NOTICE TO MARINERS.

(No. 17.)—CHANNEL ISLANDS.

Harbour Lights at St Helier's Harbour, Jersey.

THE Harbour Master of St Helier's Harbour has given notice that, from the 1st day of May 1867, the *green* light on the Old North Pier, St Helier's Harbour, will be discontinued, and two harbour lights substituted.

The two lights will be *green* lights, one, the outer, placed on the western angle of Albert Pier, the other on the Esplanade parapet, and bearing from each other N.E. $\frac{1}{4}$ N. and S.W. $\frac{1}{4}$ S., distant 633 yards.

Directions.—The inner light will not be visible to vessels approaching the harbour from the eastward at low water until it comes on a bearing N.E. $\frac{1}{4}$ N.

The two lights in a line will lead midway between Hinguette and Grune St Michael, but over a sunken rock which lies at a distance of $2\frac{1}{2}$ cables outside the high head of Hinguette, and over which there is only 7 feet water at low-water springs; it also leads between the Oyster rocks and the Dogs nest, and midway between the Cloches rocks, clear of all danger.

Telegraph Cable between Jersey and France.

The Telegraph cable between Jersey and France lies in a N.W. by W. $\frac{1}{4}$ W., and S.E. by E. $\frac{1}{4}$ E. direction, between Fliquet bay, Jersey, and Pirou, France. The shore end or landing in Jersey is marked by a white martello tower, on which is painted in black letters the word *Telegraph*, surmounted by a green disc. On the French coast at Pirou the shore end is distinguished by a white tower 25 feet high, elevated above the sand hills, on which is painted in black letters the word *Telegraph*, surmounted by a green disc.

To prevent damage to the cable by the anchors, grapnels, oyster dredges, &c., used by fishermen the following directions are given:—

The course of the cable is distinctly indicated by the two towers, which, during the day, are a sufficient guide for clearing it; it can be avoided by means of the bearings given above; fishing vessels on the coast of Jersey which have no compass can avoid the cable to the south by keeping Coupe point in one with the Tower de Rozel, and to the north by keeping the Guard-house in Touley bay in one with the Tour de Rozel.

[All bearings are magnetic. Variation $20^{\circ} 50'$ Westerly, in 1867.]

By Command of their Lordships,

GEO. HENRY RICHARDS, Hydrographer.

Hydrographic Office, Admiralty, London,
25th March 1867.

This Notice affects the following Admiralty Charts:—Jersey Island, No. 62; Channel Islands, No. 2701; and France, North Coast, Sheet ix, Port Blanc to St Germain, No. 2668. Also, British Lights List, No. 34, and the Jersey Island Pilot, page 14.

Harbour Light at Port au Prince.

Information has been received through the French Government, that for some time past a *fixed white* light has been exhibited for the use of the Liverpool Steam Ship Company, from the mast of a Pontoon moored close to the Islet, and as it is often more brilliant than, and can be seen before, the light on the point, navigators are cautioned not to mistake the one for the other.
