Portici, April 15. The last Letters from Calabria, which were of the 5th Instant, mention, that since the last great Shock of the Earthquake, the 28th of March, several slight Shocks have been felt, and that from some of the Fissures in the Earth (of which there are now many in Calabria) small Ashes are emitted; and that a thick Smoke issues from the Mountain of Caulono, from which it is conjectured that a fresh Volcano is opened there.

Vienna, April 26. On Friday Morning his Imperial Majesty set out on his Tour to the several Fortresses in Hungary.

A very slight Shock of an Earthquake was felt last Tuesday Morning in several Parts of this City and its Neighbourhood, but without occasioning the smallest Damage. By Letters from Commorn and other Cities in Hungary, we learn, that on the same Day repeated Shocks of a similar Nature were felt there, which caused a great Alarm and considerable Damage to several of the Public Buildings, but with the Loss of few or no Lives.
