

from *Bulle*. These Troops have been thus order'd, the better to observe the motions of the Imperial Army, which, it's said, intends to pass the *Rhine* at *Rhinfeldt*, which hitherto continues encamped about a quarter of a mile from *Friburg*, from whence the Duke of *Lorraine* detached the 5th instant five Regiments, who are to march towards *Spire*, and to join the *Munster* and *Luxemburg* Troops who advance towards the *Saar*; and before we repass'd the *Rhine*, the Duke of *Luxemburg* sent likewise a detachment to *Lorraine*, to join the *Mareschal Crequi*. We hear that the *Imperialists* at *Philipsburg*, have had a design upon *Deux-Ponts*, but that it did not succeed. Major General *Schulz* is with 3 or 4000 *Imperialists* near *Rhinfeldt*.

*Cologne*, Octob. 12. The *Munster* and *Luxemburg* Troops continue in the same quarters we advised you in our last, expecting, as is said, farther orders concerning their passing the *Rhine*. From *Neuremberg* they write, that there was arrived Prince *Adolph*, Uncle to the present King of *Sweden*, on his way to *Vienna*, whither he goes about matters relating to his succession to the Ducy of *Deux-Ponts*.

*Charleville*, Octob. 12. Yesterday arrived near this place a detachment from the *Mareschal de Schomburgs* Army, consisting in five Battalions of Guards, and 30 Squadrons of Horse, under the command of the *Marquis de Renel* Lieutenant General; to morrow they will continue their march towards *Lorraine*, to join the *Mareschal de Crequi*, who is at present on the *Saar*. The *Mareschal de Schomburg* marches, we hear, with his Army towards *Cambresis*.

*Hagu*, Octob. 16. Yesterday the Envoy of the Bishop of *Munster* parted hence with the Ratifications of the Treaty concluded some time since between *Spain*, this State, and that Bishop. The Court of Justice assembles every day forenoon and afternoon, to determine the affair of the *Sieur de Groot*, which is still depending. It seems there is some difference in *Oost-Frisland* between the Princes and the States of that Countrey, on the subject of the 1200 *Munsterians* which remain there, and have taken an Oath of Fidelity to the Princes, pursuant to an agreement made between her and the Bishop, at which those States are said to be dissatisfied, and that they are sending Deputies hither to represent the matter to this State. The *Sieur Odyke*, Ambassador for the Treaty at *Nimeguen*, before he begins his journey thither, will make a stop to *Zealand*, and it's said the Prince of *Orange* intends likewise to be there at the opening the Assembly of the States of that Province on the 22 instant. Our Letters from *Hamburg* of the 13 instant inform us, that the *Danes* were gone into Winter-quarters, and that in *Pomeren*, *Denmin* continued to make a brave defence, and that in a late attack 300 of the Besiegers, with several Officers of Note, had been killed.

*Brussels*, Octob. 16. Though the Duke of *Villa Hermosa* continues still his quarters at *Tikemont*, yet the Troops march off daily to their Winter quarters: those designed for *Namur* and *Luxemburg*, marched 3 or 4 dayes since under the command of the Prince of *Chimay*, Governor of *Luxemburg*; and the 14 instant, a Spanish Regiment of Foot marched towards *Cambray*, Convoied by a considerable Body of Horse and Dragoons, which latter will be divided into *Cambray*, *Valenciennes* and *Mons*. We are told that ten Dutch Regiments of Foot and four of Horse are to Winter in these Provinces, and 6000 more at *Hassel* in the Countrey of *Lige*, where they are already arrived, but a party of *Maschick* had the day before taken out of the Neighborhood most of the Cattel belonging to those Inhabitants, by which they will suffer very much this Winter. The *Osnabrug* Troops will remain likewise in these Provinces this Winter; and though we do not certainly hear that their quarters are assigned, yet the general belief is, that they will be very suddenly in the Countrey of *Luxemburg*, and the Duke

himself will, it's said, pass the Winter here, where our General-Governor the Duke of *Villa Hermosa* is expected about the latter end of the next week. The *Mareschal de Schomburg* having sent off a detachment of 4000 Horse towards *Lorraine*, is at present encamped near *Chastan Cambresis*, which, as likewise *Chasteler*, he is fortifying, and by means of them, and *Bouchain* on the other side *Cambray*, will in all appearance be block'd up this Winter. Two dayes since the French made another incursion into the Countrey of *Waes*, and carried away a very great number of Cattel and Horses, for default of payment of Contributions. From *Ipres* we hear, that several parties of the Garison of *Aine* have lately been abroad, and that they have taken Prisoners most of the Gentlemen that lived about *Ipres*, who must ransom themselves; and on the other hand, the Spaniards of *Nimpois*, of *St Omers* and *Ipres*, ravage the French Territories, and likewise take Prisoners all they can meet with. Don *Pedro de Ronquillo*, one of the Plenipotentiaries of *Spain* for the Treaty at *Nimeguen*, is at present at *Antwerp*.

*Paris*, Octob. 17. From *Brst* they write, that the 5th instant sailed from thence the Men of War equipped there for the *West Indies*, under the command of the Count d' *Arles*, Vice-admiral of *France*. From *Flanders* our Letters give us an account that the *Mareschal de Schomburg* was encamped with his Army near *Chastan Cambresis*, from whence it's thought he will remove his Forces into Winter-quarters, after having fortified several Posts about *Cambray*, in order to the blocking it up this Winter. In our former we have given you an account that the Duke of *Luxemburg* had passed the *Rhine* at *Brisac*, since we have advice, that the 10 instant, he was encamped near *Mulsbanfen* in the Countrey of *Santogow*, from whence he had sent several detachments to observe the Imperial Army which was encamped between *Friburg* and *Rhinfeldt*, at a which latter place the Duke of *Lorraine* pretended to pass the *Rhine*, and accordingly had caused a Bridge to be prepared. And this day it is said, that Letters are arrived of the 11 instant from the Duke of *Luxemburgs* Camp, which say that the *Imperialists* had actually pass'd the *Rhine* at *Rhinfeldt*.

THE Master, Warden, and Assistant of the Trinity House of Deptford Strand, finding upon a Survey lately by them taken of their two ancient Lighthouses at *Leyliffie*, upon the Coast of *Suffolk*, that the upper of the said Lights, is by the too near approach of certain Dwelling-houses lately erected there, rendered less easie to be distinguished than heretofore, have (for the benefit of Navigation Trading alongst that Coast, at their own proper Cost and Charges, and without any increase of Duty to be expected for the same) removed the said upper Lighthouse to a Hill somewhat more distant to the Northward of the said Town; and for the further Improvement thereof, converted the same from a Candle to a Fire light, removing also the lower Light so as to bear S.
