

Cahnsa, with 3 Mortar-pieces with all their appurtenances; 2400 Horses with Saddles, Pitols, and Carriages, with a very great quantity of Provisions, were likewise taken. And all this cost the Swedes but one Cornet, one Quarter-master, one Adjutant, 2 Corporals, and between 40 and 50 common Soldiers, who were killed; an Adjutant-General, 3 Captains of Horse, 2 Captains of Foot, a Quarter-Master, 3 Lieutenants, 3 Cornets, a Corporal, and about 100 common Soldiers wounded.

Basil, Febr. 10. About 15000 French have passed the Rhine a League from this City, and have not onely burnt several Villages near *Roslen*, but likewise are fallen into the *Swarzwald*; at present they attack the Castle of *Rien*, which will not be able to hold out long, not having above two days provisions. We apprehend they will attack *Brombach* and *Rhinfelden*; in the mean time the Country is miserably ruined.

Mentz, Febr. 13. The Elector of *Saxony* hath lately concluded a Treaty with the Duke of *Hanover*, of which we know not the contents. The Imperial Troops in these parts have orders to be ready to march upon the least warning. The Elector *Palatine* is indisposed.

Cologne, Febr. 15. The Magistrates of this City, notwithstanding all the menaces that are made use of against them, have now finally refused to pay the 40000 Crowns demanded of them. Yesterday passed through this City an Extraordinary Courier coming from *Vienne*, and going to *Brussels*.

Brussels, Febr. 15. We are told from *Luxemburg*, that the Princess of *Chimay* is upon her way hither; and that all the Ladies of quality that were there are retired to several places, upon the expectation they have, that *Luxemburg* will be very suddenly besieged. The French Troops are marching from *Alsace*, the *Franche Comte*, and those parts, towards the *Moselle*, to join the French Kings Army, whose design will now in all appearance discover it self in few days.

Ditto, Febr. 18. On Wednesday Count *Waldeck* came hither from *Malines*, by order of his Highness the Prince of *Orange*, to assist Monsieur *Dickfels*, the Envoy of the States General, in several Conferences he hath had with the Duke of *Villa Hermosa*, concerning the Preparations for the approaching Campaign, which are very backward here. The French in the new Conquests have made a show, as if they would suddenly enter upon action, the Marschal de *Humieres* having summoned in a great many Pioneers and Carriages, but since, we hear, has dismiss them again. *Mons* continues to be so closely blocked up, that, in all appearance, the first enterprize they undertake will be that Siege. Yesterday the Duke of *Neuburg* sent an Express hither to acquaint his Excellency, that the Munster Regiment designed for the re-enforcement of the Garrison of *Luxemburg*, desire to be excused, being at present at so great a distance, that they should be put out of a condition of acting by so long a march. We are told, that the States General are much dissatisfied with the proceedings of the Bishop of *Munster's* Troops in *Friesland*, where they have blocked up a Castle belonging to the States. Our Letters from *Strasbourg* of the 11th, tell us, that the French make great incursions into the Marquisate of *Baden*, that they have burnt the Town, and besieged the Castle of *Ketel*, belonging to the Marquis of *Baden Dourlach*, wherein are 300 Imperialists; they have also burnt and pillaged several other small places, and the Imperialists are not without fear, that *Offenburg* will be next attacked, Monsieur *Mentz* having drawn about 15000 men together.

Hague, Febr. 18. The 15 and 16 instant several Conferences were held with the Ministers of the Allies residing here. We are in expectation to see what the designs of the French King are, which at present keep all people in suspense. From the Elector of *Bavaria's* Court we have advice, that the Cardinal d'Essee was upon his departure from the Hague, without any great success in his Negotiation.

Paris, Febr. 19. The 8th instant their Majesties lodged at *Nongis*, the 9th at *Povins*, the 10th at *Sexant*, where they continued till the 13th, and then parted from thence to *la Fere Champenoise*, the 14th they lodged at *Poyvr*, and the 15th at *Vitri le Francois* (where our last Letters left them) from whence they intended to go to *Trent*. The King has a very great and rich Equipage with him, and, as is said, several Millions in Money. It is said there will be an Interview between his Majesty and the Elector of *Bavaria*. This morning the Duke of *Oleons* parted from hence to go and join the Court. From *Alsace* we have advice that the Marschal de *Cerqui* was passed the Rhine at *Brifac* with 20000 Men, Horse and Foot, and was entered into *Bisigow*, from whence it was thought he would pass into *Swabia*, to join with the Troops of the Elector of *Bavaria*; or, as others imagine, his design is to attack *Offenburg*. From *Sicily* we have an account, that the Spaniards have been forced to quit the Siege of *Tormina*. This evening we receive Letters from the Count d'Essee Vicar Admiral of *France*, commanding a Squadron of Men of War in the *West Indies*, by which we have an account, that having taken from the Dutch the Isle of *Gezee*, and *Cape Vert*, he continues his Voyage to *Tobago*, of which he had likewise made himself Master, and of all the Dutch Men of War that were there. The Commander *Binkes* with most of the principal Officers were killed in the Action, and the rest made prisoners.

Dover, Febr. 9. A small English built Ketch burthen from 16 to 20 Tuns, being forsaken by all her men, was near the Fort of *Mardike* on the Coast of *Flanders*, taken up by *John Druce* Master of a Vessel belonging to *Dover*, and by him brought into that Port, and there secured by the *Saluet* parish the right Proprietor shall appear and make out his Property. The parties concerned may apply themselves to the said *John Druce* at *Dover*.
