Dantzick, Jan. 30: According to the advices we receive from *Warsaw*, the King and Queen of *Poland* made their publick Entry into that City, on the 13th instant, and the next day the Dyer assailed for the first time. It was the 20 before they could choose their Marshal or Speaker, occasioned by several disputes which arose among the Nobility; Since, their debate has been wholly concerning an Oath to be prescribed to all the Members of the said Dyer, by which every one is to declare, that he has neither received rewards or promises of rewards, to promote the interests of any foreign-Power.

Copenhagen, Feb. 2. There happens at present little to advise from hence, for we are wholly taken up in our preparations for the next Campaign. The Fleet *Tromp* is not yet parted for *Holland*, the King has given him an Earldom in *Schonen* of which he will take possession the next Summer. The Swedes we hear have poised several Troops about *Christianstadt*, to prevent the incursions of that Garrison, which would otherwise be very troublesome to them. From *Eisenburg* we have several various reports, and among other things, that the Velt Marschal General *Helmfeldt* is dead.

Hamburg, Feb. 12. Yesterday according to our last Letters from *Berlin*, the Elector of *Brandenburg* meant to begin his journey from thence towards *Cleves*. From *Mecklenburg* we hear, That the Danes having after great contest, quitted the Fortress of *Borzon*, the *Brandenburg* Troops had again taken possession of it. The Duke of *Holstein Ploen*, has taken a review of the Troops of the Duke of *Wolfembittel*, near the City of that name, of which several Regiments are to be sent to the assistance of *Denmark*. And we are told, that General *Chauvet* with 1000 men of the Duke of *Zell*, Lieutenant-General *Paduwell* with 3000 of the Duke of *Hannover*, and Major General *Hedel*, with 4000 *Munsterians*, are to pass likewise into the service of the King of *Denmark*.

Strasbourg, Febr. 12. On Wednesday last the French completed the demolition of *Haguenaw*, and after having burnt about 120 houses, which were in the middle of the Town, viz. the Town house, the Toll-house, the Arsenal, &c. the Garrison marched out. They continue to demolish the Walls of *Silverne*, but are resolved not only to keep the Castle, but likewise to enlarge

it, and to add to it several new Fortifications. The 10 instant died at *Durlach* the Prince of *Baden Durlach*, General of the Troops of the Circle.

Cologne, Feb. 16. The Inhabitants of the Dutchy of *Juliers*, have finally agreed with the Intendant of *Magistrats* about their Contributions, after the same rate as formerly. On Saturday last the *Sieur Straermin* parted hence on his way to *Nimeguen*, where he is to assist as the Emperors third Ambassador. The last night there was a great allarm at *Bonne*, and the whole Garrison was in Arms, the occasion of which was, the hasty retreat of the Imperial Troops, which lay quartered in the neighbouring Villages, under the Walls of *Bonne*, upon the news they had of the approach of a French party of 2000 Horse. There is some discourse of a design that hath been discovered to surprize *Treves*, but without any certainty. The Bishop of *Munster* is said to be dangerously ill. There are Letters from the Elector of *Bavaria's* Court which say, that his Electoral Highness had given out Commissions for the raising four new Regiments, for the reinforcing the Army he has already on foot.

Hague, Feb. 16. Here are arrived this week Deputies from the Magistrates of *Midleburg*, and the *Collegium qualifcarum*, and have had Audience of his Highness, to whom they were sent to pray that *Dr. Momma* might be restored to his Ministry. The Deputies for foreign affairs have for some days past been very busie, having had long and close Conferences concerning the affairs of the War. From *Germany* we have an account, that the French have burnt above two hundred Villages in *Alsacia*, and the *Lower Palatinate*; and that several Imperial Troops had passed the *Rhine* to hinder them from going on with their design. We have Letters from *Mosco* of the 31 of *December*, which give a large account of a conspiracy that had been formed against the life of the present Czar, whom it was intended to have poisoned, to make way for the young Prince, which the late Czar had by the Empress who is now living, and was his second, to succeed in the Empire, and that several persons of the greatest quality, were suspected to be concerned in this Treason, of which we must expect a confirmation.

Disso, Feb. 19. We are told that the States-General will fit out a Squadron of 15 Men of War, to serve in the *Baltick* this summer, in conjunction with the Fleet of *Denmark*. The City of *Hamburg* is sending a Deputation hither, to pray the States to continue their endeavours for the opposing the establishing a Toll at *Gluckstadt*. His Highness intends to part hence in few days for *Gronningen*, together with the Commissioners appointed by the States, to endeavour to compose certain differences which have for some time been on foot between the City of *Gronningen* and the *Omme-tanden*. From *Nimeguen* we have advice, that the main Point, concerning the Form or Project of the Powers, to be used by all the Parties, was finally adjusted, to the satisfaction of the Mediators; and that the only difficulty which remained, was between the French and the *Danes*, concerning the language they were to use in their publick Instruments, which matter will in all appearance, be likewise accommodated in few days, and then the next thing will be, That the Parties propose, and hand to the Mediators, the Terms and Conditions on which they are willing to make the peace. His Highness after having dispatched matters at *Gronningen*, will go to *Cleve* or *Wesel*, to meet the Elector of *Brandenburgh* there.

Brussels, Feb. 16. A great many Families come daily hither as well as to other places, who are forced to leave their Habitations in the French Conquests, where their Estates are confiscated. We have nothing new since what we writ in our last concerning the motions of the Enemy, who we then told you were encamped near *Enobien*, to the number of 20000 men; however we cannot think the weather will permit them yet for some time to set down before any place, to make a formal Siege; and against the season is proper for it, we hope to be in a good posture of defence. Our Letters from *Alsacia* complain very much of the great desolations made by the French in those parts. *Don Emanuel de Lyra* the Spanish Minister at the *Hague* continues still here.

Leicester, Feb. 2. The 21 past four persons were apprehended near *Ratshdall* in this County, being suspected to be Highway-men; two of them were well mounted upon two Geldings, the one a handsome sprightly yellow bay, with a flaxen Main and tail, a white in his forehead and down his nose, of a good height, and ten years old or upwards; the other less, of a chestnut colour, with two little spots of white in his forehead, and about six years old: with one of the said two persons, who calls himself *Hutchin*, were found 21 pieces of broad Gold of 20s. three pieces of 22s. two of 11s. and eight Guineys. The other two persons call themselves *Bradley* and *Burroughs*; the one of these was on foot, and the other very ill mounted. These persons not being able to give a good account of themselves, nor security for their appearance at the next Assizes, are at present prisoners in this Gaol.
