

Electors of *Cologne*; and being arrived there, desired of the Magistrates that they might pass through the Town on their march to the Countrey of *Mark*; but being entered the place, they possessed themselves of the several Gates, and obliged the *Cologne* Soldiers to march out; it is said that our Elector hath been obliged hereto, for that others were about making themselves Masters of this Town.

Hamburg, Jan. 4. The last week the King and Queen of *Denmark* passed very near this City, and lodged at *Rensburgh*, whither our Magistrates sent three Deputies to Compliment their Majesties; who after having stayed two dayes at *Rensburg*, continued their journey to *Copenhagen*, where they purposed to arrive before the 10 instant. It is reported that his Majesty intends not to be idle this Winter, having formed a design upon *Schonen*, which formerly belonged to *Denmark*, in order whereunto the Baron *de Rosenkrans*, Lieutenant-General of the Kings Forces, has orders to embark several Regiments of Foot at *Wismar*, and to pass with them to *Zeland*; and at the same time, the Duke of *Holstein*, and Major-General *Scack*, have directions to repair forthwith to *Copenhagen*. Three Regiments of Danish Cavalry, one of Foot, and one of Dragoons, have taken their quarters in the Baillages which are common to us and the City of *Lubeck*, and 200 *Imperialists* under the command of Colonel *Moltzow* in the small Town of *Bergerdorf* belonging to this City. The Major-General *Arendsdorf* remains with several Troops at *Wismar*, with the Title of Governor of all the Kings new Conquests. The Sieur *Habeus*, the Imperial Commissary, having executed his Commission at *Bremen*, in seizing and confiscating the Goods and Effects that were found there belonging to the Crown of *Sueden*, is expected here within few dayes, with the same orders, and from hence he will pass to *Lubeck*.

Ditto, Jan. 7. The Danish and Imperial Troops are now lodged in the four Lands belonging to this City, and our Soldiers are returned from thence. We have news of the Surrender of *Carelsburg*, and that the *Confederates* will, notwithstanding the season, once more besiege *Stade*, which they believe is not at this time very well provided, and they expect a Frost in order to it.

Berlin, Jan. 5. The 2d instant, some Suedish Troops sent out from *Straelsont*, attacked *Wolgaß*, and without great difficulty entered the Town, now possessed by the *Brandenburghs*, who retired into the Castle, from whence they fired very furiously upon the *Suedes*, who had raised several Batteries in the Town, and afterwards made a very brisk Sally upon them, beat them from their Batteries, and nailed up several of their Cannon; but the *Suedes* rallying, beat the *Brandenburghs* into the Castle again: yet finding they could not do any good, retired to *Straelsont*. But another Party sent from *Straelsont*, under the command of Major-General *Gosshusen*, had better success; for having attacked the New Fort in the Isle of *Ushedome*, held by 100 *Brandenburghs*, after nine dayes forced them to surrender upon discretion.

Bremen, Jan. 8. This morning we have by an Express, advice, that the 6th instant, the *Suedes* in *Carelsburg* made a Capitulation with the *Confederates*; and that in pursuance of it, the *Suedes* were to march out, and the others to enter the place as this day. The Imperial Commissary having finished his Commission in seizing and confiscating all the Goods and Effects of the *Suedes* that could be found here, is preparing to pass on the same errand to *Hamburg*.

Brussels, Jan. 14. Last night his Excellency the Duke de *Villa Hermosa*, gave out Commissions for the raising of five Troops of Horse, and it is expected the rest of the Commissions will be distributed in a day or two. We have been somewhat alarmed by the news we had, that 10000 French are marching towards *Luxemburg*, and that their design is upon *Treves* where they are said to hold a Correspondence with some principal men. Don *Emanuel de Lyra*, the Spanish Minister at the *Hague*, has, as we are informed, received from *Spain* the necessary Passports for the French Ambassadors; who, in expectation of them, and those from *Holland*, continue still at *Charleville*. From *Hamburg* our last Letters told us, that the King of *Denmark* was returning to *Copenhagen*; that he seemed to have some thoughts to endeavor to recover *Schonen* from the *Suedes*, and that in order to that design, great part of the Troops that had been employed in the Siege of *Wismar*, were marching towards *Zeland*. And that in the Duchy of *Bremen*, the *Confederates* made great preparations for the Siege of *Stade*.

Hague, Jan. 14. We are now assured of the conclusion of a Treaty of Commerce between this State and the Crown of *Sueden*, and we hope ere long to have a like Treaty with *France*; by which means, though the War continue at Land, our Trade will be open at Sea. From *Bremen* we have advice, That the *Suedes* in *Carelsburg*, who from 1200 were reduced to 400, had made an accord with the *Confederates*, viz. That they would surrender the place to them, if they were not relieved before the 12 instant, of which there is not any appearance. The *Confederates*, it seems, are resolved not to lose any time but to soon as they have *Carelsburg*, to go and attack *Stade*. The Plenipotentiaries of this State will now certainly part in two or three dayes for *Nimeguen*, where it is supposed Sir *Leoline Jenkins*, one of the English Ambassadors, is by this time arrived. The Prince of *Orange* is in Town again from *Scheldt*.

Paris, Jan. 15. We still discourse with much uncertainty concerning the Kings journey, that is, whether it is designed; some telling us it will be towards the *Rhine*, others towards *Flanders*, &c. but it is time only can truly inform us; in the mean time the Troops of the Kings Household have been Mustered, and are commanded to be ready to march the 10th of the next month. According to our last advice, the Kings Ambassadors for the Treaty at *Nimeguen*, were still at *Charleville*, expecting the necessary Passports from *Spain* and *Holland*. Monsieur *Courzin*, who is appointed to go for *England* with the Character of Ambassador Extraordinary, will set forward on his way thither about the latter end of the next month.
