to use reasonable endeavours to offer for sale a minimum level of entry capacity for 2002-07 through long-term auctions. Prices emerging from such auctions, and subsequent trading of capacity, will improve the signals to Transco of the need for additional investment in new capacity. In order to achieve this, it is proposed that Transco has an incentive to move away from the initial baseline entry capacity outputs and earn a higher rate of return than the cost of capital allowed under the TO price control where it invests to meet demand over and above the agreed baseline entry output measures.

Two alternative network code modification proposals have been raised in order to introduce long-term auctions. These are the subject of separate consideration by the Authority in accordance with standard condition 9: Network code, of Transco's gas transporters licence.

(ii) Exit capacity investment incentive

Transco can provide exit capacity from the NTS by a number of means, including the building of physical capacity and the use of interruption and constrained storage. The proposed exit capacity incentive will encourage Transco to consider the most efficient means of meeting customer demand at exit points from the NTS.

(iii) Entry capacity buy-back incentive scheme

The proposed modifications to Transco's licence provide for an incentive on the costs of entry capacity buy-backs. The proposed incentive sets yearly target levels of buy back costs for the first two years of the price control. If buy back costs fall below the target Transco will keep a share of the difference. If buy back costs exceed the target Transco will face a share of the additional costs. Transco's rewards and exposures under this incentive will be subject to annual caps and collars. This incentive will replace the existing buy-back incentives contained in the network code.

Transco raised a network code modification proposal to provide for an interim buy back incentive to apply from 1st April 2002 until such time as any modifications may be made to Transco's licence following this consultation process. This modification was approved by the Authority on 28th March 2002.

(iv) System balancing incentive schemes

The proposed system balancing incentive schemes comprise an incentive relating to NTS SO gas costs (shrinkage) and system reserve (operating margins). Under these schemes, Transco would face target levels of costs for the first two years of the price control. If actual costs are above below the target, Transco pays keeps a proportion of any difference, up to an annual cap and collar. In relation to system reserve, Transco will receive an allowance equal to the target level and will be fully exposed to deviations from this target level.

(v) Residual gas balancing incentive

Transco's current residual gas balancing incentive is made up of separate price and linepack elements and is contained in the network code. Under the current price incentive, Transco is encouraged to take balancing actions at prices close to the system average price on the on the day commodity market for gas and the linepack incentive encourages it to minimise day on day changes in linepack.

This incentive will replace the existing residual gas balancing incentives contained in the network code.

Transco raised a network code modification proposal to provide for the implementation of a residual gas balancing incentive consistent with the proposals set out in this notice. Transco has proposed that this incentive apply from 1st April 2002 until such time as any modifications are made to Transco's licence following the outcome of this consultation process. This modification was approved by the Authority on 28th March 2002.

(vi) SO internal costs incentive scheme

This consultation proposes to introduce an incentive scheme for Transco's NTS SO internal costs over which Transco has direct control, comprising operating expenditure, capital expenditure and a return on the SO regulatory value. Under the scheme, Transco would benefit if actual costs are below target and be exposed to a proportion of costs above target levels.

- (3) Following the end of this statutory consultation, consideration of any representations received and Transco providing its written consent to the proposed modifications, if the Authority decides having regard to all facts to proceed to modify Transco's gas transporters licence it shall issue a direction to modify the effect of which shall be that following the introduction of the licence modifications proposed herein, the existing price control set out in special condition 9C of Transco's gas transporters licence shall be disappplied with immediate effect from 1st April 2002.

Part B**(1) Information disclosure**

This proposal is intended to improve the efficiency of the current market and trading arrangements by facilitating the release of system operation information to both shippers and customers. The proposal provides that Transco will be obliged to comply with any obligation in the network code to disclose information relating to the operation of the NTS or the market relating to the operation of the NTS.

(2) Ability of third parties to raise network code modification proposals

The proposals specify that Transco's network code modification rules shall identify persons or classes of persons who are not shippers but who may propose modifications to the network code. The proposals are intended to enable customer groups to raise network code modifications.

5. Copies of the proposed licence modifications, the explanatory document that accompanies the proposed modifications and the other documents referred to in this notice are available (free of charge) from the Ofgem Research and Information Centre (telephone 020 7901 1600) or on the Ofgem website at (www.ofgem.gov.uk).
6. Any representations or objections to the proposed licence modifications must be made before **Friday 24th May 2002** and should be addressed to:

RUSSELL BANKS

A Trust Deed has been granted by Russell Banks, 45 Methven Avenue, Kilmarnock, KA1 4LZ on 25th March 2002 conveying (to the extent specified in Section 5(4A) of the Bankruptcy (Scotland) Act 1985) his estate to me David J Hill, Chartered Accountant, BDO Stoy Hayward, Ballantine House, 168 West George Street, Glasgow as Trustee for the benefit of his creditors generally.

If a creditor wishes to object to the trust deed for the purposes of preventing it becoming a protected trust deed (see notes below on the objections required for that purpose) notification of such objection must be delivered in writing to the Trustee within 5 weeks of the date of publication of this Notice in *The Edinburgh Gazette*.

Notes: The trust deed will become a protected trust deed unless within the period of 5 weeks of the date of publication of this Notice in *The Edinburgh Gazette* a majority in number or not less than one third in value of the creditors notify the Trustee in writing that they object to the trust deed and do not wish to accede to it. The effect of this is that paragraphs 6 and 7 of Schedule 5 to the Act will apply to the trust deed. Briefly, this has the effect of restricting the rights of non-acceding creditors to do diligence (ie to enforce court decrees for unpaid debts) against the debtor and confers certain protection upon the trust deed from being superseded by the sequestration of the debtor's estate.

