The following is Part of the Character given of this Work by the Authors of The Critical Review:

"If ever signal Industry and Labour in the Service of the Public merited Approbation, this Work now before us is certainly intitled to the most favourable Reception. Such an immense Mass of Materials is collected into these Volumes, that the Title conveys a very inadequate Idea of the Variety of Subjects they contain: In short, several Pages would prove insufficient to shew the Multiplicity of useful Articles comprehended in this Performance, which cannot fail to gratify the Curiosity of the most inquisitive Reader. Should the Profit arising from this Publication bear a just Proportion to the Pains and Expence with which it must have been executed, we need not hesitate to affirm, that it would prove one of the most lucrative Productions of late Years."
