

stay till farther orders. The Marechal de Crequi continues encamped near *Minden*.

*Minden*, July 1. We have nothing to add to the account we gave you in our former of the action that happened the 30<sup>th</sup> past in sight of this place, between the French and the Brandenburgs, on the occasion of the formers passing the *Wefer*, not being yet able to know the particulars of the loss sustained on either side, which must needs have been considerable, considering the sharpness of the Engagement for two or three hours, besides the attack the French made upon the House of *Bergen*, in which they were three times repulsed with a great slaughter of men. The Marechal de Crequi continues with the Army under his command in our Neighborhood, and his Cannon, we understand, is come to *Lipstadt*, and ordered to remain there, which makes us hope, that the Marechal has received advice of the Peace between his King and our Elector being near concluding, and that for that reason he defers his entering upon any farther Enterprises, till he see what the issue of that Negotiation will be, which we hope we shall know in a day or two, and that it will be such as we have cause to wish it may be.

*Copenhagen*, July 7. We have had a report here these two days of an Engagement between ten Danish Men of War, and a Squadron of Suedes, that came out from *Calmar*, and that 3 or 4 Ships have been taken on either side; but the whole is related with so much uncertainty, that it meets with no great credit.

*Brussels*, July 11. On Saturday the Dutchess de *Villa Hermosa* returned hither from *Treuevenen*, and this afternoon was to wait upon her Royal Highness. His Excellency goes hence some time the next week for *Luxemburg*. The Prince of *Issenghien* continues so very ill, that his recovery is despair'd of. Our French Letters give us an account, that the King of *Spain's* Marriage with Madamoiselle d'*Orleans* will be Celebrated by Proxy the 20<sup>th</sup> of the next Month, and that soon after her Majesty will begin her journey for *Spain*. From *Liege* of the 8<sup>th</sup> instant they write, that that morning ten large Boats laden with French Cannon and Ammunition passed by that City down the River.

*Brussels*, July 14. Yesterday arrived our Spanish Ordinary, bringing Letters of the 28 of *June*, which inform us, that the King has appointed *Don Pedro de Ronquillos* to go for *England* in quality of his Ambassador. The Dutchess of *Modena* arrived the 11<sup>th</sup> instant at *Cologne*, on her way hither. The French Army under the command of the Marechal de Crequi, is marching to the Country of *Oldenburg*, which belongs to the King of *Denmark*.

*Hague*, July 14. The States of *Holland* have not as yet taken any resolution in the matters before them. The Treaty at *Bremen* between the Suedes and the *Lunenburs* is broken off. The French Army marches towards *Oldenburg*, and according to our last advices, was encamped about four Leagues from the City of *Bremen*.

*Paris*, July 15. The 9<sup>th</sup> instant the Articles of Marriage of the King of *Spain* with Madamoiselle d'*Orleans*, were signed by the Kings Commissioners, and the Spanish Ambassador. The Marriage will be Celebrated here by Proxy about the middle of the next month. The Count de *Morstein* is arrived here in quality of Ambassador Extraordinary from *Portu-*

gal. We have an account of a very sharp Action between the French and Brandenburgs on the 30<sup>th</sup> past near *Minden*, in which both sides sustained great loss.

*Lime*, July 5. The third instant arrived here the *Amity* of this place in 24 hours from *Guernzey*, by which we have an account, that a Pink of that Island, bound for *Rochele*, met with a French Man of War, who told her, that three Algerine Men of War were cruising off of *Ushant*.

*Portsmouth*, July 6. The *Plimouth*, the *Woolwich*, the *Edgar*, the *Harwich*, and several other of the Kings Ships, are now Paying off here.

*Lin*, July 7. On Thursday last at *East-Dearbam* (a considerable and well built Market-Town) happened a most sad accident by Fire, which in less than three hours consumed the best part of the Town, the people having scarce time to save their Books of Accounts, and 6 or 7 persons were burnt; the loss is great, and many Families are forced to take up their lodging in the Church.

*Edenburg*, July 3. This evening his Grace the Duke of *Bucclugh* and *Monmouth* was treated by this City at a very noble Collation of Meats and Fruits, after which the Lord Provost presented his Grace with his Freedom of this City, the Letters being in a large Gold Box. On Monday next his Grace parts hence on his return for *England*.
