

To see to the execution of the Directions hereinbefore contained, for the cleansing and purifying of dwelling-houses, and for the abatement and removal of nuisances and matters injurious to health, in every place in which there shall not be Magistrates, Town-Councils, Commissioners, Trustees, or others having jurisdiction or authority to put the above Directions in force, or where they have not caused them to be effectually executed; and for that purpose—

To visit, from time to time, or cause to be visited, the several dwellings and places where there may be ground for believing that necessity will arise for executing such Directions.

VII. And in every case in which, from the poverty of occupiers, or otherwise, there may be default or delay in the cleansing or purifying of any such dwelling-house, or in the removal of any such nuisance or matter injurious to health; and the Medical Officer, or other person duly authorized as aforesaid, shall certify that the same requires immediate attention.

We authorize and require such Parochial Boards to cause such dwelling-houses to be cleansed and purified, and such drain, ditch, water-course, or gutter, to be frequently and effectually cleansed, and such nuisance, or matter injurious to health, to be removed respectively, and to do all acts, and provide all matters and things necessary for that purpose.

VIII. And we do hereby authorize and require each Parochial Board to direct their Inspector, or any other competent person, to make out from their parochial register, or from any books of medical relief, or from any other public books, or any other available source, a list as complete as the circumstances will admit of being framed, of places where epidemic, endemic, or contagious diseases have of late been frequent.

IX. And we authorize and require the Parochial Boards to cause the Medical Officers employed by them, or specially appointed for the purpose, to visit the places, of which a list shall be made out as aforesaid, and all such neighbouring and other places within such parish or combination as shall appear to such Medical Officers (from being under like circumstances with the places included in such list or otherwise) to require visitations or examination.

X. And each such Medical Officer shall, where it may be necessary, certify in writing to the Parochial Board, and to the Magistrates, Council, Trustees, Commissioners, Inspectors, Surveyors, Occupiers, or others required to execute these Directions and Regulations, all such places as are in a state dangerous to health, or need frequent and effectual cleansing by way of preservation against disease, and such houses as are in a filthy and unwholesome condition, and all such nuisances and matters injurious to health as ought to be cleansed and removed under these Regulations.

XI. And we hereby direct that whenever any Parochial Board shall be certified through their Medical Officer, or otherwise, that any person has been attacked with malignant Cholera within the bounds of their parish or combination, they shall intimate the same by the earliest post, or other obtainable conveyance, to the General Board of Health, in order that the said Board may issue Regulations to such Parochial Board relating to medical relief.

XII. And each such Medical Officer shall forthwith, upon any case of Cholera, or of Typhus, or

other epidemic, and other contagious diseases becoming known to him within the parish or district under his visitation, report the same to the Parochial Board.

XIII. And we do hereby authorize and direct the said Parochial Boards, where it may appear needful to appoint such additional Medical Officers, and also to appoint such other Officers as may be necessary to execute and superintend the execution of these Regulations, and to publish and circulate by printed hand-bills or other means, notices of the provisions of the said Act for the Prevention of Nuisances, and of our Regulations and Instructions, or of such part of any of them as it may appear desirable to make publicly known.

XIV. We direct that where it shall be certified to any Parochial Board by their Medical Officer or Officers, or where it shall otherwise sufficiently appear to such Parochial Board, that extraordinary medical aid is required for persons attacked or threatened by Cholera, or epidemic, endemic, or contagious disease, we authorize and require such Parochial Board, without further notification, to provide sufficient medical aid, and in suitable places, such medicines as may be required within their respective parishes for necessitous persons attacked by Cholera, or by premonitory symptoms, and to make arrangements for the distribution of notices stating the places where aid and medicines shall have been provided.

XV. Whereas it has heretofore been found impracticable to insure proper treatment in their own houses to many of the poorer classes, we authorize and require the Parochial Board, where it shall appear that such extraordinary aid is required, to provide suitable rooms or places capable of accommodating necessitous cases, to which persons attacked by Cholera, who cannot be properly treated in their own houses, may be conveyed.

XVI. And we also authorize and require the Parochial Board, where it shall appear needful, to provide rooms or places of refuge to which may be removed the families of such necessitous persons as have been attacked with Cholera, and all such necessitous persons living under the same roof, with, or in the vicinity of persons so attacked, as the Medical Officer or Officers acting under the authority of the Parochial Board may deem it necessary to remove; and the houses, rooms, or dwellings from which persons may have been so removed to the places of refuge, shall be cleansed and purified by the owners or persons having the care or ordering thereof, or in their default, by the Parochial Board.

XVII. And on the occurrence of any case of Cholera, or other epidemic, endemic, or contagious disease, in any room occupied by one family or more, we hereby authorize and require the Medical Officer to remove, or cause to be removed, either the patient, or so many of the occupants of such room as he shall consider would, unless removed, tend to prevent the recovery of the patient, or endanger the spreading of the disease.

XVIII. And in case of death by Cholera, or any other epidemic, endemic, or contagious disease, we hereby authorize and require the last medical attendant upon the person of the deceased, or in case of there having been no medical attendant, the housekeeper, or person present at the death, or who is in charge of the body, forthwith to notify the fact of the death to the Medical Officer of the district, who is charged with the execution of these Orders for the prevention of the spread of such disease.
