Brussels, Nov. 18. On Wednesday Monsieur *Dickvelt* parted hence on his journey for *Paris*, and was followed yesterday by Monsieur *Boreel* his Colleague, who continues very much indisposed. The Count d' *Anvergne* is come hither from *France*, to repossess himself of his Estate at *Bergen-op-zoom*, which hath been confiscated by the *Dutch* during the War. On Wednesday night arrived the *Spanish* Ordinaty, by it his Excellency received Letters, which assure him, that the Ratifications were dispatched, and that the person who is to bring them, would part from

Madrid, the day after his Majesty's return to *Madrid* from the *Elcurial*, which would be on the 6th instant; and that a considerable Sum of money should be remitted hither, by the next Ordinary. Lieutenant General *Agurto* has received his Patent for a yearly Pension of 1200 Crowns during his life. The States of *Brabant* have given his Excellency 15 thousand Rations at a double proportion for a year, which is more by a half than what he demanded; but it is with this proviso, that it shall not take place till the Peace be ratified and declared.

Paris, Novemb 19. The 20 days which were added to the term appointed for the exchange of the Ratifications of the Treaty concluded between this Crown and *Spain* expire on Tuesday, and yet we have no account of the said Ratifications. The Prince of *Conde* is very ill of the Gout at *Chantilly*. The last Letters from *Alsace* said, that the Troops were separated and gone into their Winter-quarters; that the *Marschal de Crequi*, and all the General Officers, except the *Sieur de Monclar*, had leave to return hither: And that the *Marschal de Crequi* understanding that the *Imperialists* were at work to re-fortify the Fort of *Kiel*, had sent a detachment thither to hinder them. The Duke of *Luxemburg* is arrived at Court, having put the Kings Army, which he commanded, into Winter-quarters in the Dutchy of *Fuliers*, and the Countrey of *Liege*. The King has given the Regiment of *Champagne* to the Chevalier *Colbert*.
