

The Edinburgh Gazette.

Published by Authority.

TUESDAY, MARCH 3, 1857.

At the Court at Windsor, the 7th day of February 1857,

PRESENT,

The QUEEN's Most Excellent Majesty in Council.

HER Majesty in Council was this day pleased, on a representation of the Right Honourable the Lords of the Committee of Council on Education, to appoint the Reverend Thomas Wetherherd Sharpe, M.A., Fellow of Christ's College, Cambridge, to be one of Her Majesty's Assistant-Inspectors of Schools.

FOREIGN-OFFICE, February 26, 1857.

The Queen has been pleased to approve of Mr George H. Fairfield, as Consul at Port Louis, in the Mauritius, for the United States of America.

CROWN-OFFICE, February 25, 1857.

MEMBER returned to serve in the present PARLIAMENT.

Borough of Colchester.

John Gurdon Rebow, of Wivenhoe Park, in the county of Essex, Esq. in the room of the Right Honourable John James Robert Manners, commonly called Lord John James Robert Manners, who has accepted the office of Steward or Bailiff of Her Majesty's Manor of Hempholme.

NOTICE TO MARINERS.

(No. 9.) UNITED STATES—ATLANTIC OCEAN.

Fixed Light at Winter Harbour, Maine.

THE United States' Lighthouse Board has given notice that on and after the 1st day of January 1857, a light would be exhibited from the tower recently erected on the southern point of Mark Island, in Winter Harbour, Frenchman Bay, Maine.

The light is a fixed white light. The illuminating apparatus is a lens of the fifth order. The light is placed at a height of 42 feet above the mean level of the sea, and should be visible from the deck of a ship in ordinary weather at a distance of 11 miles.

The lighthouse is a circular brick tower, painted white, having attached to it a keeper's dwelling of wood, painted brown. The height of the tower is not stated.

Red Light at Kennebunk Pier, Maine.

The Lighthouse Board has also given notice, that on and after the 1st day of January 1857, a light would be exhibited from the lighthouse recently erected on the pier head at the mouth of the Kennebunk River, Maine.

The light is a fixed red light. The illuminating apparatus is a lens of the sixth order. The light is placed at a height of 25 feet above the mean level of the sea, and should be visible from the deck of a ship in ordinary weather at a distance of 8 miles.

The lighthouse is a square wooden structure, painted white, having a lantern on the outer end.

There is a depth of only 3 feet over the bar at low tide. The ordinary rise of the tide is 9 feet.

Caution.—Mariners should be careful not to mistake this light for Goat Island light, in Cape Porpoise harbour, which is only two miles to the north of it, but which is of the natural colour, or white.

By Command of their Lordships,

JOHN WASHINGTON, Hydrographer.

Hydrographic Office, Admiralty, London,
10th February 1857.

This Notice affects the following Admiralty Charts :—America, East Coast, Bay of Fundy to Long Island Sound, No. 2492 ; also United States' Lighthouse List, Nos. 9 and 39.

NOTICE TO MARINERS.

(No. 10.) PACIFIC OCEAN—CALIFORNIA.

Fixed Light at entrance of Humboldt Bay.

THE United States' Lighthouse Board has given notice, that on and after the 20th day of December 1856, a light would be exhibited from the lighthouse recently erected on the North Sands, at the entrance of Humboldt Bay, California, on the Pacific.

The light is a fixed white light. The illuminating apparatus is a lens of the fourth order. The light is placed at a height of 46 feet above the mean level of the sea, and should be visible
