Rome, Sept. 25.

N Monday laft, the Refident of *Portugat* had an Audience of the Pope, whom he acquainted, by o der of the Prince Regent his Mafler, with his Highnetics having fitted out 11 Men of War, and that they were put to Sea,

with defign to act against the Cosfairs of Argiers. The Duke d' Effress, Extraordinary Ambaffador from France, continues inditpofed, and, by advice of his Phyficians, is gone 10 país iome time at Albana, to change the Air. We are told that the Marquis d: Liche is on his way wither, in quality of Ambaffa ior from Spain.

This week arrived here two or Venice, Sept. 30. three Veffels from Sicily and Naples, by whom we have advice, That the Maquis de Villa Franca, Viceroy of Sicily is using all enueavors to regain Augusta, from whence the erench receive very great advantages, and that the Spaniards promifed themfelve, they should facceed therein; That the Marquis de los Veleg had not yet taken upon him the Government of Naples, but that the Marquis d' Aftorgas was preparing to quit it, not without fome furprize, that his Succeffor came fo fudden and unexpected upon him, even before he knew that he was made choice of. From Candia we understand, That the Baffa there laboured all he could, to bring back the Greeks, and other People, to inhabit that Kingdom, whom the hard utage they received, had before obliged to retire from thence.

Warfaw, Sept. 23. Two days fince, the Treasurer of the Crown, who is at prefent here, received Letters by an extriordinary Courier from Leopol, which, among other things, gave an account, That they were there in a continual expectation of hearing from his Majefly, who was advanced with his Forces against the Turks and Tanars; it is true, the great numbers of the Enemy, fo far exceeding the Troops of the Crown, even joined with those of the Dutchy of Lithuania, are sufficient ro make us almost despair of any fuccels : but when we confider how it hath pleafed Goa hitherto to preferve us, and that to. above fix weeks our King continued in his Camp near Leopol, with not above 6000 Men, in defiance of an Army of near 200 000, we have reason to promise our felves a happy iffue of his Majesties design, which accor ding to the report of all our Letrets, was to make use of the diforder and difcouragement the late ill fuce-ffes had given the Enemy, who, it's faid, were fo difficult ned thereat, that nothing but the express and peremptory orders they received from the Grand Signior, could have obliged them to advance a fecond time towards Leopol. We have been long kept in expectation of the conjunction of the Moscovites with our Forces, and fill we are fed with hopes only.

Vienna, Sept. 29. Here is arrived the Marquis Spinola Duke of St. Pierre, to confummate his Marriage with the daughter of the Marquis de los Balbaies, Ambaffador here from the Crown of Spain. The laft week was fent hence 5000 pieces of Cloth, and a great quantity of Linnen towards the Rbine, for the cloathing the Army commanded by General Montcenenti, which will be confiderably reinforced, and go early into Winterquarters, that they may be in a condition to come the iooner into the Field the next Spring. The Regiment which hath been raifed in the Hereditary Count ies by Count Porta, for the fervice of spain, is yielded to the Emperor, and has orders to march the next month into stiria. The Canon of Metz, and the Secretary Sorman, who were fome time fince taken into Arreft, for having contrived, as was faid, the escape of the Prince of Furstembergh, have obtained their liberty again.

Ratikbon, ept. 30. The States of the Circle of Suaula, have, by their Deputies here, lately prefented a Memorial to the Dyer; in which they promife to contribute, to the utmost of their power, towards the fubfiltence of the Emperors Army, on condition it take nor is Winter-quarters within the faid Circle; and yefterday a Letter was written by the Dyet, to recommend the matter to his Imperial Majetty. The 27 paft, the last hand was put to the refolution of the Dyet concerning the Guaranty demanded by the Elector of Brandenburg, which is to be fent to the Directors and Colonels of the three Circles, appointed by the Empire, for the putting in execution the Imperial Ban against the King of Sueden, as Duke of Bremen.

Lubick, Ottob. 5.) Since the news we had that the Day: s had poffeffed themfelves of *Roltock* and of their intention of making a Magazine there; we have nor heard any thing from that fide, farther, than that the King of Denmark, and the Elector of Brandenburgh, continued their refolution of forcing their paffage into Pomeren. Some have reported, that the Prince of Anbals hath been fene out with a Body of Men towards Steein, as if there was a defign to make fome attempt on that place. There are at prefert five Danifh Regiments before Wilmar, which block it up on the fide of the Land, hough, it's faid, that the Port is fill open. The Danifh lect continues to Cru fe on the Coafts of Pomeren; to hunder all face, ars from coming from Aucden.

hinder all fuce rs from coming from sueden, Francfiet, Octob. 6. The Imperial A my continues not tai from Landam, having fortified Lauterburgh and other places in the Bifhoprick of Spire. Two Regiments of the Circle of Saxon, have paffed the Mainat Ajchafj. nbu.g, and take their way towards Halbion, from whence, it's faid, they will continue their much to join the Imperial Army, And on the other fide of the Rhine, the Marquis de Grana is bringing a Regiment of Dragoons, and another of Foor, towards Wormes, which gives people a jealousie, that the Imperialists lotend to place a Garifon there. The Troopsot the Duke of Lorfain, are at prefent in the Countrey of the Duke of Deuxponts, where they will have their quarters for fome time. About eight days fince, the Imperial Refident, after having had a Conference, here with the Marquis of Grana, parted hence towards Franconia and Suabia'; ic is supposed his business is, to dispose the States of that Circle, to admit the Imperial Troops to winter among them. Preparation is making here for the reception of the Dutchels Dowager of Lorrain, who intends to come and refide in this City.

stade, Ollob. 6. Our Troops have had a brave rencounter with the Enemy, and above soo Prifoners have been
