

for any other purpose, such lime shall be replaced immediately after the filling up of the grave, or the completion of such purpose, and a sufficient quantity of quick lime shall be provided, and from time to time shall be applied, so as to keep the whole of the said portion of the said Burying Ground (except the parts above excepted) covered therewith, to the thickness of three inches as aforesaid.

3. That to prevent the contamination of springs of water, every grave which shall be made or dug in the said Burial Ground, shall be covered at the bottom thereof with quick lime, of an uniform thickness of three inches at the least, upon which covering of lime the coffin containing the corpse, which shall be buried or deposited in such grave, shall be placed.

4. That not more than one corpse shall be buried or deposited in any grave, and every grave in which any corpse shall be buried or deposited shall be filled up to the level of the ordinary surface of the said Burial Ground, immediately upon the corpse being buried or deposited therein, and no further burial shall take place in the same grave, nor shall any other corpse be deposited therein.

5. That no corpse shall be buried or deposited in any grave in the said Burial Ground at a less distance than two feet and six inches from any other grave, such distance to be computed from that part of the coffin containing such corpse which is nearest to such other grave.

6. That no corpse shall be buried or deposited in any grave in the said Burial Ground in which, after the burial or deposit thereof, there shall not be at least five feet of earth remaining between the ordinary surface of the said Burial Ground and the upper part of the coffin in which such corpse shall be contained.

7. Provided always, that the foregoing Directions and Regulations, which are respectively numbered 3, 4, 5, and 6, shall not apply to burials in stone or brick graves, vaults, or catacombs.

8. That no corpse shall be deposited in any stone or brick grave, vault, or catacomb, in the said Burial Ground, or in any vault or receptacle connected therewith, unless such corpse shall be enclosed in a coffin made of, or lined with lead of the weight of at least six pounds to every superficial square foot, and of the thickness throughout of one-tenth of an inch, nor unless such coffin or lining be soldered up, or otherwise secured so as to be perfectly air-tight.

9. That if, in making or digging any grave in the said Burial Ground, or in opening any part of the said Burial Ground for any purpose whatever, any human bone, or other part of a human body, or any coffin, or portion of a coffin shall be found, or become visible, the earth that shall have been disturbed by such making, digging, or opening, shall be forthwith filled in and covered with quick lime to the depth of at least three inches, in addition to the uniform thickness of lime with which the surface of the said Burial Ground is hereinbefore ordered to be covered.

10. That no grave shall be made or dug, nor shall the ground, for any purpose, or upon any pretence, be opened in any part of the said Burial Ground where a corpse has been buried or deposited within ten years now last past.

And We do further order and direct that this Order shall take effect on the day of the date hereof, and the works and matters above specified shall continue to be done, acted upon, and executed by you, the said Church-Wardens, and other persons

(if any) until further or other Order be made in relation to the premises.

Given under our hands, and under the seal of the General Board of Health in Great Britain, this twenty-fourth day of October one thousand eight hundred and forty-nine.

(Signed) CARLISLE.
EDWIN CHADWICK.
