Admiralty-Office, December 26, 1780.

A P T A I N Hartwell, of His Majesty's Ship Brune, who lest Antigua the 12th of last Month, and landed in Baltimore in Ireland the 18th Instant, arrived this Morning with Letters from Commodore Hotham and Commissioner Lasorey to Mr. Stephens, of which the following are Extracts.

Vengeance, Carenage, St. Lucia, October 23, 1780.

N the 10th in the Morning, the Blanche, which was charged with my Letter to you of that Date, failed with the Alcmene for Antigua; a that Date, failed with the Alcmene for Antigua; a short Time made a great Change in our Situation; for on the Night following, (viz. the 10th) there arose a Hurricane at N. E. which encreased by the Morning to a Degree of Violence that is not to be described. The Ajax, Montagu, and Egmont, which had been anchored before the Entrance of the Hurland was a hose a Day light all forced to Son Harbour, were, before Day-light, all forced to Sea, as was the Amazon foon after; and the Deal-Castle and Camelion, which had been stationed in Gros Is and Camerion, which had been trationed in Gros Islet Bay for the Protection of the Hospitals, shared the same Fate. The Vengeance, with the Ætna and Vesuvius Bombs, and the San Vincente Snow, were moored within the Carenage, and prepared with every Caution that could be taken to withstand the Tempest, which had already put several of the Transports on Shore, and by this Time blew with an irrefulable Fury, attended with an incessant Flood of Rain. A little after Twelve o'Clock, the Vengeance parted her Cable, and tailed upon the Rocks. It now became absolutely requisite to cut away her Masts, the Loss of which, with the Help of a Number of Guns that were got forward, eased considerably the Force with which she struck; and by the Wind sortunately shifting two or three Points farther to the Eastward, her Stern swung off the Rocks, and she was, beyond every Expectation, saved; for it now blew, if possible, with redoubled Violence, and nothing was to be feen or expected but Ruin, Deso-lation, and Destruction in every Part. The San Vincente Snow, with many of the Transports, Victuallers, and Traders, were difmasted and mostly all on Shore; in fhort, no Representation can equal the Scene of Distress that appeared before us.
The Storm continued with incredible Vehemence

during the whole Day; but the Weather about Midnight became more moderate, and by the next Morning the Wind was totally abated. The Direction of it was from N.N.E. to E.S.E. of

Twenty-nine Hours Duration.
On the 13th the Montagu anchored before the Harbour, without a Mast or Bowsprit standing, Eight Feet Water in her Hold, and all her Powder damaged: Every Assistance was given to get her into the Carenage, where she is now secured in Sasety. The Ajax returned to this Anchorage on the 21st, with the Loss of her Main Yard, Main Top Mast and Mizen-Mast. The Beaver's Prize, being on her Passage to Barbadoes, was unfortunately wrecked on the Back of this Island near Vieux Fort; and it gives me Pain to add, that all

her Officers and Crew, except 17 Men, perished.

The Preservation of the Amazon is so singular and extraordinary, that I herewith transmit a Copy of the Account given of it by Captain Finch.

n, &c. W. HOTHAM.

Amazon, English Harbour, Ost. 17, 1780.

AM at a Loss whether to express in the strong est Terms my Regret for the Missortunes that

[Price Three-Pence Halfpenny.]

have happened to His Majesty's Ship under my Command, or my Satisfaction in having got her in

