Whereas there was this day read at the Board a Report from the General Board of Health, dated the twenty-sixth day of September last, in the words following; that is to say:—

“We, the General Board of Health, appointed for the purposes of the Public Health Act 1848, have, in pursuance of the provisions of the Act, upon the petition of not less than one-tenth of the inhabitants rated to the relief of the poor of and within the borough of Wigan, and within the boundaries of the said borough, as fixed for the purposes of an Act passed in the sixth year of the reign of King William the Fourth, intituled ‘An Act to provide for the regulation of municipal corporations in England and Wales,’ (the number of the said petitioners greatly exceeding thirty in the whole,) directed George Thomas Clark, a Superintending Inspector, appointed for the purposes of the said Public Health Act, to visit the said borough, and to make public inquiry, and to examine witnesses as to the sewerage, drainage, and supply of water, the state of the burial grounds, the number and sanitary condition of the Inhabitants, and as to any local Acts of

Parliament in force within such borough, for paving, lighting, cleansing, watching, regulating, supplying with water, or improving the said borough, or having relation to the purposes of the said Public Health Act; also as to the natural drainage, areas, and existing municipal, parochial, or other local boundaries, and the boundaries which might be most advantageously adopted for the purposes of that Act:

"And the said Superintending Inspector having previously given the notices directed by the said Public Health Act, proceeded upon the said inquiry in the manner directed by that Act, and hath reported in writing to the said Board upon the several matters with respect to which he was directed to inquire, and upon certain other matters with respect to which he deemed it expedient to report for the purposes of that Act;

"And copies of the said Report, accompanied by a notice stating that written statements might be forwarded to the said Board with respect to any matter contained in, or omitted from the said Report, or any amendment proposed to be made therein, have been duly published and deposited as directed by the said Public Health Act, and the time for forwarding such statements has now elapsed; and all such statements as have been received by the said Board have been duly deposited, as required by that Act;

"And it appears by the said Report, that there is no local Act of Parliament in force within the said borough for paving, lighting, (otherwise than for the profit of proprietors or shareholders), cleansing, watching, regulating, supplying with water, or improving such borough, or any part thereof, or in anywise relating to the purposes of the said Public Health Act;

"Now therefore, We, the said General Board of Health, do hereby, in pursuance of the said Public Health Act, humbly report to your Majesty, that it appears to us to be expedient that the Public Health Act, 1848, and every part thereof, except the sections numbered 50 and 96 in the copies of that Act, printed by your Majesty's printers, should be applied to, and be in force within and throughout the entire area, places, and parts of places comprised within the boundaries of the said borough, for the purposes of the said Act, for the regulation of Municipal Corporations in England and Wales, and that such area, places, and parts of places should be and constitute a district for the purpose of the said Public Health Act accordingly."

Now, therefore, Her Majesty, by and with the advice of Her Privy Council, doth hereby, under and in pursuance of the Public Health Act, 1848, order and direct that from and after the date of this Order, the Public Health Act, and every part thereof, except the sections numbered 50 and 96 in the copies of that Act, printed by Her Majesty's printers, shall be applied to, and be in force within and throughout the entire area, places, and parts of places comprised within the boundaries at present fixed as the boundaries of the borough of Wigan, in the county of Lancaster, and that such area, places, and parts of places shall be, and constitute a district for the purposes of the said Public Health Act accordingly.

WM. L. BATHURST.

And whereas Gavin Milroy, Doctor of Medicine, Superintending Inspector to the said Board, has enquired into the state of the Burial Ground known as the New Bunhill Fields Burial Ground, in the parish of Saint Luke, in the county of Middlesex, and has reported the said Burial Ground to be in a condition dangerous to the health of the persons living in the neighbourhood thereof,

We, the General Board of Health, being of opinion that in order to lessen or remove the danger to health at present arising from the said Burial Ground, it is expedient that interments should be discontinued therein for the present, do hereby order and require the Managers, and other persons having the care and controul of the same, to cause the discontinuance of interments in the said Burial Ground until further order, and to make such provision for interment elsewhere as to them may appear necessary, under the Tenth Section of the Nuisances' Amendment Act aforesaid, or otherwise.

1. That the whole surface of the said Burial Ground (excepting such parts thereof as are now used as foot-paths, or are now covered with flat stones) shall be forthwith covered with quick lime of an uniform thickness of three inches at the least.

2. That when any portion of the said lime shall be removed for the purpose of making or digging any grave in the said Burial Ground, or for any other purpose, such lime shall be replaced immediately after the filling up of the grave, or the completion of such purpose, and a sufficient quantity of quick lime shall be provided, and from time to time shall be applied so as to keep the whole of the said Burying Ground (except the parts above excepted) covered therewith, to the thickness of three inches as aforesaid.

3. That to prevent the contamination of springs of water, every grave which shall be made or dug in the said Burial Ground, shall be covered at the bottom thereof with quick lime of an uniform thickness of three inches at the least, upon which covering of lime the coffin containing the corpse, which shall be buried or deposited in such grave, shall be placed.

4. That not more than one corpse shall be buried or deposited in any grave, and every grave in which any corpse shall be buried or deposited shall be filled up to the level of the ordinary surface of the said Burial Ground, immediately upon the corpse being buried or deposited therein, and no further burial shall take place in the same grave, nor shall any other corpse be deposited therein.

5. That no corpse shall be buried or deposited in any grave in the said Burial Ground at a less distance than two feet and six inches from any other grave, such distance to be computed from that part of the coffin containing such corpse which is nearest to such other grave.

6. That no corpse shall be buried or deposited in any grave in the said Burial Ground in which, after the burial or deposit thereof, there shall not be at least five feet of earth remaining between the ordinary surface of the said Burial Ground and the upper part of the coffin in which such corpse shall be contained.

7. Provided always, that the foregoing Directions and Regulations, which are respectively numbered 3, 4, 5, and 6, shall not apply to burials in stone or brick graves, vaults, or catacombs.

8. That no corpse shall be deposited in any stone or brick grave, vault, or catacomb, in the said Burial Ground, or in any vault or receptacle connected therewith, unless such corpse shall be enclosed in a coffin made of, or lined with lead of the weight of at least six pounds to every superficial square foot, and of the thickness throughout of one-tenth of an inch, nor unless such coffin or lining be soldered up, or otherwise secured so as to be perfectly air-tight.

9. That if, in making or digging any grave in the said Burial Ground, or in opening any part of the said Burial Ground for any purpose whatever, any human bone, or other part of a human body, or any coffin, or portion of a coffin shall be found, or become visible, the earth that shall have been disturbed by such making, digging, or opening, shall be forthwith filled in and covered with quick lime to the depth of at least three inches, in addition to the uniform thickness of lime with which the surface of the said Burial Ground is hereinbefore ordered to be covered.

10. That no grave shall be made or dug, nor shall the ground, for any purpose, or upon any pre-

tence, be opened in any part of the said Burial Ground where a corpse has been buried or deposited within ten years now last past.

And We do further order and direct that this Order shall take effect on the day of the date hereof, and the works and matters above specified shall continue to be done, acted upon, and executed by you, the said President, Elders, and Church-Wardens, and other persons (if any) until further or other Order be made in relation to the premises.