If a creditor wishes to object to the trust deed for the purposes of preventing it becoming a protected trust deed (see notes below on the objections required for that purpose) notification of such objection must be delivered in writing to the Trustee within 5 weeks of the date of publication of this Notice in *The Edinburgh Gazette*.

Notes: The trust deed will become a protected trust deed unless within the period of 5 weeks of the date of publication of this Notice in *The Edinburgh Gazette* a majority in number or not less than one third in value of the creditors notify the Trustee in writing that they object to the trust deed and do not wish to accede to it. The effect of this is that paragraphs 6 and 7 of Schedule 5 to the Act will apply to the trust deed. Briefly, this has the effect of restricting the rights of non-acceding creditors to do diligence (ie to enforce court decrees for unpaid debts) against the debtor and confers certain protection upon the trust deed from being superseded by the sequestration of the debtor's estate.

Bankruptcy (Scotland) Act 1985: Schedule 5 Paragraph 5(3)
Notice of Trust Deed for the Benefit of Creditors by

EILEEN MCDONALD

A Trust Deed has been granted by Eileen McDonald, residing at 43 Beaulieu Crescent, Wishaw, ML2 8EG on 10th April 2002 conveying (to the extent specified in Section 5(4A) of the Bankruptcy (Scotland) Act 1985) her estate to me, Eric Robert Hugh Nisbet, Insolvency Practitioner, The Glen Drummond Partnership, 4 Turnbull Way, Knightsbridge, Livingston, EH54 8RB as Trustee for the benefit of her creditors generally.

If a creditor wishes to object to the trust deed for the purposes of preventing it becoming a protected trust deed (see notes below on the objections required for that purpose) notification of such objection must be delivered in writing to the Trustee within 5 weeks of the date of publication of this Notice in *The Edinburgh Gazette*.

Notes: The trust deed will become a protected trust deed unless within the period of 5 weeks of the date of publication of this Notice in *The Edinburgh Gazette* a majority in number or not less than one third in value of the creditors notify the Trustee in writing that they object to the trust deed and do not wish to accede to it. The effect of this is that paragraphs 6 and 7 of Schedule 5 to the Act will apply to the trust deed. Briefly, this has the effect of restricting the rights of non-acceding creditors to do diligence (ie to enforce court decrees for unpaid debts) against the debtor and confers certain protection upon the trust deed from being superseded by the sequestration of the debtor's estate.

IAN REYNOLDS & NATALIE VERONICA MCINULTY

Trust Deeds for creditors by Ian Reynolds and Natalie Veronica McInulty, C 140 Fort House, Leith, Edinburgh, EH6 4HS, on 9th April 2002 conveying (to the extent specified in section 5(4A) of the Bankruptcy (Scotland) Act 1985) their Estates to me, David Forbes Rutherford CA, Cowan & Partners, Chartered Accountants, 60 Constitution Street, Leith, Edinburgh as Trustee for the benefit of their creditors generally.

If a creditor wishes to object to the trust deeds for the purposes of preventing them becoming protected trust deeds (see notes below on the objections required for that purpose) notification of such objection must be delivered in writing to the Trustee within 5 weeks of the date of publication of this Notice in *The Edinburgh Gazette*.

Notes: The trust deeds will become protected trust deeds unless within the period of 5 weeks of the date of publication of this Notice in *The Edinburgh Gazette* a majority in number or not less than one third in value of the creditors notify the Trustee in writing that they object to the trust deeds and do not wish to accede to them. The effect of this is that paragraphs 6 and 7 of Schedule 5 to the Act will apply to the trust deeds. Briefly, this has the effect of restricting the rights of non-acceding creditors to do diligence (ie to enforce court decrees for unpaid debts) against the debtors and confers certain protection upon the trust deeds from being superseded by the sequestration of the debtors' estates.

Companies Regulation

IN THE HIGH COURT OF JUSTICE
CHANCERY DIVISION
COMPANIES COURT
In the Matter of
HALIFAX plc

and

In the Matter of

THE FINANCIAL SERVICES AND MARKETS ACT 2000

NOTICE IS HEREBY GIVEN that application has been made by Claim Form dated 2 April 2002 (the "Application") to Her Majesty's High Court of Justice by the above-named Halifax plc for:

1. the sanction of the Court under Part VII of the Financial Services and Markets Act 2000 (the "Act") and in accordance with Regulations made thereunder to a banking business transfer scheme (the "Scheme") providing for the transfer to Bank of Scotland Treasury Services PLC ("BOSTS") of the Halifax Treasury Business (as defined in the Scheme) of Halifax plc; and
2. such other orders (including ancillary orders pursuant to Section 112 of the Act) as the Court considers necessary or convenient.

The Scheme is being applied for in connection with the unification of the treasury businesses carried out by Halifax plc and BOSTS following the merger of their holding companies, Halifax Group plc and The Governor and Company of the Bank of Scotland ("Bank of Scotland"), on 10 September 2001 to create the HBOS Group. Following the coming into effect of the Scheme, the treasury business of the HBOS Group will be conducted by BOSTS, a direct subsidiary of the Bank of Scotland.

A statement setting out the terms of the Scheme will be sent free of charge to any person who requests it from the addresses or telephone numbers or e-mail addresses set out in the Schedule. The Claim Form is directed to be heard before a Judge at the Royal Courts of Justice, Strand, London WC2A 2LL on 3 May 2002. Any person (including an employee of Halifax plc or of BOSTS) who claims that he or she would be adversely affected by the carrying out of the Scheme may appear at the time of the said hearing in person or by Counsel. Any person who intends so to

appear should give not less than two clear days' prior notice in writing of such intention and of the reasons therefor to the solicitors named below.