Safety to this Port. I flatter myself you saw the Necessity we were under of putting to Sea the Morning after the Commencement of the Gale. We then stood under our Storm Staysails W. by N. from the Carenage; it was but for a short Time the Canvas held; after that the Ship behaved perfectly well, and appeared to every Person on Board as capable of standing the Gale that ensued, as was possible for any Ship. About Seven o'Clock at Night the Gale encreased to a Dregree that can better be conceived from the Confequences, than any Description I can give. There was an evident Necessity of doing something to relieve the Ship, but I was unwilling to cut away the lower Masts till the last Extremity, and accordingly ordered the People up to cut away the Main Top Mast; my Orders were attempted to be put in Execution with the utmost Alacrity, but before it could be accomplished, I found in necessary to call them down to cut away the Main Mait. Whilft I was waiting for the Men to come down, a sudden Gust overset the Ship; most of the Officers, with myself and a Number of the Ship's Company, got upon the Side of the Ship; the Wheel on the Quarter Deck was then under Water. In that Situation I could perceive the Ship fettle bodily some Feet, until the Water was up to the After Part of the Slides of the Carronades on the Weather Side. Notwithstanding the Ship was so far gone, upon the Masts, Bowsprit, &c. going away, she righted as far as to bring the Lee Gunwale even with the Water's Edge. By the Exertions of all the Officers and Men we foon got the Lee Quarter Deck Guns and Carronades overboard, and foon after one of the Forecastle Guns, and Sheet Anchor cut away, which had so good an Effect, that we were enabled to get to the Pumps and Lee-Guns on the Main-Deck; the Throwing them overboard was in our Situation a Work of great Difficulty, and I could perceive the Ship was going down by the Stern: This arduous Talk was accomplished under the Direction of Lieutenant Pakenham, whose great Experience and determined Perseverance marked him out as per-haps the only Individual to whom (amidst such great Exertions) a Pre-eminence could be given; and I do not think it possible for greater Exertions to be made. The Water was above the Cables on the Orlop-Deck, with a vast Quantity between Decks; and the Stump of the Main-Mast falling out of the Step occasioned one of the Chain-Pumps to be rendered useless, as was the other soon after; by the great Activity of the two Carpenters Mates they were alternately cleared; upon my representing this to Commissioner Laforey, he has appointed them both to act as Carpenters, (one in the Amazon, the other in the Antigua) till your Pleasure is known. Besides the Loss of our Masts, &c. the Ship has suffered confiderable Damages, the Particulars of which I cannot fend until a Survey has been held upon The Books and Papers are totally dethe Ship. stroyed, so that it is not in my Power particularly to ascertain the Loss we have suffered in Men; I believe Twenty drowned, besides a Number wounded, For further Particulars I refer you to the Gentleman who will deliver this Letter to you.

The Carpenter was the only Officer lost upon this Occasion.

I have the Honor to be, &c. &c. WM: CLEMENT FINCH.

To Commodore Hotham,

Ajax Carenage, St. Lucia, November 5, 1780.

T is with the deepest Concern that to my Account of the 23d of October, I am now obliged to add a still more melancholy one, of the Effects of the late dreadful Hurricane, the Force of which, it appears,

, was not to be withstood,

Upon the 25th the Governor of Martinique sent me over, in a Flag of Truce, Thirty one Men of the Crews of the Andromeda and Laurel; the former overfet and foundered about Six Leagues to Windward of that Island; and, by the Account which the Pilot of her gives, who was one of the People faved, there is little Expectation that the Endymion can have escaped, as, he says, from her Situation when they last saw her, and the Direction of the Wind at that Time, it was impossible for her to to have cleared the Island upon either Tack: The Laurel was driven on Shore, and very foon went to Pieces. The Marquis de Bouillé could not confider Men, who had only the Force of the Elements to cope with, in the Light of Enemies; but that having, in common with themselves, partaken of the Danger were in like Manner entitled to every Comfort and Relief that could be given in a Time of such universal Calamity and Distress. He laments only that rtheir Numbers were fo few, and that among them no Officer was faved. In his Way of acting he has shewn himself equally humane and generous; and I should be wanting in those Sentiments myself, if I omitted to point out to their Lordships his Conduct upon this unhappy Occasion.

A Franch Convoy, of about Sixty Sail, under Two Frigates, intended for Martinique, have been totally dispersed, many of them lost, and some taken. One of the Frigates, named the luconstant, got into Fort Royal difmatted, but the other I have not heard of. The Experiment was driven on Shore at Guadaloupe, the Juno was cast away at St. Vincent, and a Brig, with 160 Men on board, Troops and others, foundered at the fame Place, and all perished. The Hurricane, by every Account, has been more fatal to the French Islands than to ours: It was felt at Tobago, but not in such a Degree as

to do any Mischief.

By the Vigilant, that anchored here To-day, I am informed by Commissioner Laforey, that the Venus is arrived at English Harbour with the Loss of her Fore Mast and Bowsprit; and the Trade at St. Kitt's put to Sea on the Approach of the Gale, but the greatest Part are since returned.

I am, &c. W. HOTHAM.

Carcass, at Antigua, November 10, 1780. S Commodore Hotham's Letters will contain every material Communication to the Time of their Date, I have only left to add, that I am am forry to inform you none of the Ships missing fince the late Hurricane have arrived, or been heard of here, to this Time.

1 am, &c.
