

son of *Wesel*, and 4 or 500 men from *Lipstadt*, are on their march to join the said Regiment, which lies at present near *Murle* in the Country of *Recklinchhusen*, and to second it, in making some attempt upon *Dorsten*, which may be of very ill consequence. Here has been a report for some dayes in Town, of an appearance of the *Imperialists* quitting *Bonne* very suddenly, and that our Elector will go and reside there.

Hague, Decemb. 15. On Sunday last his Highness the Prince of *Orange* returned hither from *Zealand*, having adjusted matters there wholly to his satisfaction, and as the good and quiet of that Province required. For the States having conferred on his Highness as their Stadtholder, full power and authority to do as he should see cause for the removing the disorders occasioned by the Election of *Dr. Momina* into the Ministry of *Middleburg*; his Highness gave order for the removing the said *Dr. Momina*, and another Minister, who, it seems, had misbehaved himself in this occasion, as likewise for the displacing a Burgher-master, three Schepenen, and as many Raedtsheerten or Counsellors, together with ten Captains, and several other inferior Officers of the Militia of the City of *Middleburg*, their respective places being supplied with others appointed by his Highness; all which was accordingly punctually executed. The States of *Holland* have absolutely consented to the state of the War for the next year, so that the Recruits are now going to be taken in hand, and we are told that Commissions are preparing for the raising two new Regiments of Dragoons. From *Nimeguen* they write, that *Don Pedro de Ronquillo*, Ambassador and Plenipotentiary of *Spain*, was arrived there. The Squadron of Men of War under the command of the Sieur *Allemonde*, which was in the *Spanish* service in *Sicily*, is arrived, four or five of them being got in the *Texel*, the others endeavoured to put into the *Maese*, but were hindered by the Ice, so that it's thought they are gone for *Schonevelt* on the Coast of *Zealand*. From *Flanders* our Letters tell us, that the *French* have had a design to surprize *Valenciennes*, by means of some intelligence they had within the Town; that accordingly they had brought a great number of Troops into the Neighborhood of that City, but that the design had been in time discovered by the *Spaniards*.

Disso, Decemb. 18. Yesterday in the afternoon arrived here the Count *Waldeck* from his Estate at *Cuylenburg*. Upon the advice that came from *Flanders*, that the *French* were drawing their Forces together, in order to some enterprize of importance, orders were given to the Cavalry of this State which was quartered in *Brabant*, forthwith to march to assist the *Spaniards*; but those fears being over, the said Troops are, we hear, returned to their quarters. The States of *Holland* will, it's thought, separate in a day or two, the chief matter at present before them for these dayes past, being to raise the monies necessary for the defraying the charges of the next Campaign. We have the certainty of the arrival of the *Spanish* Plate Fleet at *St Lucar*.

Brussels, Decemb. 13. Yesterday in the afternoon marched from hence the whole Garrison of this City, consisting in 2000 Horse, and some Foot and Dragoons, towards *Valenciennes*, upon advice that came from thence, that the *French* had an enterprize in hand upon that City, in which they were, as it's said, to have been assisted by some persons within the place; but the same having been timely discovered, the Enemies design was prevented. The *French* Parties come frequently very near to this place, so that the wayes are unsafe for

Travellers. This day we have news here, that the *French* have an eye upon *St Gissain*, especially if the Frost continue.

Disso, Decemb. 22. The Most Christian King has sent orders to all the Governors of his places in *Flanders*, not to require any Contributions of the *Spanish* Inhabitants, and on the other side not to permit his Subjects to pay any; and that in case our Troops proceed to execution; that they in return destroy all the Villages and places in the district of the Governor who causes the execution to be made. We are told that the *Mareschal de Crequi's* Troops are marching from *Lorraine* towards these Countries. The *French* have put strong Garrisons into *Mabenge* and *Banay*, which places they fortifie; and *Cambray* and *Valenciennes* are at present so blocked up, that there is no getting into them without Passports from the *French*. At *Valenciennes* the Governor has formed two Regiments of the poorest of the Inhabitants, who wanting other employment, will receive some maintenance that way, and by this means they will not be only kept quiet, but the Garrison will be likewise reinforced. We apprehend the Enemy will attempt some of our places during this hard Frost.

Falmouth, Dec. 7. About the beginning of the last month put in here a small Vessel, Frigate built, called the *Endeavor* of London, of about 30 Tuns, William Gillingham Master, Laden at *Amsterdam* in September last, and bound for *Nantes* in France with Pepper marked C. H. and Wax marked G. P. D. and other Commodities; which Vessel, after some dayes sailed again from hence, but not having been since heard of, it is suspected that some foul play hath been used: wherefore if any person can stop the said Vessel and Goods in any Port, into which it may have put, and cause the persons to be secured; upon notice given thereof to Mr Robert Barton Notary on the Back of the Royal Exchange, London, their pains shall be thankfully requited, and charges repaid.

Advertisements.

A brief History of the War with the *Indians* in *New-England*. From June 24. 1675. to August 12. 1696. when *Philip*, alias *Metacomb*, the principal Author and Beginner of the War, was slain. Sold by *Rich. Chiswell*, at the *Rose* and *Crown* in *St Pauls* Church-yard.

S Tolen out of the Stable of Mr *Tho: Saxe* of *Ipsington* in the County of *Norfolk* near *Lynne* on the 10 instant, a bright bay Mare, about 15 hands a large star on her forehead, a short bob tail, all her paces, a short gallop, and hath had the scratches on her fore feet; she hath some time been ringed. Whoever gives notice of her to the aforesaid Mr *Saxe*, or to Mr *Weekes* at the *Chequer* in *Holborn*, shall be well rewarded.
